PUI AUDIO Audio Transducers and Elements

RoHS Compliant **This product is RoHS compliant.**

ELECTROMECHANICAL AUDIO TRANSDUCERS

Features:

- Lower resonant frequency
- Smaller in size
- Available in multiple mounting types
- Multiple tones at multiple frequencies

Applications:

- Appliances and white goods
- Medical Equipment
- Test Equipment
- POS and Barcode Scanners
- Hand held devices

For quantities greater than listed, call for quote.

PIEZO CERAMIC BENDERS (ELEMENTS)

Features:

- Low cost option
- Low power consumption
- High reliability
- Available in brass, stainless steel and nickel alloy
- Can also be used as a switch

Applications:

- Appliances and white goods
- Medical Equipment
- Test Equipment
- POS and Barcode Scanners

For quantities greater than listed, call for quote.

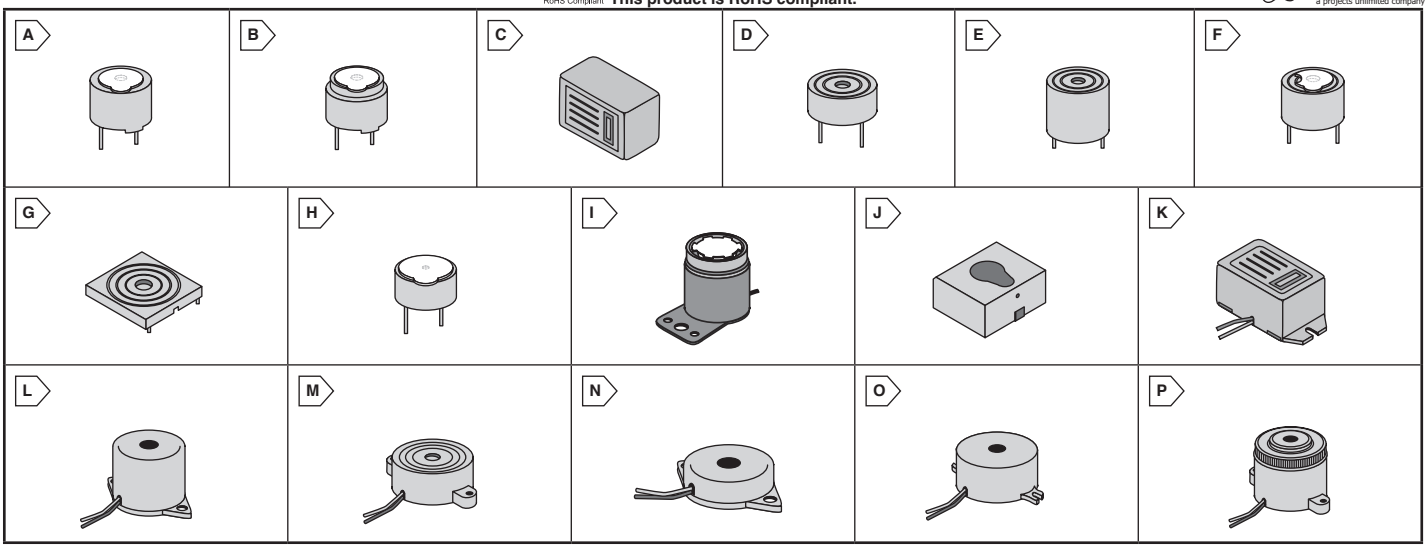
PUI AUDIO Audio Indicators

RoHS Compliant **This product is RoHS compliant.**



AUDIO INDICATORS

Features:
- Built in drive circuit
- Available in multiple mounting types
- Available in different tones

Additional Features for Flange and Panel Mount:
- Higher SPL output
- Wider voltage range

Applications:
- Appliances and white goods
- Medical Equipment
- Test Equipment
- POS and Barcode Scanners
- Hand held devices

Additional Applications for Flange and Panel Mount:
- Industrial equipment
- Leisure equipment (golf carts, ATV's, etc.)

For quantities greater than listed, call for quote.

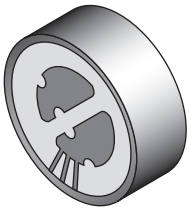
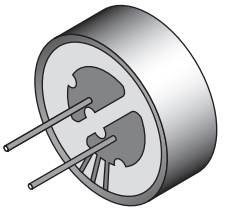
PUI AUDIO Electret Condenser Microphones

RoHS Compliant **This product is RoHS compliant.**



Solder Pad



Pin

Surface Mount

ELECTRET CONDENSER MICROPHONES

Features:

- Electret Condenser
- Small in size
- Available in omni-directional, uni-directional and noise canceling
- Available with internal feedback capacitors
- Low power consumption
- Available in multiple mounting types

Applications:

- Hand Held Devices
- Medical equipment and systems
- Security alarms and equipment
- Computer related devices
- Voice-activated equipment

Projects Unlimited

Audio

Omni-Directional

For quantities greater than listed, call for quote.

PUI AUDIO Speakers

RoHS Compliant **This product is RoHS compliant.**

MULTI-LAYER PIEZO SPEAKERS

Features:
- Thin compact size
- Low power consumption
- Multiple mounting options
- Wide frequency range
- 100% Factory Tested

Applications:
- Touch panel displays
- Camera equipment
- Other handheld devices

For quantities greater than listed, call for quote.

SPEAKERS

Features:
- Wide range of sizes
- Available in paper, mylar and cloth cone
- Low profile versions available
- Multiple configurations such as round, oval, square
- Also available in surface mount and PCB mount

Applications:
- Hand held devices
- Medical equipment and systems
- Security alarms and equipment
- Industrial equipment
- Leisure equipment
- Test equipment
- POS and Barcode scanners
- Desktop Phones
- Computers

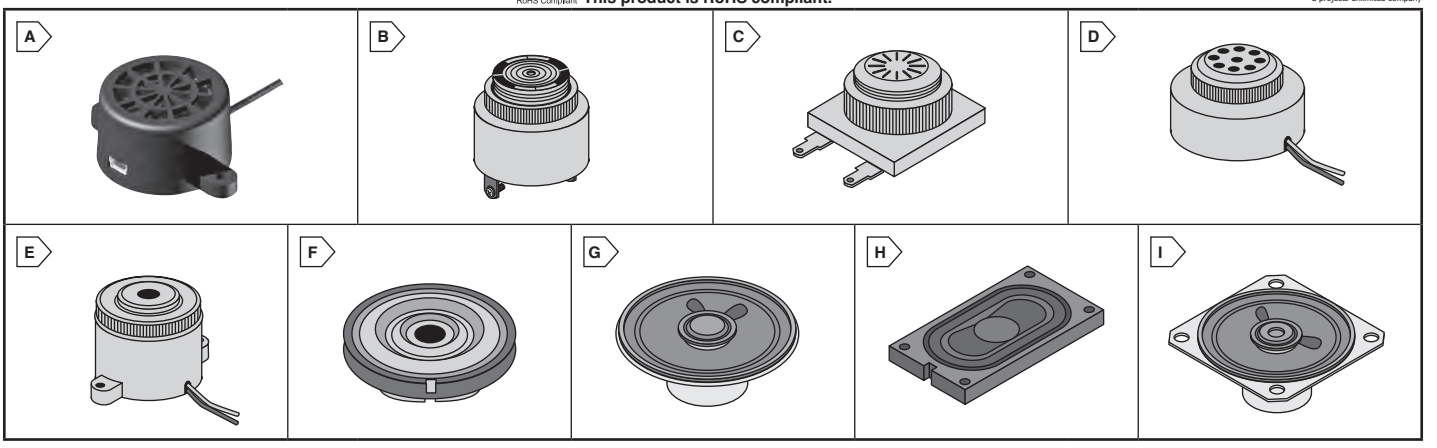
PUI AUDIO Speakers, Indicators, and Sirens

RoHS Compliant **This product is RoHS compliant.**



PROGRAMMABLE INDICATORS

Specifications:
- Voltage Range: 7 ~ 24VDC
- Max. File Length: 33 seconds

Features:
- Ability to program any WAV or MP3 file
- Simple-to-use Windows interface

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	PUI Part No.	Fig.	Dimensions: mm (H x W x L)	Resonant Frequency (Hz)	Tone	SPL Min. (10cm)	Rated Voltage	Rated Current (Max. mA)	Washable	Price Each 1	25	50	100

PANEL MOUNT SPEAKERS

Features:
- Higher SPL output
- Wider voltage range

Applications:
- Industrial equipment
- Leisure equipment (golf carts, ATV's, etc.)

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	PUI Part No.	Fig.	Dimensions: mm (H x W x L)	Resonant Frequency (Hz)	Tone	SPL Min. (10cm)	Voltage Range (VDC)	Rated Voltage	Rated Current (Max. mA)	Washable	Price Each 1	25	50	100

SIRENS

Features:
- Extremely loud output
- Multiple tone outputs
- Available with visual notification
- Available with or without volume control
- Will operate in extreme conditions
- Can be used for warning or alerting in potentially dangerous/noisy environments

Applications:
- Fire, safety and security
- Industrial panels and devices
- Industrial vehicles
- Marine equipment
- Public transportation

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	PUI Part No.	Fig.	Dimensions: mm (H x W x L)	Resonant Frequency (Hz)	Voltage Range	Typical SPL (10cm)	Tone	Price Each 1	25	50	100

WATER RESISTANT SPEAKERS

Features:
- Extends life of normal paper speaker
- Offers the sound quality of a paper diaphragm speaker with the element resistance of a mylar diaphragm speaker
- Water resistant coating has little to no effect on the quality of sound reproduction
- Coating process is FAA Approved and used daily in military and aerospace applications
- Water resistant coating material is MIL-I-46058C and IPC-CC-830 qualified and is in full compliance with RoHS standards

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	PUI Part No.	Fig.	Dimensions: mm (H x W x L)	Rated Power (W)	Max. Power (W)	Impedance (Ω)	Cone Material	Resonant Frequency (Hz)	Frequency Range (Hz)	Price Each 1	25	50	100

SPACERS

Standard Spacers

• Nylon 6/6

All standard nylon spacers can be tapped two thread sizes larger than the screw size listed.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Screw Size	Dimensions: in. A	B	L	Price Each 1	100	1000

Round Tapped Spacers

Molded from type 6/6 nylon and then machine tapped, these spacers are low cost insulators that can be used in many electrical applications.

For quantities greater than listed, call for quote.

Locking Hex Spacer

Economic locking spacers eliminate screws, nuts, and lock washers in mounting P.C. boards on metal chassis or stacking in multiple tiers. Unique locking clips provide a mechanically secure, reusable connection in predrilled or punched holes while saving considerable assembly time.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Fig.	Description	Price Each 1	100	1000	5000
561-MPH276	C	Hex locking spacer				

Hex Tapped Spacers

On spacer 3/4" and longer, tap is 3/8" from each end.

For quantities greater than listed, call for quote.

SCREW INSULATORS

Nylon screw insulators are used to isolate metal screws electrically and reduce corrosion. They may also be used as light load bearings in many applications.

For quantities greater than listed, call for quote.

FEMALE NYLON CIRCUIT BOARD POSTS

Note: Self-threading posts are designed for use with a #6 self-tapping screw.

- Recommended hole size: .156"
- Panel thickness: 1/16"
- 1/4" length has a thread depth of 13/64"

For quantities greater than listed, call for quote.

MODEL 9600 MINIATURE SPRING RETURN LINEAR MOTION POSITION SENSORS

Specifications:
- Terminal Length: 7.1mm
- Actuation Force: 4.0 Newton's Maximum
- Linearity over Active Electrical Travel: ±2%
- Mechanical Life: 2,000,000 Full Cycles, 5,000,000 Dither Cycles

Features:
- Plastic housing and shaft
- Plated brass eyelet style terminals
- 4.8mm diameter shaft

For quantities greater than listed, call for quote.

MODEL 600 LINEAR MOTION POSITION SENSORS

Specifications:
- Power Rating at 70°C: 0.25 Watts
- Output Smoothness: 0.1%
- Resolution: Infinite
- Dielectric Strength: 500VDC
- Actuation Force: 2oz. (0.56 Newtons) max.
- Repeatability: Within 0.0005 in. (0.013)
- Mechanical Life: 10,000,000 Cycles
- Temperature Range: -55°C to +125°C

Supplied with #28 AWG Teflon insulated wire 12 inches in length.

For quantities greater than listed, call for quote.

MODEL 9800 THROTTLE POSITION AND INDUSTRIAL CONTROL SENSORS

Specifications:
- Power Rating at 70°C: 0.15 Watts
- Linearity over Active Electrical Rotation: ±2%
- Mechanical Life: 1,000,000 Full Cycles, 5,000,000 Dither Cycles

Features:
- High temperature plastic housing
- Sealed for harsh environments
- Spring return

For quantities greater than listed, call for quote.

MODEL 9900 DUAL OUTPUT HALL EFFECT SENSORS

Specifications:
- Resolution: Analog (continuous)
- Temperature Range: -40°C to +85°C
- Rotational Life: 10 Million

Features:
- Rotating magnet/fixed sensor configuration provides improved accuracy and reliability
- Two independent outputs for redundancy
- Fully programmable outputs; programmable offset, gain, slope, and temperature compensation

For quantities greater than listed, call for quote.

HALL-EFFECT ROTARY POSITION SENSORS

Features and Benefits:
- 12 M cycle product life
- Solid-state Hall-effect technology
- Rugged IP67-sealed package with integral connector
- Automotive-grade EMI/EMC testing, integrated reverse polarity, and short circuit
- Industry-standard AMP termination, 32 mm mounting pitch, North American and European pinout styles, and compact package
- Eight operating ranges up to 360°

NEW PRODUCT

HIGH SENSITIVITY BIPOLAR LATCHING DIGITAL HALL-EFFECT SENSOR ICS

PRODUCT NEW

Features:

- Fastest response time in its class
- No chopper stabilization
- High sensitivity
- Bipolar latching magnetics
- Built-in reverse voltage
- Durable design

For quantities greater than listed, call for quote.

SERIES SL353: MICROPOWER OMNIPOLAR DIGITAL HALL- EFFECT SENSORS ICS

Features:

- Lowest average current in its class
- Low supply voltage
- Promotes energy efficiency
- Reduces power consumption
- Extends battery life
- Reduces PC board space and parts count

✻Ultra low power sensing for battery-operated mobile applications

For quantities greater than listed, call for quote.

Magnetic Position Sensors

The temperature compensated Hall effect sensor consists of a quad Hall sensing element in a square integrated circuit chip, which is then encapsulated in a glass-filled thermoset molding material. The small SOT89 style package surface mounts on PC boards and flexible circuits.

✻High Accuracy

For quantities greater than listed, call for quote.

PCB LEVEL POSITION SENSORS

The APS00B is a miniature surface mount sensor for linear, angular, or rotary displacement designed for magnetic saturating field sensing. This sensor is a cost-effective and space-efficient solution for high-volume OEM designs. The VF401 is a high performance, digital, 2-wire, MR sensor in a miniature, flat,TO-92-style plastic package with a current output, designed for sensing fine pitch ring magnets.

For quantities greater than listed, call for quote.

Panasonic PAPIRS MOTION SENSOR SP SERIES (EKMA)

Panasonic PaPIRS sensing circuits are enclosed in a metallic case which helps minimize the adverse effects of external electromagnetic fields. (i.e.: radiated noise caused by cellular phones) Since the sensors have a high S/N ratio, they are less sensitive to false starts when operated under different environmental surroundings.

For quantities greater than listed, call for quote.

Panasonic NaPiOn MOTION SENSORS

Panasonic offers a series of integrated motion sensors, enabling safety and energy conservation applications. Many packages include a built-in amplifier for simple, compact designs, and are used in lighting and HVAC control, ambient light detection and security applications.

Specifications:

- Passive Infrared (PIR) Motion Sensors with built-in lens in a miniature package for occupancy or presence detection

For quantities greater than listed, call for quote.

Panasonic LENS DRIVER WITH IRIS CONTROL

Features:

- Voltage Drive System 256-Step Microstep Drivers (2 Systems)
- Built-In Iris Controller
- Motor Control By 4-Line Serial Data Communication
- 2 Systems Of Open-Drain For Driving LED

Applications:

- Camcorder
- Security-camera
- Zoom, Focus and Iris Drivers
- Iris driver for box type security camera

SPECTRA SYMBOL Flex, Pot Sensors and Wipers

FLEX SENSORS

Features:
- Angle Displacement Measurement
- Possible Uses: Robotics, Gaming (virtual motion), Medical Devices, Computer Peripherals, Musical Instruments, Physical Therapy
- Simple Construction
- Low Profile
- Bends and Flexes physically with motion device

Specifications:
- Connector: Solder Tab
- Model: Linear
- Resistance: ≤0.43mm (0.017")

For quantities greater than listed, call for quote.

SOFTPOT MEMBRANE POTENTIOMETER SENSORS

Spectra Symbol offers the SoftPot Membrane Potentiometer Sensor for universal position sensing in linear-stroke applications such as seat position, actuator position, handheld medical device location and switch, electronic musical instrumentation, and other position feedback devices. Features of the Spectra Symbol SoftPot include a 0.5mm height with lengths extending 12.5mm to 1,000mm in length. 3M adhesive provides IP65 rating Spectra Symbol's SoftPot Membrane Potentiometer Sensors are currently a medical standard in the healthcare industry, as well as in many industrial applications. An inexpensive and low form-factor way to achieve full travel position sensing.

Specifications:
- Connector: Solder Tab
- Voltage Rating: 500VAC
- Resistance Tolerance: 20%
- Temperature Range: -40˚C to +50˚C
- Output Type: Analog-Voltage

For quantities greater than listed, call for quote.

HOTPOT MEMBRANE POTENTIOMETER SENSORS

The Spectra Symbol HotPot Membrane Potentiometer Sensor was developed with the most rugged membrane technology and boasts over a 10 million life cycle. Robust in humidity, in temperatures up to 85ºC, and as low as -40ºC, the HotPot is an industrial, military, outdoor, and automotive preferred sensor and is ideal for door and and window position sensing, as well. The Spectra Symbol HotPot Membrane Potentiometer Sensor securely bonds to the host with 3M pressure sensitive adhesive (PSA) and is IP65 rated - dust proof and water proof for intense spray.

Specifications:
- Connector: Solder Tab
- Voltage Rating: 500VAC
- Resistance Tolerance: 20%
- Temperature Range: -40˚C to +85˚C
- Output Type: Analog-Voltage

For quantities greater than listed, call for quote.

MAGNETOPOT SENSORS

The MagnetoPot is simple, yet elegant in its ability to track motion in a contactless manner. A magnet on the inside of a cylinder, or on the other side of a motion device will guide the built-in magnetics of the MagnetoPot for position output as a voltage divider. As opposed to a Reed Switch, which gives simply "open" or "close" signals, the MagnetoPot gives the full linear travel as a magnetic sensor. For the cost of a Reed Switch, the MagnetoPot offers tremendous sensing solutions for a fraction of other magnetic sensors costs. What position sensor can offer the magnetic characteristics of a reed switch with the output of a potentiometer, for the same cost of a Reed Switch? Only Spectra Symbol's MagnetoPot.

Specifications:
- Connector: Solder Tab
- Voltage Rating: 500VAC
- Resistance Tolerance: 20%
- Temperature Range: -40˚C to +85˚C
- Output Type: Analog-Voltage

For quantities greater than listed, call for quote.

CHERRY Hall Effect Speed and Proximity Sensors

CHERRY GEARTOOTH SPEED SENSOR

Features:
- ESD resistant to 15kV (contact discharge)
- Mating connector Packard sealed female connector assembly 3F
- Supplied with installed Vit on O-ring
- Installs into a standard M20 x 1.5 O-ring port
- Capable of operating up to 140ºC

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cherry Part No.	Fig.	Description	Supply Voltage	Supply Current Max.	Price Each 1	50	100
540-GS102301	GS102301	A	Geartooth Speed Sensor	9 to 16 volts	6mA			

CHERRY SOLID STATE MAGNETIC PROXIMITY SENSORS

Packaged Hall Effect magnetic proximity sensors are ready to use, requiring only an external pull-up resistor. All are three-wire devices with sinking output compatible with any logic family. These sensors are operated by approaching magnet. These solid state devices have virtually unlimited life and are resistant to dirt, moisture, etc.

Specifications:
- Operating Temperature Range: -40°C to +85°C

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cherry Part No.	Fig.	Description	Supply Voltage	Supply Current Max.	Output Voltage Max.	Price Each 1	50	100	250

CHERRY MAGNETIC PROXIMITY SENSORS

The Cherry reed sensor is an omnipolar, magnetically activated switch. These sensors consume zero power and are hermetically sealed for resistance against moisture and dirt. All sensors include 12" PVC-insulated flying leads.

Specifications:
- Operating Temperature Range: -40°C to +105°C

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cherry Part No.	Fig.	Description	Switching Voltage Max.	Switching Current Max.	Price Each 1	50	100	250

CHERRY SOLID STATE SPEED SENSORS

These magnetically-biased Hall Effect devices sense the rotation of a ferrous target, such as a geartooth, or sprocket. They offer high speed and near-zero speed sensing capability. All have current sinking output. All but GS100701 provide additional circuit protection for immunity against electrical interference. M12 Integral connector meets IEC60947-5-2

Specifications:
- Operating Temperature Range: -40°C to +105°C

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cherry Part No.	Fig.	Description	Supply Voltage	Supply Current Max.	Output Voltage Max.	Price Each 1	50	100	250

CHERRY VANE SENSORS

Magnetically-activated digital vane switch in a rugged, overmolded plastic housing with three pins or 3 individual wires. Immune from moisture and dust, they are reliable and repeatable, with no mechanical contacts to wear out. Compatible with all logic families.

Specifications:
- Operating Temperature Range: -40°C to +85°C

RoHS Compliant

For quantities greater than listed, call for quote.

CHERRY INTRINSICALLY LINEAR ANGULAR POSITION SENSOR

The Intrinsically Linear Angular Position Sensor (ILAPS™) uses Cherry's patent-pending non-contact design to achieve linear output from 5° to 90° of rotation. With no contacts to wear out, it is not vulnerable to dither, and life is tested to over 10 million operations.

Specifications:
- Operating Temperature Range: -40°C to +85°C

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Cherry Part No.	Fig.	Description	Input Voltage	Input Current Max.	Output Linearity	Price Each 1	50	100	250

CHERRY AN8 SERIES THIN ANGULAR POSITION SENSORS

Programmable, non-contact magnetic position sensors capable of continuous rotation

Specifications:
- Absolute angular position sensor with single output
- Provides non-contact angular position sensing to full 360° rotation
- No mechanical interface means no parts to wear out
- 5VDC ratiometric device
- Resilient to mechanical misalignment

Applications:
- Replacement for smart bearings
- PRNDL switch for harsh environments
- Steer wheel position for drive by wire systems

RoHS Compliant

For quantities greater than listed, call for quote.

- Unshielded type
- Supply voltage: 10-30VDC
- Pre-wired with 2m of 3-conductor cable (6.56ft.)

Features:
- Fits space-confined installations
- Non-contact detection of metallic and non-metallic targets including water, oil, glass, plastic, and wood

For quantities greater than listed, call for quote.

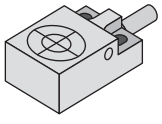
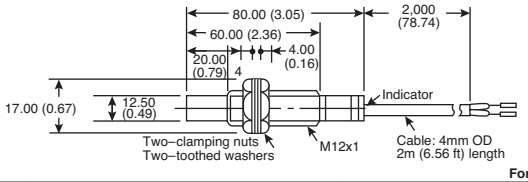
D



OMRON E2K-X4M SERIES: THREADED, CAPACITIVE PROXIMITY SENSORS

Specifications:
- Unshielded type
- Size: M12
- Detectable object type: Metal or non-metal

Features:
- Allows indirect detection of materials inside non-metallic containers
- LED indicator and fixed sensitivity for simple installation



DIMENSIONS: mm (in.)

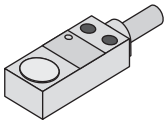
E



OMRON TL-W SERIES: FLAT-PACK, INDUCTIVE PROXIMITY SENSORS

Specifications:
- Unshielded type
- Body material: ABS plastic
- Power supply voltage: 12-24VDC

Features:
- Watertight construction conforms to IP67
- Enclosure rating: NEMA 1, 2, 3, 4X, 6, 12, 13
- Space-saving mounting area

For quantities greater than listed, call for quote.

OMRON E2S SERIES: SUBMINIATURE, INDUCTIVE PROXIMITY SENSORS

Specifications:
- Unshielded type
- Supply voltage: 12-24VDC
- Detectable object type: Ferrous metal
- Pre-wired with 1m cable

Features:
- Only 5.5x5.5mm with built-in amplifier
- Response frequency: 1kHz min.
- Low current consumption
- Mounting bracket supplied

OMRON Photoelectric Sensors & Fiber-Optic Amplifiers

OMRON E3F2 SERIES: M18 CYLINDRICAL PHOTOELECTRIC SENSORS

Specifications:
- Supply voltage: AC 24-240VAC, 50/60Hz DC 10-30VDC

Features:
- Easy installation by M18 housing
- Compact and space-saving
- PVC cable sheath

✻ Reflector is ordered separately

For quantities greater than listed, call for quote.

OMRON E3G SERIES: LONG-DISTANCE PHOTOELECTRIC SENSORS

Specifications:
- Sensing distance: 10m (500mm when using E39-R2)
- Supply voltage: 10-30VDC
- Power consumption: 50mA max.

Features:
- Compact models require less wiring and space.
- Stability indicator shows at a glance when operating conditions are stable.
- Provided with the reflector E39-R2

For quantities greater than listed, call for quote.

OMRON E3X-NA SERIES: FIBER-OPTIC AMPLIFIERS WITH CABLES

Specifications:
- Control output: ON/OFF
- Supply voltage: 12-24VDC
- Current consumption: 35mA max.

Features:
- User-friendly
- Streamlined features provide basic sensing immediately after plug-in.

RoHS Compliant

For quantities greater than listed, call for quote.

OMRON REFLECTIVE, NON-AMPLIFIED, PULSE-MODULATED PHOTOMICROSENSORS

Specifications:
- Output configuration: Photo IC
- Supply voltage: 7VDC
- Output current: 30mA

Features:
- Photo IC circuitry greatly improves response time
- Pulse modulation effectively reduces external light interference
- Convergent technology ensures enhanced sensing area

RoHS Compliant

OMRON Pressure, Flow and Vibration Sensors

OMRON 2SMPP SERIES: MEMS GAUGE PRESSURE SENSORS

Specifications:
- Pressure type: Gauge pressure
- Applicable gas: Air (Non-corrosive, dust free)
- Withstand pressure: Max. 53kPa
- Supply current: 100µADC
- Current consumption: Max. 130µADC

Features:
- Piezo resistive element provides electrical characteristics that are superior to capacitive type pressure sensors
- Low power consumption of 0.2mW
- Low temperature influence

Applications:
- Medical equipment
- Home appliance
- Air movement control
- Level indicators
- Leak detection

NEW! TECHNOLOGY

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Omron Part No.	Fig.	Description	Price Each 1	25	50
653-2SMPP-02	2SMPP-02	A	Micro-flow sensor 0 to 37kPa (0 to 280mHg)			
653-2SMPP-03	2SMPP-03	A	Absolute pressure sensor -50 to 50kPa (300 to 1100hPa)			

OMRON D6F SERIES: GAS MASS-FLOW SENSORS

Specifications:
- Dielectric strength: 500VAC between terminals and base
- Operating temperature: -10°C to 60°C
- Power supply (Vcc max.): 26.4VDC

Features:
- Small size
- Fast response
- Applicable to air, non-corrosive gas, LNG
- Ideal for looking at low pressure medical gases, boiler emissions, and HVAC system airflow

Applications:
- Medical equipment
- Combustion control
- Analysis instruments

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Omron Part No.	Fig.	Rated Range	Applicable Fluid	Case Material	Power Supply (Vcc Max.)	Output Voltage (Vout Max.)	Price Each 1	2	5

OMRON 50A SERIES: MEMS AIRFLOW SENSORS

Specifications:
- Dielectric strength: 500VAC between lead terminals
- Operating temperature: -10°C to 60°C

Features:
- Precision mass-airflow up to 50LPM
- Stable output across full scale
- Low power consumption

Applications:
- Industrial processes
- Medical respirators and ventilators
- Mass-flow controllers
- Fuel cell controls

PRODUCT NEW

653-D6F-50A6-000	D6F-50A6-000	D	0 - 50 LPM	Thermoplastic	Built-in orifice, straight connect with 1/4" BPST threads	Air			

OMRON D6F-P SERIES: MEMS MASS-FLOW SENSORS

Specifications:
- Power supply: 4.75-5.25VDC
- Output voltage: Vout, 0.5-2.5VDC
- Flow range/pressure range: +1.0 SLM (+0.84 in H2O)
- Applicable gas: Air
- Operating temperature: -10°C to 60°C

Features:
- Compact, highly reliable flow sensor with unique Dust Segregation System (DSS)
- Cyclone flow structure diverts particulate from sensor element
- High-accuracy, reliable mass-flow measurement
- Alternative to differential pressure sensing
- High-resolution and repeatability even at low-flow rates

For quantities greater than listed, call for quote.

OMRON D6F-W, -V SERIES: MEMS AIR VELOCITY SENSORS

Specifications:
- Operating temperature: -10°C to 60°C
- Insulation resistance: 20MΩ min. @ 500VDC between lead terminal and the case

Features:
- Integral passive Dust Segregation System (DSS) prevents contamination of sensor element
- Full-scale repeatable accuracy achieves consistent air velocity measurement in a cost efficient package

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Omron Part No.	Fig.	Flow Range	Applicable Gas	Case Material	Power Supply (Vcc Max.)	Output Voltage (Vout Max.)	Price Each 1	2	5

OMRON D6T SERIES: MEMS THERMAL IR SENSORS

Specifications:
- Target temperature: Detection range: 5-50°C Output accuracy: within +/- 1.5°C
- Power supply voltage: DC4.5-5.5V
- Output form: Binary code (10 times detected temperature (°C))
- Temperature resolution (NETD): 0.14°C

Features:
- High sensitivity enables detection of stationary human presence
- MEMS and ASIC technologies achieve high SNR
- Superior noise immunity with a digital output
- High-precision area temperature detection with low crosstalk field of view characteristics
- Application notes available upon request

Applications:
- Energy-saving household appliances
- Building and office energy conservation systems
- Security systems
- Factory automation

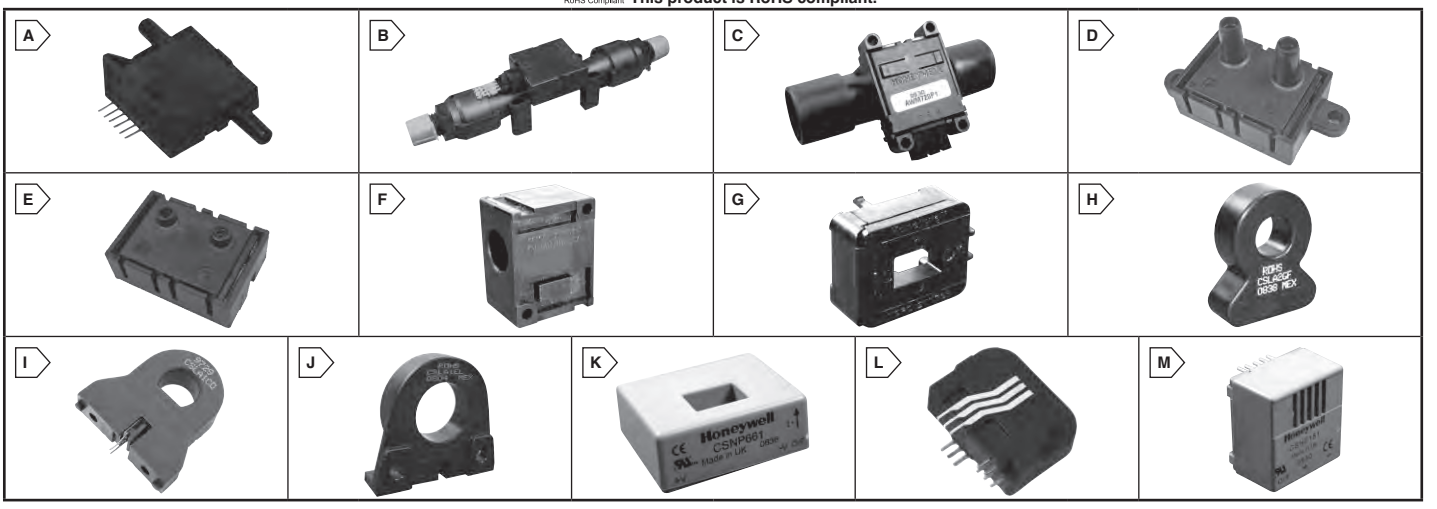
HONEYWELL Sensors

RoHS Compliant **This product is RoHS compliant.**



AIRFLOW SENSORS

Contain a thin-film, thermally isolated bridge structure that consisting of heater and temperature sensing elements. This microbridge structure provides a sensitive and fast response to the flow, amount and direction of air or other gas over the chip and provides a proportional output voltage. State-of-the-art chip design and manufacturing techniques allow the microbridge to be remarkably sensitive, fast and small. Amplified versions provide a higher output signal and require less external circuitry while unamplified versions allow more options in external circuit deign. A variety of port styles provides greater application flexibility.

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Honeywell Part No.	Fig.	Max. Common Mode Pressure	Output Voltage	Signal Conditioning	Pressure/Flow Range	Price Each 1	10	50

ZEPHYR™ ANALOG AIRFLOW SENSORS, HAF SERIES HIGH ACCURACY

Honeywell Zephyr™ Analog Airflow Sensors: HAF Series-High Accuracy, provide an analog interface for reading airflow over the specified full scale flow span and temperature range. Their thermally isolated heater and temperature sensing elements help these sensors provide a fast response to air or gas flow.

ZEPHYR™ DIGITAL AIRFLOW SENSORS, HAF SERIES

Honeywell Zephyr™ Digital Airflow Sensors: HAF Series-High Accuracy, provide a digital interface for reading airflow over the specified full scale flow span and temperature range. Their thermally isolated heater and temperature sensing elements help these sensors provide a fast response to air or gas flow. Zephyr sensors are designed to measure mass flow of air and other non-corrosive gases. They are available in standard flow ranges and are fully calibrated and temperature compensated with an on-board Application Specific Integrated Circuit (ASIC).

RoHS Compliant

For quantities greater than listed, call for quote.

LINEAR CURRENT SENSORS

MICRO SWITCH™ CS series linear current sensors incorporate our 91SS12-2 and SS94A1 linear output Hall effect transducer (LOHET™). The sensing element is assembled in a printed circuit board mountable housing. This housing is available in four configuration as shown in mounting dimension figures 1, 1a, 2 and 2a. Normal mounting is with 0.375 inch long 4-40 screw and square nut (not provided) inserted in the housing or a 6-20 self-tapping screw. The combination of the sensor, flux collector, and housing comprises the holder assembly. These sensors are ratiometric.

RoHS Compliant

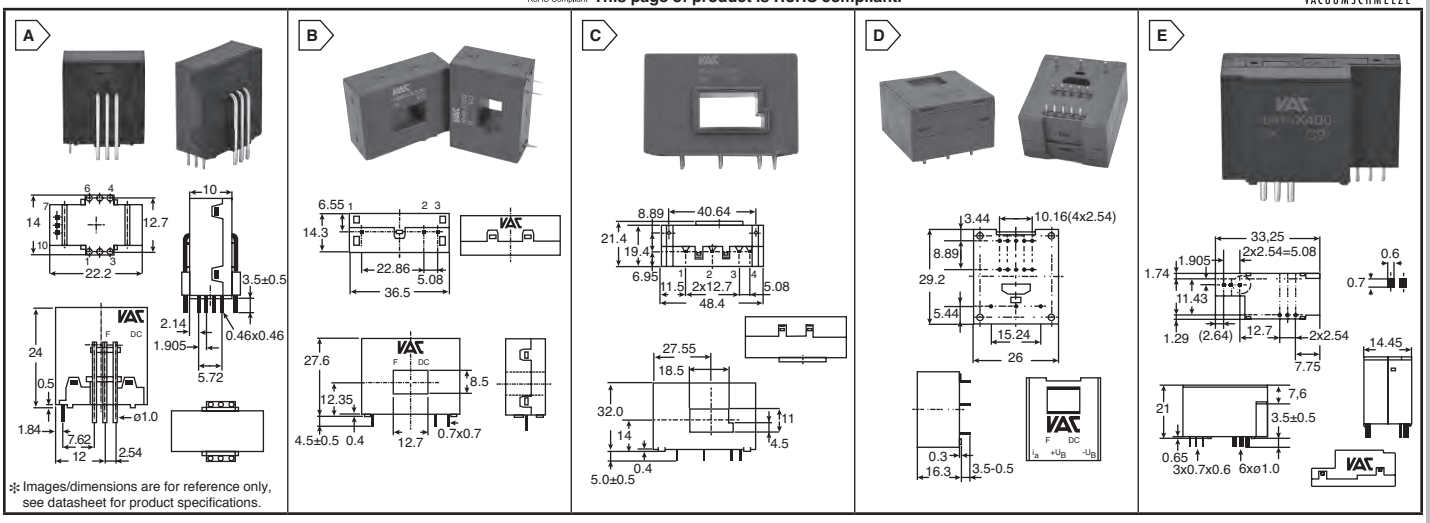
VACUUMSCHMELZE CURRENT SENSORS

RoHS Compliant **This page of product is RoHS compliant.**



ACTIVE CURRENT SENSORS FOR MAXIMUM ACCURACY

Vacuumschmelze (VAC) Current Sensors utilize amorphous field detector technology which makes the sensor more accurate and also improves linear performance with changes in temperature. The main function of the Current Sensors from VAC is measuring currents from DC up to high frequencies (approximately 200kHz). These sensors contain a galvanic separation between the primary circuit and the output signal (e.g. according to EN 50178 or EN 61800) and typical currents range from a few amperes up to several hundred amperes full range. Some sensor types can measure more than 1000 ampere peak current. The accuracy of the VAC current sensors lies in the range of <1% of the nominal current. The VAC-invented measuring principle of the closed-loop sensor with magnetic probe as zero field detector is distinguished by maximum precision of the current detection. The detected currents range from 6 A_{rms} to 700 A_{rms}.

Benefits:

- Low offset and gain errors, low temperature drift, excellent long-term stability
- Low power consumption due to PWM compensation current driver stage
- Wide measuring range
- Excellent dynamic properties (rise time, pulse response) due to a low winding capacity of the compensation current winding
- Low dependence of the sensor accuracy on the position of the phase current return conductor in proximity to the sensor
- Greatest reliability by concentrating the electronic functions in a single monolithic IC
- Mechanical and electrical replacement of existing closed-loop Hall-effect sensors without changes in the application

Features:

- Measure currents from DC up to high frequencies (approximately 200kHz)
- Contain a galvanic separation between the primary circuit and the output signal
- Typical currents range from a few amperes up to several hundred amperes full range
- Accuracy in the range of <1% of the nominal current

Applications:

- Motor current monitoring in variable speed drives
- Battery-and output current sensing in uninterruptible power supplies
- Input-, output-, as well as fault-current detection in photovoltaic systems
- Numerous other tasks in the field of switched-mode power conversion

For quantities greater than listed, call for quote.

ACTIVE CURRENT SENSORS WITH MAGNETIC PROBE

VAC current sensors for the isolated measurement of high frequency currents of arbitrary waveforms including DC are in use from the smallest up to the highest power applications in industry:

Advantages:

- Very small offset current with negligibly long-term drift
- Practically no temperature-dependent offset
- Very small hysteresis of the offset current - high resolution at low currents
- High usable temperature range (e.g. up to 110°C in an IGBT module)
- The magnetic module can be separated from the electronics for applicational flexibility
- No electronics adjustment necessary

Applications:

- Three - phase drives, servo drives, generators
- Power converters for DC - drives
- Battery operated applications
- Uninterruptible power supplies
- Switched mode power supplies
- Welding inverters

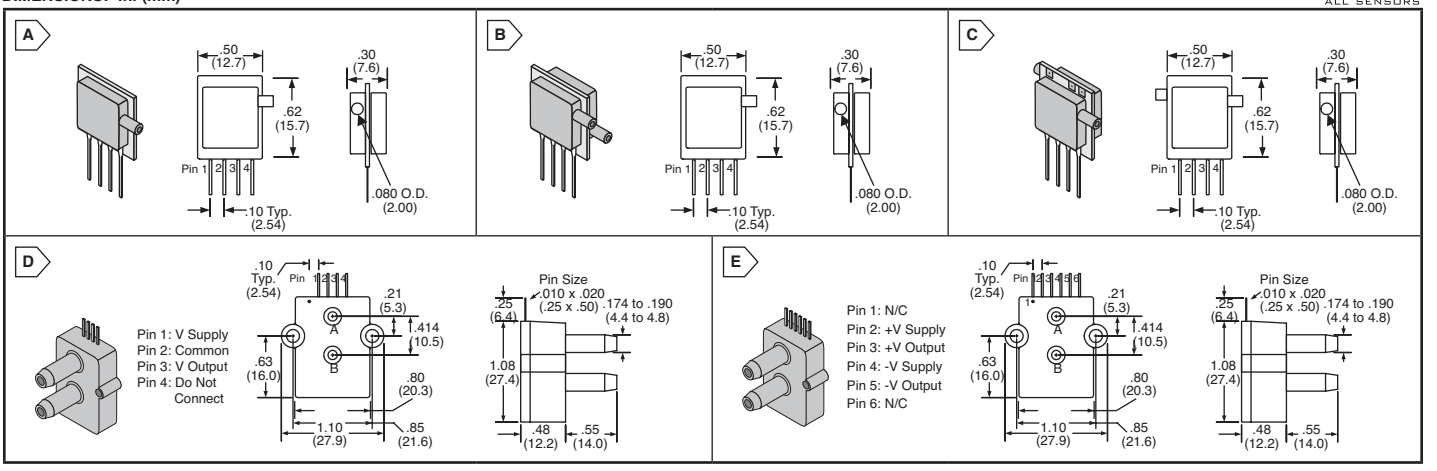
ALL SENSORS Silicon Pressure Sensors

DIMENSIONS: in. (mm)



All Sensors, Inc. pressure sensors are based on piezo-resistive semiconductor technology, broadly referred to as MEMS (micro electrical mechanical systems). Our products, both analog and digital,are based upon a proprietary technology to reduce errors. Output changes due to temperature, warm-up stability, long-term stability, and position sensitivity are all significantly reduced when compared to conventional compensation methods. These sensors are intended for use with non-corrosive, non-ionic working fluids, such as air and dry gases. Packaging is designed to be mounted to a printed-circuit board. Our highly linear pressure sensors are typically used as components in high accuracy instrumentation for markets such as: medical, HVAC, mine safety, off-road vehicles, chemical analysis, and environmental.

MINIATURE BASIC PRESSURE SENSORS - 0.5% LINEARITY

Specifications:
- Common-mode pressure: 5 psig
- Supply voltage: 6VDC max.

Features:
- Offset compensated
- Ratiometric output

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	All Sensors Part No.	Fig.	Operating Pressure	Pressure Type	Nominal Output Span	Price Each 1	5	10

MINIATURE MILLIVOLT OUTPUT LOW PRESSURE SENSORS

Specifications:
- Compensated temperature range: 0°C to 50°C
- Operating temperature: -25°C to +85°C
- Common-mode pressure: 10psig
- Supply voltage: 16VDC max.
- Ratiometric output

Features:
- Calibrated Zero and Span
- Based on proprietary technology to reduce all output offset or common mode errors
- Utilizes silicon, MEMS technology to provide very linear output to measured pressure

Applications:
- HVAC
- Medical instrumentation
- Environmental controls

For quantities greater than listed, call for quote.

AMPLIFIED LOW PRESSURE SERIES

Specifications:
- Compensated temperature range: 5°C to 50°C
- Operating temperature: -25°C to +85°C
- Common-mode pressure: -10 to +10psig
- Supply voltage: +4.5 to +5.5VDC
- Ratiometric 4V output - output is ratiometric to supply voltage

Applications:
- HVAC
- Medical instrumentation
- Environmental controls
- Primarily for Medical Breathing Applications

Features:
- Calibrated Zero and Span
- Based on proprietary technology to reduce all output offset or common mode errors
- Utilizes silicon, MEMS technology to provide very linear output to measured pressure

For quantities greater than listed, call for quote.

MINIATURE MILLIVOLT OUTPUT MEDIUM PRESSURE SENSORS-0.5% LINEARITY; ASCX SERIES

Specifications:
- Operating temperature: -25°C-105°C
- Supply Voltage: +4.5 to +5.5VDC
- Output of the device is ratiometric to the supply voltage

Features:
- Based upon a proprietary package technology to reduce errors
- Sensor housing has been designed specifically to reduce package induced parasitic stress and strain
- Utilizes a silicon, micromachined, stress concentration enhanced structure to provide a very linear output to measured pressure

Applications: • Compatible to Sensym ASCX Series

For quantities greater than listed, call for quote.

Specifications:
- Operating temperature: -25°C-85°C
- Supply Voltage: 6VDC
- Output of the device is ratiometric to the supply voltage

Applications:
• HVAC • Medical instrumentation • Environmental controls

Features:
- Uses a silicon micromachined (MEMS) pressure sensor in the most basic configuration
- Package is a ceramic surface mount configuration to provide the smallest footprint possible
- This series is intended for use with non-corrosive, non-ionic working fluids such as air, dry gases and the like

MILLIVOLT OUTPUT LOW PRESSURE SENSORS

Specifications:
• Compensated temperature range: 0°C to 50°C • Operating temperature: -25°C to +85°C • Common-mode pressure: -10 to +10psig • Supply voltage: 16VDC max. • Ratiometric output

Features:
- Calibrated Zero and Span
- Based on proprietary technology to reduce all output offset or common mode errors
- Utilizes silicon, MEMS technology to provide very linear output to measured pressure

Applications:
• HVAC • Medical instrumentation • Environmental controls

For quantities greater than listed, call for quote.

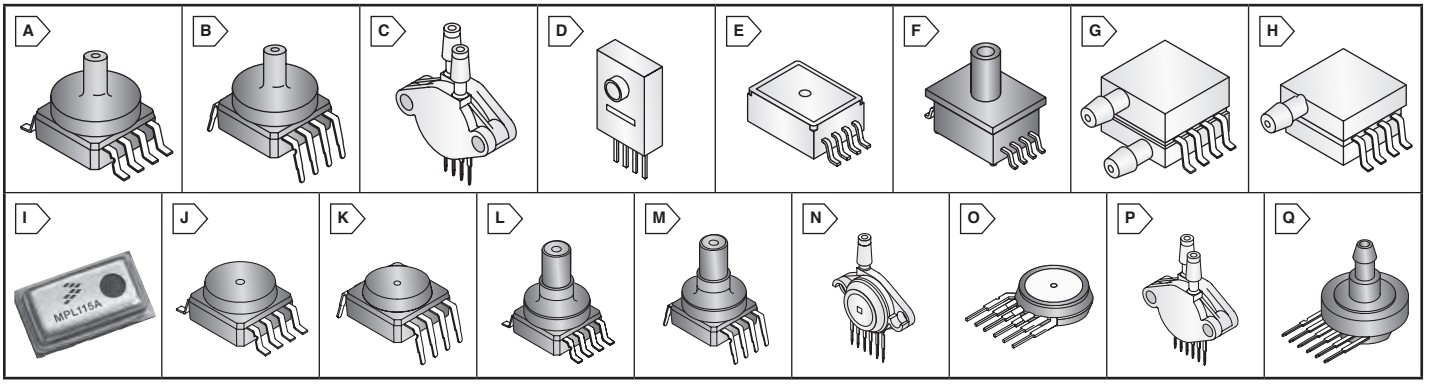
FREESCALE Pressure Sensors

Products may be RoHS compliant. Check mouser.com for RoHS status.



PRESSURE SENSORS

Freescale pressure sensors combine advanced piezoresistive sensor architecture with integrated circuit technology to offer a wide range of pressure sensing devices for automotive, medical, consumer and industrial applications.

Features:

- Broad portfolio of packaging and porting options for design flexibility
- Cost-effective
- Wide operating temperature range of -40°C to 125°C
- Fully signal conditioned, compensated and calibrated
- Interface seamlessly with Freescale processors
- Ratiometric to supply voltage

For quantities greater than listed, call for quote.

INTEGRATED PRESSURE SENSORS

To make the designer's job even easier, Freescale integrated devices carry sensor technology one step further. In addition to the on-chip temperature compensation and calibration offered currently on the 2000 series, amplifier signal conditioning has been integrated on-chip in the 4000, 5000 and 6000 series to allow interface directly to any microcomputer with an on-board A/D converter. The signal conditioning is accomplished by means of a four-stage amplification network, incorporating linear bipolar processing, thin film metallization techniques, and interactive laser trimming to provide the state-of-the-art in sensor technology.

Features:

- Broad portfolio of packaging and porting options for design flexibility
- Cost-effective
- Wide operating temperature range of -40°C to 125°C
- Fully signal conditioned, compensated and calibrated
- Interface seamlessly with Freescale processors
- Ratiometric to supply voltage

TRUSTABILITY™ SILICON PRESSURE SENSOR HSC SERIES

These devices offer customers three key benefits not found in competitive silicon sensors: sensors available; Accuracy: They are designed to provide an extremely tight accuracy Stability: These sensors are the most stable silicon pressure specification; and Flexibility: Their modular and flexible design offer customers a variety of package styles and options, all with the same industry-leading performance specifications cations.

These sensors are intended for use with non-corrosive, non-ionic working fluids such as air and dry gases. of sensor offset, sensitivity, temperature coefficients and non-linearity. Industry: They are designed to provide digital correction leading stability helps prevent drift over time or from temperature extremes. Leading stability helps prevent drift over time or from temperature extremes.

Features:

- Industry leading long-term stability
- Extremely tight accuracy of ±0.25 % FSS BFSL
- Total error band of ±2 % full scale span max.
- Low operating voltage
- Extremely low power consumption
- Ratiometric 12-bit analog output
- Virtually insensitive to mounting direction
- Internal diagnostic functions increase system reliability
- Absolute, differential, gauge, and compound types
- Custom calibration available
- Various pressure port options

For quantities greater than listed, call for quote.

LOW PRESSURE SENSORS

Specifications:
- Robust package
- PCB termination
- Small Form Factor

Applications:
- Medical
- Environmental
- Industrial instrumentation

RoHS Compliant

HONEYWELL Sensors

Honeywell

RoHS Compliant **This product is RoHS compliant.**

LOW PRESSURE SENSORS

Features:
- Precision Temperature Compensation
- Calibrated Zero & Span
- Small Size
- Low Noise
- Low Cost (SCX_NC)
- High Accuracy (SCX_N)
- High Impedance for Low Power Applications
- Port Style: Straight, Threaded 1/4-28 UNF, Barbed, No port
- Signal Condt.: Amplified, Unamplified

Applications:
- Medical Equipment
- Barometry
- Computer Peripherals
- Pneumatic Controls
- HVAC
- Environmental

NBP SERIES BASIC BOARD MOUNT PRESSURE SENSORS

Features and Benefits:
- Small Size: Package size (as small as 7mm x 7mm [0.276in x 0.276in])
- Durable
- Flexible
- Robust
- Supply Voltage: 12V

Applications:
- Hospital beds
- Oxygen concentrators
- Wound therapy
- Blood pressure monitoring
- HVAC Transmitters
- Air movement control
- Environmental control
- Level indicators
- Leak detection
- Industrial controls
- Pneumatic controls
- Other commercial applications

For quantities greater than listed, call for quote.

NSC SERIES BOARD MOUNT PRESSURE SENSORS

TruStability® NSC Series Board Mount Pressure Sensors, Uncompensated/Unamplified are designed for those customers who want to do their own compensation, calibration, and amplification while still benefiting from the industry-leading stability, accuracy, and repeatability that TruStability® Pressure Sensors provide. For potential use in industrial and medical pneumatic control applications. **For quantities greater than listed, call for quote.**

SSC SERIES PLASTIC SILICON PRESSURE SENSORS

The new TruStability™ Silicon Pressure Sensor SSC Series offer different accuracies and compensated temperature ranges that address specific segment needs. These devices offer customers three key benefits tsp. not found in competitive silicon sensors: Stability: These sensors are the most stable silicon pressure sensors available; Accuracy: They are designed to provide an extremely tight accuracy specification; and Flexibility: Their modular and flexible design offer customers a variety of package styles and options, all with the same industry-leading performance specifications.

Features:

- Industry leading long-term stability
- Extremely tight accuracy of ±0.25 % FSS BFSL
- Total error band of ±2 % full scale span max.
- Low operating voltage
- Extremely low power consumption
- Ratiometric 12-bit analog output
- Virtually insensitive to mounting direction
- Custom calibration available

For quantities greater than listed, call for quote.

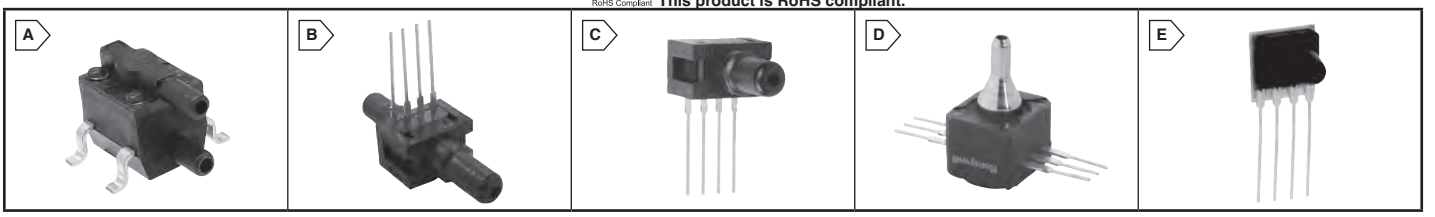
HONEYWELL Pressure Sensors

Honeywell

RoHS Compliant **This product is RoHS compliant.**



PIEZORESISTIVE SILICON SENSORS

Contain sensing elements that consist of four piezoresistors buried in the face of a thin, chemically-etched silicon diaphragm. A pressure change causes the diaphragm to flex, inducing a stress in the diaphragm and the buried resistors. The resistor values change in proportion to the stress applied and produce an electrical output. These sensors are small, low cost and reliable. They feature excellent repeatability, high accuracy and reliability under varying environmental conditions. In addition, they feature highly consistent operating characteristics from one sensor to the next, and interchangeability without recalibration.

Potential Medical Applications:
- CPAP (Continuous Positive Airway Pressure) equipment
- Respirators and ventilators
- Blood glucose monitors
- Oxygen conservers
- Oxygen concentrators
- Nebulizers

Potential Industrial Applications:
- Soft drink dispensing

Potential Environmental Applications:
- Residential fuel cells

PRESSURE/FORCE SENSORS

Features:
- All-wetted parts
- No internal elastomeric seals
- Stable and creep free
- Reverse voltage and output short circuit protected
- Less than 2ms response time
- Easy customization
- Rated IP65 or better
- Exceeds CE heavy industrial EMC for use in areas of high RFI/EMI
- Amplified and temperature compensated
- Wide choice of connections and terminations
- Calibration for special pressure ranges

Potential Applications:
- Diesel engines
- Refrigeration and HVAC/R
- General industrial and hydraulics
- Off-road vehicles
- Braking systems
- Natural gas vehicles
- Medical

RoHS Compliant

FSS-SMT SERIES FORCE SENSOR

Honeywell's FSS SMT Series force sensors are designed to be one of the most reliable force sensors available as illustrated by 20 million Mean Cycles to Failure (MCTF) rating. This low profile Surface Mount Technology (SMT) sensor allows for automated assembly on printed circuit boards, often helping the customer to reduce assembly costs.

The FSS SMT Series force sensor is designed provide precise and reliable force sensing performance in a compact commercial-grade package. The sensor incorporates Honeywell sensing technology that uses a specialized piezoresistive micro-machined silicon sensing element.

Features:
- Surface mount technology allows for automated assembly and may eliminate hand soldering
- RoHS-compliant materials meet Directive 2002/95/EC
- Low deflection (30 microns typical at full scale) help reduce measurement error
- Direct mechanical coupling of the actuating ball to the sense element
- Small size minimizes space on the PCB
- Provides enhanced sensitivity without compromising system integrity
- Electrically ratiometric output accommodates supply voltage variations

Potential Applications:
- Medical infusion pumps
- Ambulatory non-invasive pump pressure
- Occlusion detection
- Kidney dialysis machines
- Internal pumps
- Load and compression sensing
- Variable tension control
- Wire bonding equipment

RoHS Compliant

SILICON MICROSTRUCTURES Pressure Sensors

RoHS Compliant **This product is RoHS compliant.**

SMi PRESSURE SENSORS

ULTRA-SMALL PRESSURE SENSORS

Features:
- 15, 30, 60 & 100 PSI (103, 207, 414, & 689 kPa)
- Wide operating temperature range
- Suitable for automated assembly
- Cost effective
- Constant current or constant voltage drive
- High millivolt output

Applications:
- Tire pressure monitoring system
- Engine management
- Barometric sensing
- Altitude correction detection
- Pneumatic gauges
- Hand-held meters
- Home appliances

SM5420 Series

SURFACE MOUNT PRESSURE SENSORS

Features:
- Low pressure (from 0-0.15 to 0-60 PSI full scale)
- Easy to use
- Compact and light-weight
- High-performance, stable silicon chip and package
- Easily embedded in OEM equipment
- High-volume, low cost
- Available in tape and reel or IC sticks

Applications:
- Altimeters
- Barometric correction
- Tire gauges
- Digital pressure gauges
- Environmental monitoring
- Appliances
- Consumer and Sports
- HVAC
- Medical instrumentation and monitoring
- Pressure differential and flow monitoring
- Hand-held gauges

SIGNAL-CONDITIONED PRESSURE SENSORS

Features:
- Amplified, calibrated, fully signal-conditioned output span of 4.0 VDC full-scale
- Available for differential, gauge & single-ended applications

Applications:
- Medical instrumentation
- Pneumatic control
- Gas flow
- Vacuum (HVAC) applications

ULTRA-LOW SIGNAL-CONDITIONED PRESSURE SENSORS

Features:
- Amplified, calibrated, fully signal-conditioned output span of 4.0 VDC full-scale
- Analog and digital temperature compensated and calibrated pressure available
- Multi-order correction for pressure non-linearity and for temperature coefficient of span and offset (factory programmed)
- Digital read-out through I2C interface
- Output is ratiometric with supply voltage
- Variety of versions (differential, gauge, and single-ended), depending on the pressure range

Applications:
- Barometric measurement
- Medical instrumentation
- Pneumatic control
- Gas flow
- Heating, ventilation and air conditioning (HVAC)

SM5852 Series

COMPENSATED/CALIBRATED LOW PRESSURE SENSORS

Features:
- 0.15, 0.3, 1.5, 0.8, 1.5 PSI/1.0, 2.1, 5.2, 5.5, 10.3kPa
- Easy-to-use dual inline package (DIP)
- Zero offset calibration
- High-performance, stable packaged silicon chip
- Wide 0-60°C compensated temperature range

Applications:
- Medical equipment
- Respiration
- HVAC
- Level detection
- Flow measurement
- Industrial control

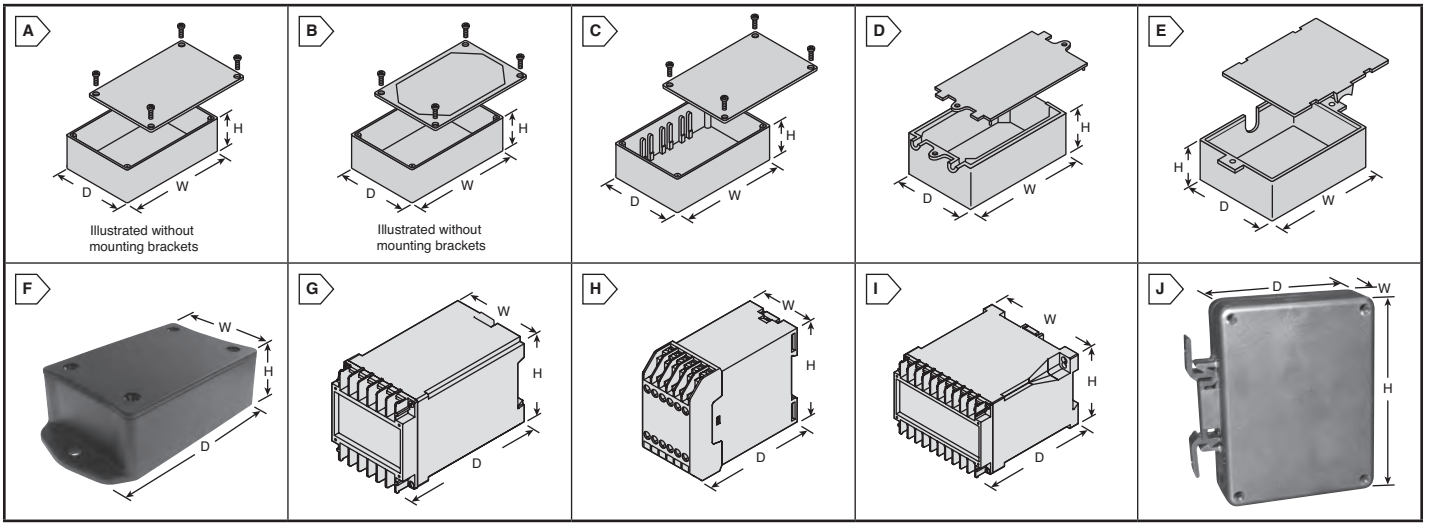
BUD Plastic Utility and DIN Rail Mount Boxes



UTILIBOXES

Style "A"

ABS Plastic with flammability rating of 94V-5VA and suggested service temperature of -20°C to +60°C. Comes with close fitting interlocking lid and assembly hardware.
Available with either a flush textured cover, or with a smooth recessed area suitable for labels or keypads. Finish: Textured Black

RoHS Compliant

For quantities greater than listed, call for quote.

Style "K"

- ABS plastic, UL94-HB flammability rating
- Three versions available:
  - Version 1 - press-fit cover, and molded-in wire entry points
  - Version 2 - screwed-on cover, molded-in wire entry points, and recessed area on cover for decal
  - Version 3 - snap-fit cover, and wire entry port
- Molded-in external wall/panel mounting tabs
- Finish: Black

For quantities greater than listed, call for quote.

Style "L"

- Flame retardant ABS plastic with UL 94V-O flammability rating.
  Suggested service temperature -20°C to +70°C.
- Comes with close fitting interlocking screw-on and assembly hardware.
- Horizontal PCB mounting bosses.
- Molded-in mounting brackets are provided on catalog numbers having -MB suffix.
- Finish: Fine Textured Black -- well suited for silk-screening or pad printing. Special colors available on request.

For quantities greater than listed, call for quote.

DIN RAIL MOUNT BOXES

Durable UL94V-0 rated ABS plastic housing. External clamp type contacts have M3 screws and lock washers. Internal solder tab contacts. All contacts are tin plated brass and have a 10Amp rating. Internal horizontal and vertical PCB card guides. Screw attached front covers with recessed area for labels. Fits standard DIN rail.
Finish: Light Gray

RoHS Compliant

For quantities greater than listed, call for quote.

FIBERGLASS NEMA BOXES

Design Features:
Durable and easy to machine fiberglass reinforced plastic (SMC). Provides outstanding protection against corrosion. Chemical resistant and impervious to dents. Designed to meet NEMA 1, 2, 4, 4X, 12, 13, and IP66. Stainless steel hinge, screws, and wall mounting brackets. UL listed and tested to UL508-4X requirements.

- Finish: Light Gray

Accessories:
- Comes with steel, powder coated removable inner panel

For quantities greater than listed, call for quote.

CABLE GLANDS

Required to maintain NEMA 4X rating when cables enter or exit a NEMA 4 or 4X type enclosure. Assembly consisting of Black molded nylon body, hex nut, and cable nut and with a rubber gasket and cable seal. Nylon material has UL94V-2 flammability rating and -40°C to 100°C suggested service temperature.

For quantities greater than listed, call for quote.

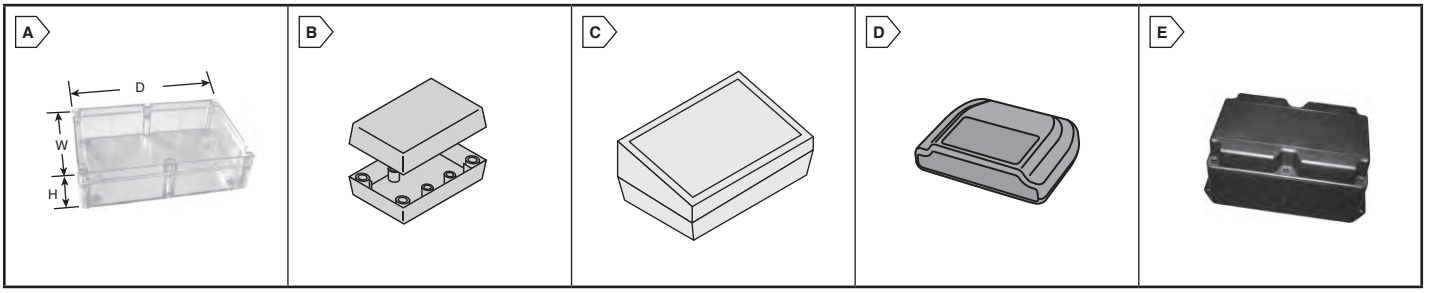
BUD NEMA Polycarbonate and ABS Enclosures



NEMA 1, 2, 4, 4X, 12 & 13, UL508 POLYCARBONATE AND ABS ENCLOSURES

c UL us LISTED E194432

Polycarbonate & high-impact ABS molded enclosures that meet NEMA 4X specifications, are ideal for PCB enclosures, junction boxes, & other applications in the electrical & electronic industry.

Style 1

- Light Gray polycarbonate body and cover
- Body/Cover - UV stabilized, UL94-2 flammability rating
- Suggested service temperature: -40°C to 120°C

PLASTIBOX™

Style A:

- Has squared corners, provisions for mounting horizontal and vertical PCBs, and four non-skid feet
- UL94-HB flammability rating
- Temperature rating: -40°C to +60°C
- Available in Black or Gray

Style I:

- Unique, contemporary styling with rounded corners and edges
- Durable, self-extinguishing, ABS plastic material with UL94-5VA flammability rating
- Mar resistant textured surface
- Internal PCB mounting bosses
- Base is securely attached to the cover with four color matched screws
- PT-11754-DW features a display window
- Color: Black

Style J:

- Designed to meet NEMA 4X and IP65 Specifications
- Easily removable cover screws into threaded brass inserts in base
- Molded in flanges allow easy wall or panel mounting without having to open enclosure
- 8 PCB mounting bosses in base
- PT-11801 has an additional 6 inside elevated cover
- Color: Textured Matte Black

Style K:

- Time saving, hinged, snap closed cover that is easily opened by hand
- Rubber inserts are easily cut to allow cable entry ports
- Durable, self-extinguishing, ABS plastic material with UL94-HB flammability rating
- Mark-resistant textured surface
- Internal PCB mounting bosses
- Available in Black or Gray

Style L:

- 2 piece, screw together desktop enclosure with sloping cover
- Durable, self-extinguishing, ABS plastic material with UL94-H flammability rating
- Mark-resistant textured surface
- Internal PCB mounting bosses
- Available in Bone Gray

✻ DW: Display Window
MP: Wall Mount

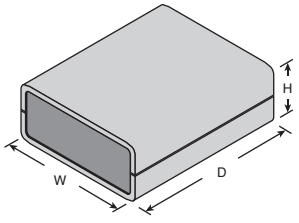
PI SERIES

This line of molded enclosures is ideally suited for instrumentation and telecom equipment from hand held to desk top sizes. Available in twelve sizes and two versions.

Version #1 - Dark Gray ABS covers with Light Gray ABS end panels. UL94V-0 flammability rating, suggested service temperature -40°C to 80°C.

Version #2 - Light Gray ABS covers with Dark Gray ABS end panels. UL94-HB flammability rating, suggested service temperature -40°C to 80°C.



Design Features:

- Designed to IP 54 of IEC 529
- Two part design with tongue and groove joint between top and bottom covers and specially designed end panels
- Internal guide slots provide for vertical mounting of PCBs
- Internal bosses provided for horizontal mounting of PCBs
- Top and bottom covers are lightly textured providing a scratch-resistant high quality finish
- Four screws are countersunk in the bottom cover and threaded into internal bosses which secure the top cover and end panels; contact a Mouser Service Representative for custom modifications

For quantities greater than listed, call for quote.

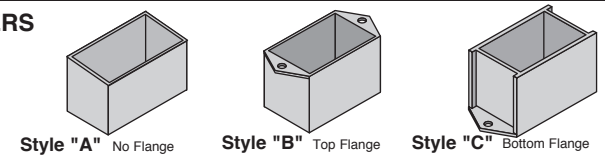
POTTING BOXES AND COVERS

Available in 3 styles and a variety of sizes, these low cost enclosures are made of tough, lightweight ABS thermoplastic.

Flammability rating: UL94V-0
Suggested service temperature: 20°C to +70°C
Optional close-fitting covers are available in all sizes



For quantities greater than listed, call for quote.

HAMMOND NEMA Watertight Enclosures

HAMMOND MANUFACTURING

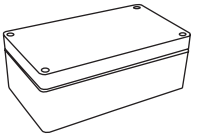
Common Specifications:

- Ideally suited for mounting printed circuit boards or DIN rail mounted components
- Color is light gray (RAL 7035)
- Gasketed lid with two piece "tongue & groove" construction provides protection against access of oil, dust, and water
- Gasket is factory poured using high temperature U.L. listed - silicon gasket material
- Designed to meet IP 66 & NEMA 4, 4X, 12 & 13 ratings
- Lid is secured with self captivating - M4 stainless steel machine screws (included), threaded into integral stainless steel bushings (for repetitive assembly & disassembly)
- All stainless steel hardware to avoid corrosion caused by dissimilar metals

WATERTIGHT POLYCARBONATE ENCLOSURES WITH FLAT LID

Specifications:

- Material: Polycarbonate (material carries a UL flammability rating of UL94 5V
- Recommended for outdoor use
- Internal DIN rail mounting tabs: molded in all (except 1554C2GY)
- Vertical P.C. card guides (for 1.5mm thick P.C. boards) are molded in all but the smallest size enclosure (1554B2GY)



For quantities greater than listed, call for quote.

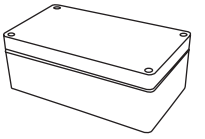
WATERTIGHT ABS PLASTIC ENCLOSURES WITH FLAT LID

Specifications:

- Material: General purpose ABS plastic (material carries a UL flammability rating of UL94 HB)
- Not recommended for outdoor use (please see the polycarbonate 1554 series)
- Internal DIN rail mounting tabs: molded in all (except 1554CGY)
- Vertical P.C. card guides (for 1.5mm thick P.C. boards) are molded in all but the smallest size enclosure (1554BGY)



For quantities greater than listed, call for quote.

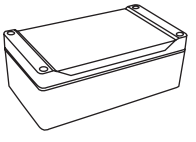
WATERTIGHT POLYCARBONATE ENCLOSURES WITH "STYLED" LID

Specifications:

- "Styled" lid version has three main advantages over the flat lid (1554 series): Smooth recessed surface on lid for a membrane keypad or label; standoffs molded in the interior of the lid (except for 1555BGY); more modern "styled" look vs. our traditional flat lid (1554 series)
- Material: Polycarbonate (material carries a UL flammability rating of UL94 5V)
- Recommended for outdoor use.
- Internal DIN rail mounting tabs: molded in all (except 1555C2GY)
- Vertical P.C. card guides (for 1.5mm thick P.C. boards) are molded in all but the smallest size enclosure (1555B2GY).



For quantities greater than listed, call for quote.

PANELS FOR WATERTIGHT ENCLOSURES & HEAVY DUTY 16 GAUGE GALVANIZED STEEL ENCLOSURES

Specifications:

- Heavy duty panels for mounting components
- Galvanized 14/16 gauge steel
- Includes mounting hardware for enclosure body (lid mounting of panel requires optional #6 self tapping screws)

HAMMOND Potting Boxes and Plastic Enclosures

ABS PLASTIC - SOFT SIDED HAND HELD ENCLOSURES

- Over molded in general purpose ABS plastic with a soft plastic grip
- Top cover is recessed for membrane display or keypad

For quantities greater than listed, call for quote.

TWO PIECE FIXED PANEL PLASTIC ENCLOSURES

- Rugged electronic instrument enclosures, ideally suited for mounting printed circuit boards for hand-held, desktop, or wall mount applications
- Molded in polystyrene plastic
- Assembled with four M3x0.5" (13mm) Phillips machine screws (included) threaded into integral bushings
- Includes four self tapping screws for internal standoffs
- Lid is a smooth light gray, and the bottom is a smooth dark gray
- Designed to meet IP54

For quantities greater than listed, call for quote.

SUPER SHIELD CONDUCTIVE COATING

A general purpose EMI/RFI shielding spray for use on plastic electronics enclosures. Consists of a tough, durable acrylic base pigmented with a high purity nickel flake. Surface resistance of approximately 0.7ohms.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.		Size	Price Each
Mfr.	Mfr. Part No.		
590	841-340G	Aerosol 340g (12oz.)	

ABS PLASTIC HAND HELD ENCLOSURES

- Complete with top & bottom, removable front panel, battery door (except on the smallest size) and three self-tapping screws
- Top panel has a flat display area, perfect for labels, silk screening, membrane keypads or easily machined
- Lap joint construction provides protection against access of dust and splashing water
- Battery compartment (except on the smallest size) suitable for either a 9V (PP3) or 2 x AA batteries
- The base is molded with bosses for easy P.C. board mounting
- Molded in flame retardant ABS plastic
- Color: Black or Gray
- Finish: Satin Texture

For quantities greater than listed, call for quote.

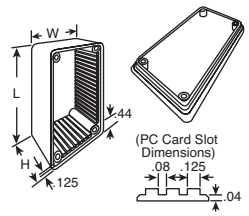
HAMMOND Multipurpose Plastic Enclosures

RoHS Compliant **This product is RoHS compliant.**

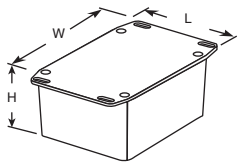
DIMENSIONS: in.

A



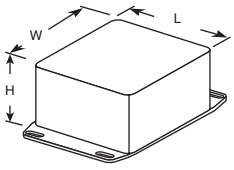
Note: lid adds .16" to over all depth of case

B



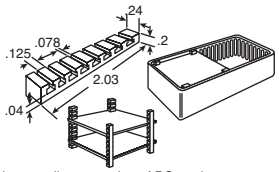
Note: lid adds .16" to over all depth of case

C



Note: lid adds .16" to over all depth of case

D



PC adapters allow mounting of PC cards at right angles to the vertical slots molded into Hammond 1591 series plastic boxes and diecast cases 1590L through 1590R.

ABS MULTIPURPOSE INSTRUMENT ENCLOSURES

- UL flammability rating of 94V-0
- Comes with M3 x .5 x 10mm, Phillips machine screws, countersunk lid, and tapped integral brass bushings
- Two piece lap joint construction provides against dust accumulation and splashing water
- Designed to meet IP54
- Card guides accept .062" PC cards
- 1591E has a removable center brace

For quantities greater than listed, call for quote.

SUPER SHIELD CONDUCTIVE COATING

A general purpose EMI/RFI shielding spray for use on plastic electronics enclosures.
Consists of a tough, durable acrylic base pigmented with a high purity nickel flake.
Surface resistance of approximately 0.7ohms.

For quantities greater than listed, call for quote.

A

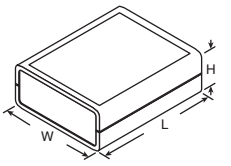
RoHS Compliant

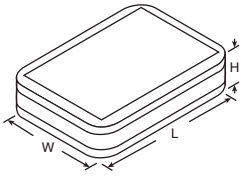


Version A

- Four P.C. card standoffs molded in bottom
- Removable front and rear panels for easy modification-sized to accept most popular connectors
- 2 piece lap joint construction

B

RoHS Compliant

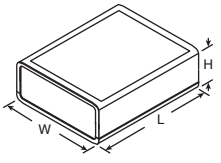


Version B

- Four PC card standoffs molded in both halves
- 2 piece lap joint construction

C

RoHS Compliant

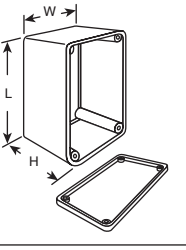


Version C

- 4 PC card standoffs molded in both halves
- 4 PC card guides molded in battery compartment
- Removable front and rear panels for easy modification-sized to accept most popular connectors
- 2 piece lap joint construction

D

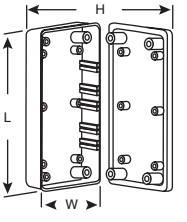
RoHS Compliant



- Heavy duty thermoplastic
- Comes with M3x.5x20mm countersunk
- Phillips machine screws which fasten into integral brass bushings
- Average wall thickness: .125"
- Lid adds .47" to total height
- Designed to meet IP54
- UL flammability rating of 94V-O

E

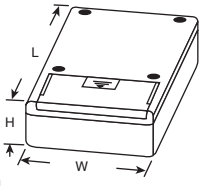
RoHS Compliant



- Two key hole knockouts are molded into the inside of the base to facilitate wall mounting installation
- Six PC card mounting bosses are molded into the top and base
- Designed to meet IP54

F

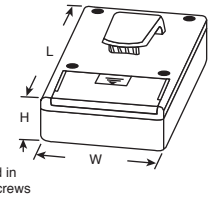
RoHS Compliant



- Recessed top panel for membrane display or pad
- PC card standoffs and vertical card guides are molded in
- Flame retardant ABS version includes four machine screws (styrene are self-tapping) and wear resistant brass bushing

G

RoHS Compliant



Includes belt clip

- Recessed top panel for membrane display or pad
- PC card standoffs and vertical card guides are molded in
- Flame retardant ABS version includes four machine screws (styrene are self-tapping) and wear resistant brass bushing

GENERAL PURPOSE ABS PLASTIC

- Molded in PC card standoffs and vertical card guides
- Designed to meet IP54
- Positive fit, "tongue & groove" construction requires only 2 mounting screws
- Available in Gray Styrene Plastic
- Easy access to interior via shell type construction

For quantities greater than listed, call for quote.

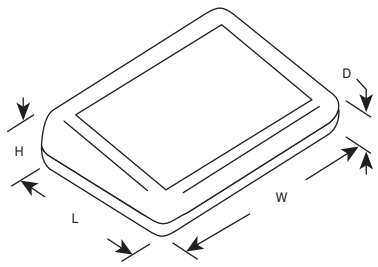
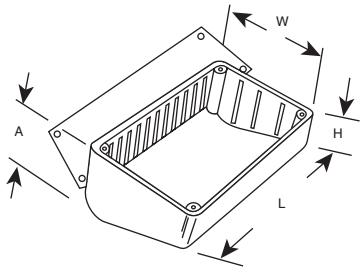
A



RoHS Compliant

- Includes removable rear panels for easy modification
- Molded in PCB card standoffs and vertical card guides
- 2 piece, lap joint construction provides protection against dust accumulation and splashing water
- Recessed top panel for membrane keypad

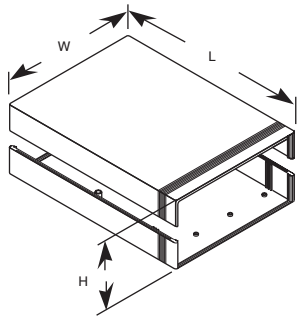
B



RoHS Compliant

- Four M3 x .5" x 8mm Phillips pan head screws threaded into integral brass bushings hold recessed panel
- Internal slot: accepts 0.062" PC cards
- 4 self adhesive rubber feet
- .20" dia. stand-off bosses in base
- ABS plastic case, UL 94V-0
- 0.04" thick painted aluminum panel

C



RoHS Compliant

- Molded in PC card standoffs and vertical card guides
- Designed to meet IP54
- Positive fit, "tongue & groove" construction requires only 2 mounting screws

SERPAC CA - SERIES

Features:
- Ergonomic design
- 0 to 6 button configurations available (configurations vary by model)
- All models are designed to hold 20mm coin cell battery (CA-10 is also designed to hold 2 x AAA batteries)
- CA-6 and CA-8 models have watertight button(s) and a perimeter ring
- Assembles with two or three screws
- High impact ABS plastic
- UL 94HB flammability rating

There are 3 colors available, replace the (__) in the part number with: **A** for **Almond** or **B** for **Black** or **G** for **Gray**

For quantities greater than listed, call for quote.

SERPAC S - SERIES

Features:
- Hi-Impact ABS plastic
- Custom colors, machining, molding, and pad printing available
- "I" version has a .015" smooth depression on top for printing or flush membrane/label surface
- Wall mount options available on select models. Contact a Mouser Service Representative
- UL 94 HB flammability rating
- Two-piece standard design
- Circuit board mounting bosses

There are 3 colors available, replace the (__) in the part number with: **A** for **Almond** or **B** for **Black** or **G** for **Gray**

For quantities greater than listed, call for quote.

EBM-PAPST Tubeaxial AC Fans

RoHS Compliant **This product is RoHS compliant.**

4000N SERIES

Features:

- Metal housing and impeller
- Air intake over struts
- Clockwise rotation viewed from rotor
- Electrical connection with LZ120 plug & cord set or soldered
- Terminals with 2 flat pins 2.8x5.0mm
- 4.3mm mounting holes

Recommended Manufacturer's Accessories:

- Plastic Finger Guard: LZ30-5, LZ30P
- Metal Finger Guard: LZ30
- Screen/Bracket: LZ40N and LZ40-1
- Metal Mesh Filter: LZ60
- Mounting Screw Clip: LZ210
- Plug and Cord Set: LZ120 or LZ126

For quantities greater than listed, call for quote.

- 4.3mm mounting holes

Recommended Manufacturer's Accessories:

- Plastic Finger Guard: LZ30-5, LZ30P
- Metal Finger Guard: LZ30
- Screen/Bracket: LZ40N and LZ40-1
- Metal Mesh Filter: LZ60
- Mounting Screw Clip: LZ210

For quantities greater than listed, call for quote.

TUBEAXIAL AC FANS

i-maxx ACi4400 Series

Features:
- Fiberglass reinforced plastic; impeller PA, housing PBT
- Electronic locked rotor protection
- Mounting holes: 3.7mm

Advantages vs. Equivalent AC Fan:
- 75% less power consumption
- 3dB or more noise reduction
- Much longer service life

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Mfr. Part No.	Fig.	Dimensions (mm) LxW	Voltage (VAC)	Airflow (CFM)	Power (W)	Speed (RPM)	Noise dB(A)	Max Temp. (ºC)	Bearing Type	Price Each 1	5	10	25

W2S130 Series

Features:
- Metal housing and impeller
- Termination: 13.3" leads
- Counterclockwise rotation looking at rotor
- 4.3mm mounting holes

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Mfr. Part No.	Fig.	Dimensions (mm) LxW	Voltage (VAC)	Airflow (CFM)	Power (W)	Speed (RPM)	Noise dB(A)	Max Temp. (ºC)	Bearing Type	Price Each 1	5	10	25

W2E142 Series

Features:
- Metal housing and impeller
- Termination: 0.110" terminals
- Air exhaust over struts
- 4.3mm mounting holes

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Mfr. Part No.	Fig.	Dimensions (mm) LxW	Voltage (VAC)	Airflow (CFM)	Power (W)	Speed (RPM)	Noise dB(A)	Max Temp. (ºC)	Bearing Type	Price Each 1	5	10	25

W2E143 Series

Features:
- Metal housing and impeller
- Air exhaust over struts
- Permanent split capacitor motor & terminals
- Termination: 0.110" terminals
- 4.6mm mounting holes

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Mfr. Part No.	Fig.	Dimensions (mm) LxW	Voltage (VAC)	Airflow (CFM)	Power (W)	Speed (RPM)	Noise dB(A)	Max Temp. (ºC)	Bearing Type	Price Each 1	5	10	25

W2E200H Series

Features:
- Metal housing, impeller, and terminal block
- Termination: terminal strip
- Electrical connection with LZ120 plug & cord set or soldered
- 4.5mm mounting holes

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Mfr. Part No.	Fig.	Dimensions (mm) LxW	Voltage (VAC)	Airflow (CFM)	Power (W)	Speed (RPM)	Noise dB(A)	Max Temp. (ºC)	Bearing Type	Price Each 1	5	10	25

ACMAXX Series

The ACmaxx, the new generation of AC fans, offers a wide input voltage, high efficiency and reliability. The ACmaxx fans have higher volume flow, optional variable speed control, failure detection, speed and function monitoring.

Features:
- Plastic housing and impeller
- Features leads
- Nominal VAC - 115/230
- External rotor motor
- 75% lower power consumption

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Mfr. Part No.	Fig.	Dimensions (mm) LxH	Voltage (AC Range)	Airflow (CFM)	Power (W)	Speed (RPM)	Noise dB(A)	Max Temp. (ºC)	Bearing Type	Price Each 1	5	10	25

TUBEAXIAL DC FANS

4400F Series

Features:
- Counterclockwise rotation looking at rotor
- Mounting holes: 4.3mm

Recommended Manufacturer's Accessories:
- Plastic Finger Guard: LZ30-5, LZ30P
- Screen/Bracket: LZ40N and LZ404
- Mounting Screw Clip: LZ210
- Plug and Cord Set: LZ120 or LZ126

RoHS Compliant

For quantities greater than listed, call for quote.

4400 Series

Specifications:
- Plastic housing and impeller
- Air exhausts over struts
- Clockwise rotation looking at rotor
- Termination: 12.2" Leads
- Max. Temperature: 70°C
- Mounting Holes: 4.3mm

Accessories:
- Fan Filter: Use LZ30P or LZ30
- Plug and Cord Set: LZ120 or LZ126

RoHS Compliant

For quantities greater than listed, call for quote.

Products may be RoHS compliant. Check mouser.com for RoHS status.

4400FN SERIES

Features:

- Electronically commutated external rotor motor
- Fiberglass reinforced plastic
- Air exhaust over struts
- Fully integrated commutation electronics
- PBTP housing • PA impeller
- Rotational direction CCW looking at rotor
- Electronic protection against reverse polarity, blocking and overloading by PTC-resistor partially impedance protected

RoHS Compliant

For quantities greater than listed, call for quote.

3300 SERIES

Features:

- Counterclockwise rotation looking at rotor
- Totally encapsulated and sealed
- Mounting holes: 4.3mm

Recommended Manufacturer's Accessories:

- Metal Finger Guard: LZ23
- Spacer: LZ260
- Temperature Sensor: LZ370

For quantities greater than listed, call for quote.

4100N SERIES - S FORCE FANS

Features:
- Metal housing and plastic impeller
- Termination: 0.011" terminals
- Air exhaust over struts
- Clockwise rotation looking at rotor
- Mounting holes: 4.3mm

Recommended Manufacturer's Accessories:
- Plastic Finger Guard: LZ30-5, LZ30P
- Metal Finger Guard: LZ30
- Screen/Bracket: LZ40N and LZ40-1
- Metal Mesh Filter: LZ60
- Mounting Screw Clip: LZ210
- Plug and Cord Set: LZ120 or LZ126

For quantities greater than listed, call for quote.

2200 FTD SERIES - S FORCE FANS

Features:
- Aluminum housing, fiberglass reinforced PA impeller; housing with grounding lug for screw M4 x 8
- Air exhaust over struts; rotational direction CCW looking at rotor
- With electronic protection against reverse polarity
- Electrical connection via single leads AWG 20, stripped and tinned ends
- Standard with speed signal and PWM (P) or 0-10VDC/PWM (0) speed control

For quantities greater than listed, call for quote.

QUALTEK Fan Accessories

FAN SILENCERS

For fast and screwless fan fastening without vibration to the housing. With the patented rubber elastic sleeves you fasten axial fans without screws, quickly and safe with four mushroom formed pegs on a mounting plate or a housing wall.

RoHS Compliant

Features:
- Eliminates transmission of vibration from the fan to the housing and reduces noise up to 9dB
- Fast, simple, and safe screwless mounting and remounting from fans
- Labor saving device with less mounting costs through shorter mounting times
- Protects the fan against vibrations and thus increases the life

Specifications:
- Material: TPE (Thermoplastic Elastomer)
- Color: Black
- Hardness: ca. 70° Shore A
- Fire Resistance: UL94-V-0

For quantities greater than listed, call for quote.

WIRE FORM FAN GUARDS - 08 SERIES

For use with tubeaxial fans. 1/4" maximum ring spacing design was developed to assist our customers in complying with domestic and international safety agency requirements.

Specifications:
- Over wire dia. at butt joints: .010 max.
- Depth of serrations: .015 max.
- Thickness of nickel chrome plating: .005 min.
- Tolerance: ±.03"

Features:
- C1010 basic wire
- Weld joints withstand 220lbs. minimum separation force

PLASTIC FAN GUARDS - 09 SERIES

The 09 Series low cost plastic fan guards, produced with UL 94-V0 material are designed for tubeaxial fans with design considerations given to maximize airflow with reduced noise levels.

Features:
- Decreased noise level due to design
- Withstands high impact

RoHS Compliant

For quantities greater than listed, call for quote.

QUALTEK Fan Accessories

Qualtek Electronics Corporation

PLASTIC FAN FILTER ASSEMBLIES

Guard:
- UL Listed 94V-0 material
- Decreased noise level due to design
- Withstands high impact

Media:
- Helps reduce external fan noise
- Easily cleaned by vacuuming or washing with most soaps, detergents, or cleaning solvents

Retainer:
- UL Listed 94V-0 material
- Designed for minimal air restriction

RoHS Compliant

For quantities greater than listed, call for quote.

FAN POWER CORDS

Fan-S offers four configurations of high quality fan power cords designed to be used with tubeaxial fans with a strain relief for added safety. Can be used with all AC fans using .110"x.020" faston standard terminals with .3125" spacing. Temperature rating: 105°C (max).

- UL and CSA rated at 7A/300 Volts

RoHS Compliant

For quantities greater than listed, call for quote.

AAVID THERMALLOY Heat Sinks

RoHS Compliant **This product is RoHS compliant.**

SLALOM SMT HEAT SINKS

Edge mounted "Skis" are designed for use in applications with limited PC board space and allow customization of footprint design and size.

Features and Benefits:

- Increased thermal performance up to 30% with improved radiation of the black finish
- The black finish provides enhanced heat absorption, improving Infra-red reflow process cycle time/quality
- Unique, lightweight aluminum design

Applications:

- Power Supplies
- Motor controls
- Medical equipment
- Telecommunications equipment
- Industrial process control equipment

For quantities greater than listed, call for quote.

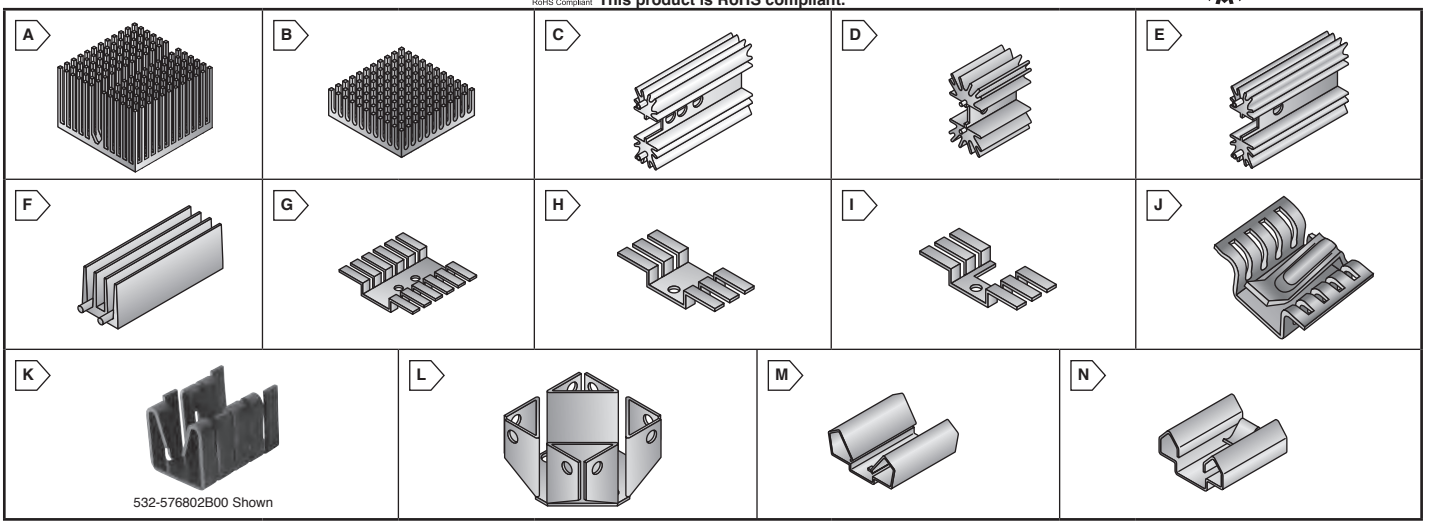
AAVID THERMALLOY Heat Sinks

RoHS Compliant **This product is RoHS compliant.**



HEATSINKS FOR LED LIGHT SOURCES (TAPE ATTACHMENT METHOD)

Features:

- Tape mounting saves board space by eliminating mounting holes
- Convenient peel and stick assembly is quick and clean
- Can be used with either plastic or metal/ceramic BGA Packages
- Compatible with Ther-a-grip tapes
- For Superbright LEDs
- Finish: Black Anodize
- Base Thickness: 1.50mm

RoHS Compliant

For quantities greater than listed, call for quote.

BGA HEATSINKS FOR SMALL FOOTPRINT LEDs (TAPE ATTACHMENT METHOD)

Features:

- Tape mounting saves board space by eliminating mounting holes
- Convenient peel and stick assembly is quick and clean
- Can be used with either plastic or metal/ceramic BGA Packages
- Compatible with Ther-a-grip tapes
- For Superbright LEDs
- Finish: Black Anodize
- † Finish: Green Anodize

RoHS Compliant

For quantities greater than listed, call for quote.

AAVID THERMALLOY Clips and Accessories

AAVID THERMALLOY

RoHS Compliant **This product is RoHS compliant.**

MAX CLIP® SYSTEM™

The Max Clip® System™ for power semiconductors is a high performance, low cost solution to eliminate mounting holes, screws, rivets, and thermal inefficiency. This quick, efficient attachment method saves on labor and hardware costs while increasing design flexibility.

Features:

- Reduces assembly cost and labor
- Optimizes thermal management
- Reduces overall thermal resistance
- Provides mounting for discrete power devices, with or without mounting holes
- Allows for easy movement or replacement of components
- Eliminates mounting hardware and tools

For quantities greater than listed, call for quote.

INSULATORS

- Mica insulators provide high maximum operating temperatures (550°C) and excellent electrical properties
- Aluminum oxide has unique thermal conductivity qualities and features low loss factors at high frequencies
- It has high compressive strengths, high volume resistivity, low thermal expansion and it resists radiation

For quantities greater than listed, call for quote.

CRYDOM Heatsinks and Assemblies

crydom

RoHS Compliant **This product is RoHS compliant.**

CRYDOM HS SERIES: HEATSINKS

Features:
- Suitable for 1 single or dual SSR
- Din Rail mounting
- Panel mounting
- Thermal resistance

RoHS Compliant

For quantities greater than listed, call for quote.

Features:

- Permits high power levels or lower operating temperatures while occupying a minimum of valuable board space
- Allows back-to-back dual mounting for thermal matching applications
- Bendable tabs simplify installation to the circuit board—no mounting hardware or special tool required
- Each dissipator is optimally designed for maximum effective surface area in a minimum working envelope

PSC2 Series

OHMITE Heatsinks

C SERIES HEATSINKS

This series offers high performance, low cost and is a compact heat sink with an integrated camming clip system. This powerful heat sink provides tool and fixture free assembly operation, largest surface areas and smallest space occupation. The Ohmite C Series Heatsinks are the ideal type of heat sink for high power density and small size.
(1U or 2U) electronic packaging with forced convention cooling, such as semiconductors and resistors.

CP SERIES HEATSINKS

Ohmite CP4 Series Heat Sinks are designed for Ohmite heatsinkable type resistors, such as TAP600, TAP800, TA1K0, TA2K0, and various SOT-227 resistor packages. The CP series also provides maximum heat removal for SCRs, rectifiers, diodes, thyristors, and other high-power semiconductor devices. Ohmite CP4 Series Heat Sinks are customizable to fit multiple applications. Length and mounting hole patterns can be specified.

PRODUCT NEW

For quantities greater than listed, call for quote.

D SERIES HEATSINKS

Ohmite D Series Heatsinks provide an innovative solution for SMT compatible semiconductors and resistors. The unique design (Patent Pending) combines tin plated, solderable rods with an aluminum extruded heat sink body. These rods (or "rollers") are mated mechanically to the heatsink by forging to reduce the thermal resistance between the heatsink body and the solderable feet.

OHMITE Heatsinks

M SERIES HEATSINKS

Ohmite M Series Heatsinks are patented (Pat. No. 7,151,669), high performance, low cost, configurable, scalable and compact heat sinks with matrix clip system. These powerful heat sinks provide the easiest assembly, largest surface area and smallest footprint. It is the ideal type of heat sink for high power density and small size (1U or 2U) electronic packaging with forced convection cooling.

PRODUCT NEW

R2 SERIES HEATSINKS

Ohmite's R2 Series (patent pending) heatsink provides a large surface area along with our C Series clipping mechanism to attach either a TO-220 or TO-247 package. The self-aligning features of the clip assure secure attachment and enhanced thermal performance. Because no screws are required for device mounting, additional fins can be added to the rear side of the heatsink for increased total surface area in a more compact space.

S SERIES LED HEATSINKS

Ohmite S Series LED Heatsinks are low cost and easy assembly heat sinks for "Star" LED packages supplied by OSRAM and others. This simple heat sink can hold LED modules and can be mounted simply with some thread forming screws They have two types of surface finish and can be used in either natural (free) or forced convection cooling applications.

For quantities greater than listed, call for quote.

W SERIES HEATSINKS

Ohmite W Series Heatsinks feature a unique design (patent pending) that combines a tin plated, solderable, integral spring clip with an extruded aluminum heat sink body for an all-in-one solution to through-hole mounting of TO-220 or TO-247 packages. These self-aligning heat sinks feature solderable feet and an integrated clip with 13.2 (lbf) of force on the center of the device to enhance thermal performance.

THERMAL GAP FILLER PADS

Tflex™ gap fillers are used to bridge the interface between hot components and a chassis or heat sink assembly.
The combination of good thermal conductivity and softness reduces mechanical stress, but maintains thermal performance.

Specifications:

- Thickness range: 0.2mm to 8.9mm (0.008" to 0.350") availability varies by product line
- UL Flammability: 94V0

Applications:

- Telecom - wireless infrastructure, routers and VOIP phones
- IT - notebooks, servers, memory modules, hard disk drives, solid state drives, scanners and printers
- Consumer - gaming systems, LCD PDP televisions, and displays
- Industrial - LED lighting, power supplies, lighting ballasts, controllers, scanners, and power converters
- Aerospace and military - power supplies, microwave radio, and controllers

RoHS Compliant

For quantities greater than listed, call for quote.

ELECTRICALLY CONDUCTIVE THERMAL INTERFACE MATERIAL

Tgon™ 800 series is a high-performance, cost effective TIM that can be used where electrical isolation is not required. Tgon 800's unique grain oriented graphite plate structure provides high 240 W/mk thermal conductivity along the XY plane, and 5 W/mk through the Z axis.

Tputty™ gap fillers are used to bridge the interface between hot components and a chassis or heat sink assembly when elimination of mechanical stress or bulk dispensing are critical design considerations.

Specifications:

- Thickness range: 0.5mm to 5.1mm (0.02" to 0.200") bulk, availability varies by product line
- UL Flammability: 94V0

Applications:

- Especially good for applications that require high conductivity and low cost without softness

RoHS Compliant

For quantities greater than listed, call for quote.

TPCM™ AND TGREASE™ HIGH-PERFORMANCE PRODUCTS

High-performance products are used in applications where mechanical tolerances and general design has been optimized for thermal performance.

The Tpcm™ phase change product line is used in applications where reliability, repeatability, and handling must be controlled to optimize the performance as part of the total thermal solution. Available in screen printable formulation that offers the reliability and performance of a phase change material with the low-cost handling of thermal grease.

Tgrease™ is used in applications where a minimum bond line, constant pressure, and ease of screen printing is desired for optimal performance. They are designed to maximize reliability by eliminating pump out in most applications.

Applications:

- IT - servers, desktops, notebooks, and memory modules
- Industrial - power supplies, lighting, LED lighting, and industrial electronics
- Telecom - routers and wireless infrastructure
- Consumer - gaming systems and portable devices

RoHS Compliant

For quantities greater than listed, call for quote.

TGARD™ ELECTRICAL INSULATORS

Tgard™ thermally conductive electrical insulators are used where electrical isolation is a critical design consideration, with reliability, cut-through resistance, and thermal conductivity.

Applications:

- Industrial - power supplies and standard TO-packages that require isolation
- Telecom - board-to-chassis system electrical isolation

RoHS Compliant

For quantities greater than listed, call for quote.

PANASONIC Thermal Graphite Sheets

Panasonic

RoHS Compliant **This product is RoHS compliant.**

EYG SERIES GRAPHITE SHEETS

PGS (Pyrolytic Graphite Sheet) is a thermal interface material which is very thin, synthetically made, has high thermal conductivity, and is made from a highly oriented graphite polymer film. PGS (Pyrolytic Highly Oriented Graphite Sheet) is made of graphite with a structure that is close to a single crystal, which is achieved by the heat decomposition of polymeric film.

It is ideal for providing thermal management/heat-sinking in limited spaces or to provide supplemental heat-sinking in addition to conventional means. This material is flexible and can be cut into customizable shapes.

Flexibility:
PGS is bending-resistant due to its flexibility. PGS can be used for areas such as curved surfaces and corners because its heat conductivity will remain unchanged in the absence of folds in PGS.

Thermal Resistance Property:
Thermal resistance represents the degree of non-conductivity of the heat. Materials with lower thermal resistance are a more efficient conductor of heat (Thermal resistance depends on hardness of, and surface condition of material as well as heat conductivity.)

Features:
- Excellent thermal conductivity
- Flexible and easy to be cut or trimmed
- Low thermal resistance

Specifications:
- Lightweight: Specific gravity: 0.85 to 2.1g/cm^3
- Heat resistance: 400°C
- Bending (angle 180, R5): 10,000 cycles

Recommended Applications:
- Cellular phone, DVC, DSC, PC and peripherals, pickup
- Semiconductor manufacturing equipment
- Optical communications equipment

Bending Limitation		
Bending Angle	Bending Radius (R)	
	R = 2 (mm)	R = 5 (mm)
90°	10,000 cycles or more	100,000 cycles or more
180°	3,000 cycles or more	30,000 cycles or more

LAIRD TECHNOLOGIES Thermoelectric Modules

RoHS Compliant **This product is RoHS compliant.**

THERMOELECTRIC MODULES

The Ceramic Plate (CP) Series of Thermoelectric Modules (TEMs) is considered 'the standard' in the thermoelectric industry. This broad product line of high-performance and highly reliable TEMs is available in numerous heat pumping capacities, geometric shapes, and input power ranges. Assembled with Bismuth Telluride semiconductor material and thermally conductive Aluminum Oxide ceramics, the CP Series is designed for higher current and large heat-pumping applications. For all CP Series modules, wire is stranded, 114mm (4.5in.) long and PVC insulated.

Benefits:

- Precise temperature control with tolerances ±0.1°C achieved under steady state conditions
- DC operation with reverse polarity for heating and cooling in thermal cycling applications
- Rapid cool down below ambient temperatures
- Tight geometric space constraints and low weight requirements
- Power generation from waste heat—patented ThermaTECTM is operational up to 225°C
- Reliable solid-state operation with no sound or vibration (lifetimes of more than 200,000 hours)
- Virtually no electrical noise
- Environmentally friendly, no CFC refrigerants
- Low maintenance, easy to repair

Applications:

- Consumer Electronics
- Medical
- Food & Beverage
- Aerospace
- Defense

LAIRD TECHNOLOGIES Thermoelectric Modules

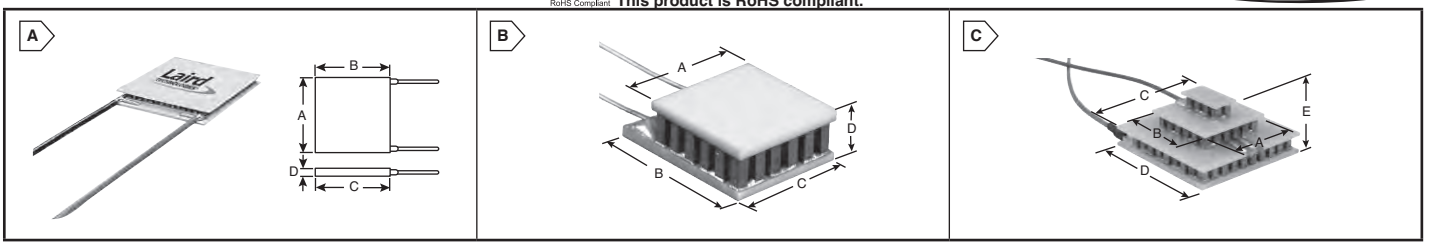
RoHS Compliant **This product is RoHS compliant.**



ZT SERIES - HIGH PERFORMANCE

Features:

- High temperature differential
- Precise temperature control
- Reliable solid state operation
- No sound or vibration

For quantities greater than listed, call for quote.

THERMOELECTRIC MODULES - OPTOTEC SERIES

Features:

- Miniature geometric sizes
- Precise temperature control
- Reliable solid state operation
- No sound or vibration
- DC operation
- RoHS compliant

Applications:

- Laser diodes
- CCD cameras
- Infrared (IR) sensors
- Pump lasers
- Crystal oscillators
- Optical transceivers

THERMOELECTRIC MODULES - MS SERIES

Features:

- High temperature differential
- Precise temperature control
- Reliable solid state operation
- Environmentally friendly
- DC operation
- RoHS compliant

Applications:

- CCD cameras
- Electron microscope
- Calibration equipment
- Photonics laser systems
- Gas analyzers
- Infrared (IR) Sensors
- Guidance Systems

For quantities greater than listed, call for quote.

LAIRD TECHNOLOGIES Thermoelectric Solutions

RoHS Compliant **This product is RoHS compliant.**

(AA) AIR TO AIR ASSEMBLIES

The AA Tunnel Series is an Air-to-Air thermoelectric assembly (TEA) that minimizes the number of airflow paths required to operate. It offers dependable, compact performance by cooling objects via convection. Heat is absorbed and dissipated through high density heat exchangers equipped with air ducted shrouds and brand name fans. The heat pumping action is generated by thermoelectric modules, which are custom designed to achieve a high coefficient of performance (COP) to minimize power consumption. Custom configurations are available, however MOQ applies.

(DA) DIRECT TO AIR ASSEMBLIES

The DA PowerCool Series is a Direct-to-Air Thermoelectric Assembly (TEA) that uses impingement flow to transfer heat. It offers depend able, compact performance by cooling objects via conduction. Heat is absorbed through a cold plate and dissipated thru a high density heat exchanger equipped with an air ducted shroud and brand name fan. The heat pumping action is generated by thermoelectric modules, which are custom designed to achieve a high coefficient of performance (COP) to minimize power consumption. This product series is available in a wide range of cooling capacities and voltages. Custom configurations are available, however, MOQ applies.

(LA) LIQUID - AIR - SYSTEM ASSEMBLIES

Liquid-Air assemblies are used to cool or heat a liquid (or gas) flowing through a heat sink. The liquid heat sink is designed for a recirculating system. The heat is absorbed by the liquid heat sink, pumped through the TE modules, and then dissipated to the air by an air heat sink.

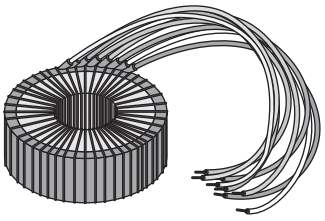
HAMMOND Toroidal Power Transformers

TOROIDAL POWER TRANSFORMERS



Features:

- Low profile, lightweight, cool running - due to high efficiency toroidal design
- Dual 117/234VAC primary, 50/60Hz operation
- Center single hole mounting
- Supplied with two rubber insulating pads, one metal centering washer and all mounting hardware
- Minimum 8" long flexible leads
- Due to toroid design - no electrostatic shield required
- Hi-Pot test of 4,000V RMS between primary & secondary
- CSA certified to C22.2 #66 - CSA file #209651
- UL recognized to UL506 - UL file #E207860
- CE certified to IEC950

RoHS Compliant

10-15A CURRENT SENSING TRANSFORMERS

Features:

- 50kHz-500kHz frequency range
- Surface mount
- UL94 V-0 package materials
- J-STD-020C reflow

For quantities greater than listed, call for quote.

DA100J SERIES DIGITAL AUDIO TRANSFORMERS

Features:

- Industry-standard pinout
- Toroidal construction
- Compatible with leading chip sets
- 2kVrms isolation

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	MPS Part No.	Fig.	Turns Ratio	Prim. Ind. Min. (μh)	Volt-time Product (VμS)	Leakage Ind. Max. (μH)	Price Each 1	5	10	25

78250J SERIES CONVERTER SMT TRANSFORMERS

The 78250J Series of converter transformers are specifically designed for use with Maxim Integrated chip sets to provide isolated RS232 interfaces. Carefully controlled turns ratios ensure consistent performance whilst a toroidal construction minimizes EMI.

Features:

- J-STD-020D reflow
- Maxim's Integrated's MAX250/MAX251 compatible
- UL 94V-0 package materials

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	MPS Part No.	Fig.	Prim. Ind. Max. (mH)	Leakage Ind. Max. (μH)	RDC Max. (Ω)	Isolation Voltage	Price Each 1	5	10	25

580-78250JVC	78250JVC	D	2.5	40	1.8	4.0kVrms				

78253J SERIES CONVERTER TRANSFORMERS

The 78253J Series of converter transformers are designed for use with the MAX253 chip set to provide isolated power supplies. A centre tapped secondary winding allows for full bridge, half bridge or voltage doubling.

Features:

- J-STD-020D reflow
- Frequency range to 500KHz
- Operating Temperature: -40°C to 85°C
- Maxim Integrated's MAX253 compatible

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	MPS Part No.	Fig.	Input Voltage	Output Voltage	Output Current Max. (mA)	Isolation Voltage	Price Each 1	5	10	25

786 SERIES PULSE TRANSFORMERS

Features:

- Inductance to 10mH
- Toroidal construction
- Fully encapsulated
- Isolation to 1kVrms

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	MPS Part No.	Fig.	Turns Ratio	Prim. Ind. Min. (μH)	Volt-time Product (VμS)	Leakage Ind. Typ. (μH)	Price Each 1	5	10	25

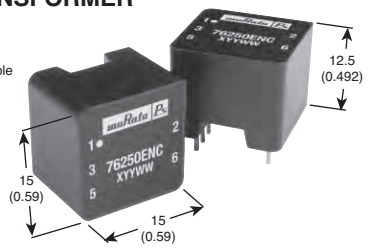
76250ENC CONVERTER TRANSFORMER

Features:
- Maxim Integrated MAX250/MAX251/MAX253 compatible
- BS EN 60950 approved
- Toroidal construction
- Industry-standard pinout

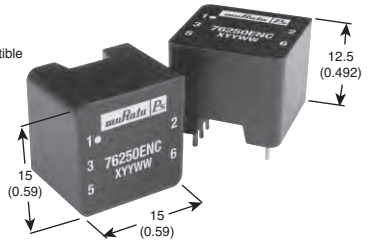


For quantities greater than listed, call for quote.

MOUSER STOCK NO.		Primary Ind.	Leakage Ind.	RDC	Isolation	Price Each			
Mfr.	Mfr.Part No.	Max. (mH)	Max. (µH)	Max. (Ω)	Voltage	1	5	10	25
580	76250ENC	2.5	40	2	6000				

76253/XXENC CONVERTER TRANSFORMER

Features:
- Maxim Integrated MAX250/MAX251/MAX253 compatible
- BS EN 60950 approved
- Toroidal construction
- Industry-standard pinout



For quantities greater than listed, call for quote.

MOUSER STOCK NO.		Input	Output	Output Current	Isolation	Price Each			
Mfr.	Mfr.Part No.	Voltage	Voltage	(mA max.)	Voltage	1	5	10	25

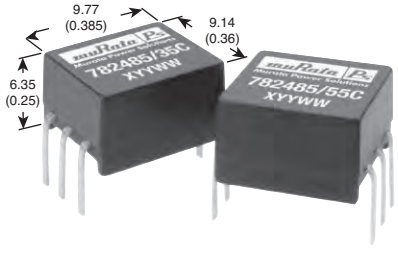
580	782482/53VC	5.0Vin	3.3Vout	4000Vdc	1.14CT:1CT				

782485 SERIES CONVERTER TRANSFORMERS

Features:
- Analog Devices ADM2485 compatible
- Industry-standard pinout
- Toroidal construction
- Operating temperature: -40°C to 85°C
- Turn Ratio: 1CT:2.2CT

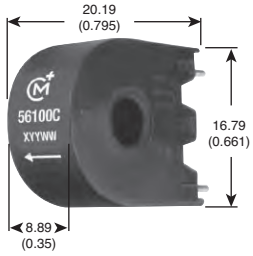


For quantities greater than listed, call for quote.

MOUSER STOCK NO.		Input	Output	Output Current	Isolation	Price Each			
Mfr.	Mfr.Part No.	Voltage	Voltage	(mA max.)	Voltage	1	5	10	25
580	782485/35C	3.3Vin	6Vout	200mA	2500Vrms				

5600 SERIES 10A CURRENT SENSING TRANSFORMERS

Features:
- Primary current rating 10A
- 20kHz-200kHz frequency range



For quantities greater than listed, call for quote.

MOUSER STOCK NO.		Number	Inductance Range Pins	RDC Pins 1	Price Each			
Mfr.	Mfr.Part No.	of Turns	1 and 3	and 3 Ω	1	5	10	25
580	56050C	50	5-9.3mH@1V, 50kHz	0.133-0.199

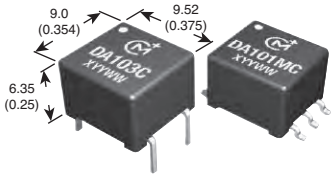
580	56T200C	200CT	80-150mH@1V, 10kHz	1.87-2.81				
580	56T300C	300CT	180-335mH@1V, 10kHz	5.73-8.59				

DA100 SERIES TRANSFORMERS FOR DIGITAL AUDIO DATA TRANSMISSION

Features:
- Compatible with leading chip sets
- Industry-standard pinout
- Suitable for both 75 and 110Ω circuits
- Toroidal construction
- Compliant with AES/EBU standards
- 1:1 turn ratio



✻SMD Package

For quantities greater than listed, call for quote.

MOUSER STOCK NO.		Primary Ind.	Leakage Ind.	Isolation	Price Each

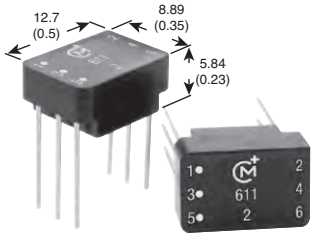
766 SERIES PULSE TRANSFORMERS

Features:
- 4 Configurations
- Industry-standard pinout
- 500VDC Isolation
- PCB mounting
- Toroidal construction



For quantities greater than listed, call for quote.

MOUSER STOCK NO.		Primary	Leakage	RDC Max.	Isolation	Price Each

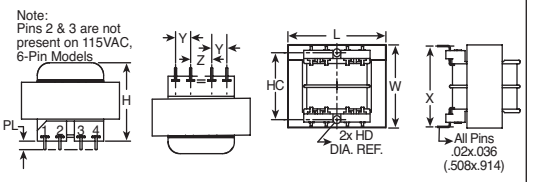
TE Power Transformers

RoHS Compliant **This product is RoHS compliant.**

TE connectivity Authorized Distributor

4900 SERIES POWER PCB TRANSFORMERS

Features & Specifications:
- 1.1 through 36VA models
- Split bobbin design provides 1,500Vrms isolation and permits low profile
- Low capacitive coupling of primary to secondary requires no electrostatic shielding
- Single or dual primaries
- Series or parallel secondaries
- Designed to operate on 50/60Hz
- UL Class B (130°C) insulation



Dimensions: in. (mm)

VA	L	W	H	HC	HD	PL	X	Y	Z
1.1	1.4 (35.6)	1.18 (30.1)	.93 (23.6)	†	†	.135 (3.4)	1.22 (31)	.25 (6.35)	.25 (6.35)

WURTH ELECTRONICS Transformers

RoHS Compliant **This page of product is compliant.**

SURFACE MOUNT OFFLINE TRANSFORMERS

Features:
- Surface mount design
- Designed to IEC60950-1, for reinforced 400VDC
- 3kVAC Isolation
- Multiple output voltage options
- Flexible auxiliary voltage taps

Applications:
- LED lighting
- Offline power supplies

NEW! TECHNOLOGY

RoHS Compliant

WE-LAN RJ45 INTEGRATED 10/100/1000 BASE TRANSFORMERS

Features:
- HPLE - High Performance & Low EMI
- For electrical and technical details please check the according data sheet
- 1x1 RJ45 Connector with integrated Transformer and two current compensated chokes
- Operating temperature: 0°C to +70°C
- 350µH min. OCL with 8 mA bias
- IEEE 802.3 conform
- Internal Magnetics 100% electrically tested for HiPot and functionality

Applications:
- ADSL Modems
- Embedded PC
- LAN Network applications
- Hub, Router, Switches

RoHS Compliant

For quantities greater than listed, call for quote.

POWER-OVER-ETHERNET TRANSFORMERS WE-POE

Features:
- Input voltage 36V - 57V
- Switching frequencies 200 - 300 kHz
- Operating temperature -40°C to +125°C
- Hipot test 1.5kVAC / 1 min.
- Various output and output voltages possible

Applications:
- Flyback transformers designed for Power-over-Ethernet PDs
- Flyback converters with 36V - 57V input voltage
- Suitable for Power-over-Ethernet IC´s

RoHS Compliant

For quantities greater than listed, call for quote.

POWER-OVER-ETHERNET TRANSFORMERS WE-POE PLUS

Features:
- Input voltage 36V - 72V
- Switching frequencies 250-400 kHz
- Operating temperature -40°C to +125°C
- Hipot test 1.5kVAC / 1 min.

Applications:
- PoE + Powered devices
- IP Phones
- WLAN-Access points
- Security cameras

RoHS Compliant

For quantities greater than listed, call for quote.

EC1SA SERIES, 1W SINGLE AND DUAL OUTPUT

Features:
- Isolated Voltage: 1K VDC
- Industry Standard SIP and SMD Packages Available
- Efficiency up to 83%
- Low Cost
- Unregulated Outputs
- Low Ripple and Noise
- Input Voltage Range: ±10%

For quantities greater than listed, call for quote.

EC2A SERIES, 1.5W SINGLE AND DUAL OUTPUT

Features:
- Isolated Voltage: 500VDC
- 24-Pin DIP Package
- Regulated Outputs
- 50% Efficiency
- Pi Input Filter
- Low Ripple and Noise
- Suffix "M" Models: Black Coated Copper with Non-Conductive Base
- Input Voltage Range: ±10%

For quantities greater than listed, call for quote.

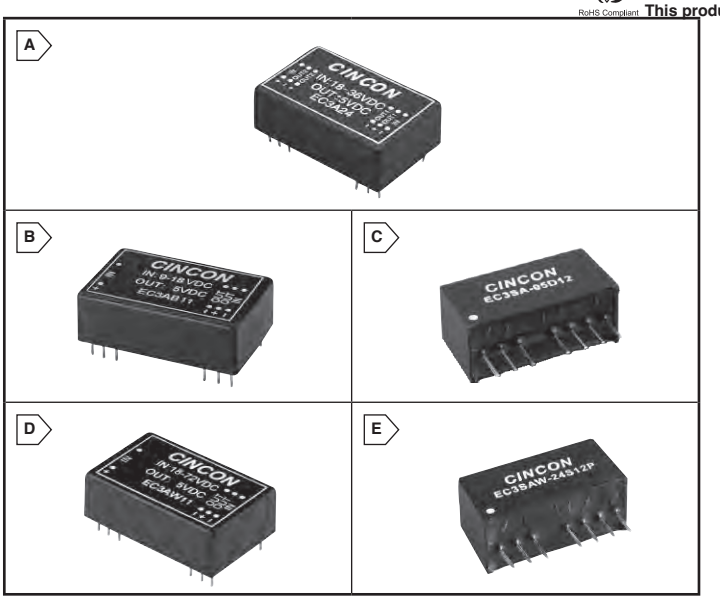
CINCON DC-DC Converters

RoHS Compliant **This product is RoHS compliant.**



EC3AXX H-E SERIES, 3W SINGLE AND DUAL OUTPUT

cULus E176177

PRODUCT NEW

Features:
- Isolated Voltage: 3kVDC
- 24-Pin DIP Package
- Efficiency to 82%
- 2:1 Input Range
- Regulated Outputs
- Pi Input Filter
- Continuous Short Circuit Protection
- Non-Conductive Black Plastic
- Surface Mount package available
- Meets EMI EN55022 Class A
- No Tantalum Capacitor Inside
- Wide Operating Temperature Range

For quantities greater than listed, call for quote.

CINCON DC-DC Converters

RoHS Compliant **This product is RoHS compliant.**

EC4A SERIES, 5-6W SINGLE AND DUAL OUTPUT

Features:
- Isolated Voltage: 3kVDC
- 24-Pin DIP Package
- Efficiency to 84%
- 2:1 Input Range
- Regulated Outputs
- Pi Input Filter
- Continuous Short Circuit Protection
- Surface Mount package available
- Meets EMI EN55022 class A
- No Tantalum Capacitor inside
- Wide Operating Temperature Range

PRODUCT NEW

c UL us E176177

For quantities greater than listed, call for quote.

EC6A SERIES, 7.5W SINGLE AND DUAL OUTPUT

Features:
- Isolated Voltage: 1.5kV
- 24-Pin DIP package
- Efficiency to 87%
- 2:1 Input Range
- Regulated Outputs
- Pi Input Filter
- Continuous Short Circuit Protection
- Black Coated Copper w/ Non-Conductive Base
- Surface Mount package available

EMERSON NETWORK POWER DC-DC Converters

EMERSON Network Power

RoHS Compliant This product is RoHS compliant.

ARTESYN TECHNOLOGIES — NON-ISOLATED POINT OF LOAD DC-DC CONVERTERS

Single Output DDR/QDR POLA Memory Bus Termination Module

The PTHxxxxxY series employs an actively switching synchronous rectifier output to provide state of the art stepdown switching conversion. The products are small in size and are an ideal choice where space, performance and high efficiency are desired.

- DDR & QDR Compatible

For quantities greater than listed, call for quote.

POLA Non-Isolated DC-DC Converters PTV Series (20-88W)

Artesyn's POLA converters are pin-for-pin compatible with those produced by other members of the Point-of-Load Alliance.
The PTV Series is a single output DC-DC converter with Auto-Track feature and a wide output voltage range.

For quantities greater than listed, call for quote.

ARTESYN TECHNOLOGIES — ATCR250 SERIES INTEGRATED ATCA POWER ENTRY MODULE AND DC-DC BUS CONVERTERS

NEW PRODUCT

The ATCR250-48D12-03J is one of the only products available to integrate a 12V primary intermediate bus output with a secondary 3.3V management bus output, for ATCA control and monitoring functions.

For quantities greater than listed, call for quote.

ARTESYN TECHNOLOGIES — IMP300 SERIES 300W ATCA DUAL INPUT POWER MODULE

The IPM300 provides board designers with a rugged quarter-brick solution to implementing dual-redundant, hot-swap -48V inputs with EMI filtering. The new module also includes ORing, inrush control and protection, and power management functionality.

For quantities greater than listed, call for quote.

BMR454 SERIES, 240W EIGHTH BRICK ISOLATED

- Fully regulated intermediate Bus converter
- High efficiency, typ. 95.5% at 12 Vout half load
- 1500 VDC input-output isolation
- ISO 9001/14001 certified supplier
- Dimensions: (LxWxH) 2.30"x0.89"x0.40" (58.4x22.7x10.2mm)
- PMBUS Revision 1.1 Compliant

For quantities greater than listed, call for quote.

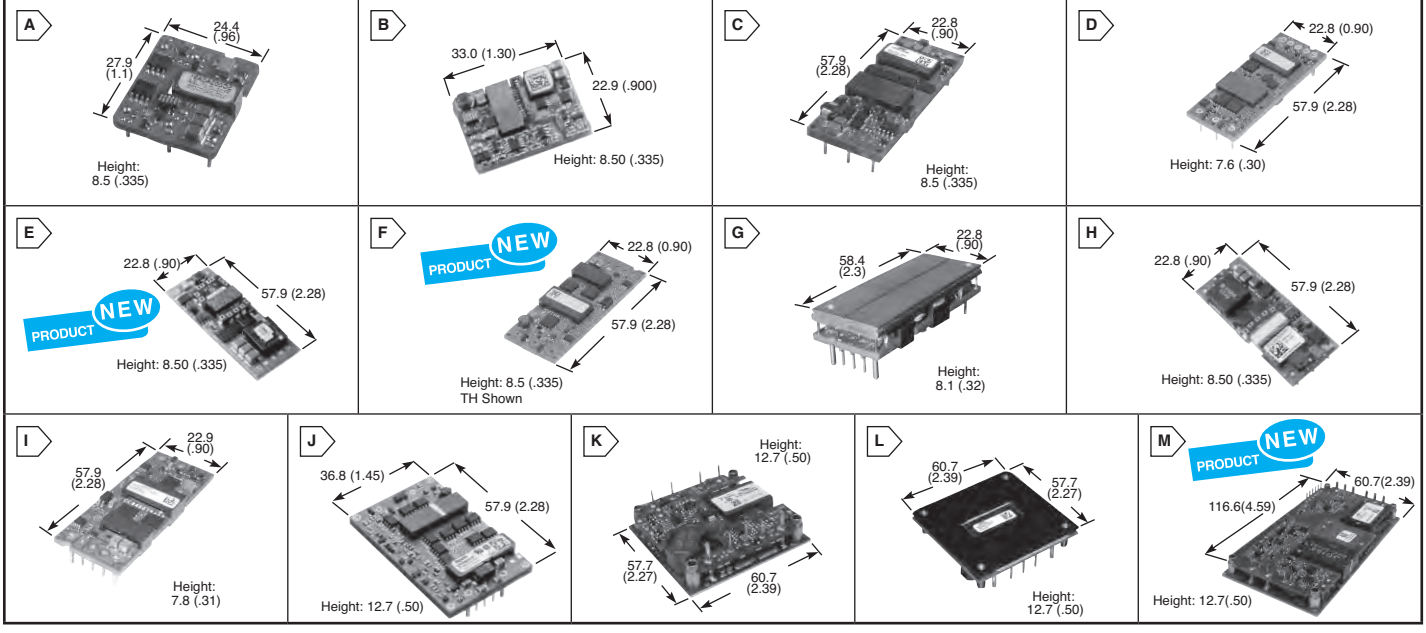
GE ENERGY DC-DC Converters

Products may be RoHS compliant. Check mouser.com for RoHS status.

DIMENSIONS: mm (in.)



ISOLATED DC-DC CONVERTERS

Specifications:
• Remote On/Off • Remote Sense • Overcurrent, over voltage, over temperature protection (auto-restart)

Features	
A = Analog interface	R = auto Restart
D = Digital interface	S = Sequencing
H = Heat plate	T = Tunable Loop™
P = Paralleling	U = rUggedized

Sixteenth-Brick DC-DC Isolated Converter Power Modules

FILTER MODULES

Filter Modules are designed to reduce the conducted common-mode and differential-mode noise on input or output lines of high-frequency switching power supplies.

Features:

- Printed-circuit board mountable
- Operating case temperature range: -40°C to +100°C
- Optimized for use with high-frequency DC-DC power modules

Filter Module

MEAN WELL 40W DC-DC REGULATED SINGLE OUPTUT CONVERTER

Features:
- Protections: Short circuit, over load, over voltage
- 1500VDC I/O Isolation
- Built-in Remote ON/OFF control
- 2:1 wide input range
- Built-in remote sense

For quantities greater than listed, call for quote.

MURATA POWER SOLUTIONS DC-DC Converters

RoHS Compliant This page of product is compliant.

LME SERIES, 250MW SINGLE OUTPUT

The LME series of DC-DC converters are optimized for low-power operation. They are ideally suited to generating a negative supply where only a positive rail exists.

- RoHS Compliant
- 1kVDC isolation
- Efficiency to 75%
- SIP & DIP package styles
- No heatsink required
- Single output rail
- Fully encapsulated

RoHS Compliant

For quantities greater than listed, call for quote.

NME SERIES, 1W SINGLE OUTPUT

This series is particularly suited to isolating and/or converting DC power rails.

- RoHS Compliant
- 1KVDC isolation
- Efficiency to 80%
- UL 94V-0 package material
- No heatsink required
- Toroidal magnetics
- Fully encapsulated

RoHS Compliant

For quantities greater than listed, call for quote.

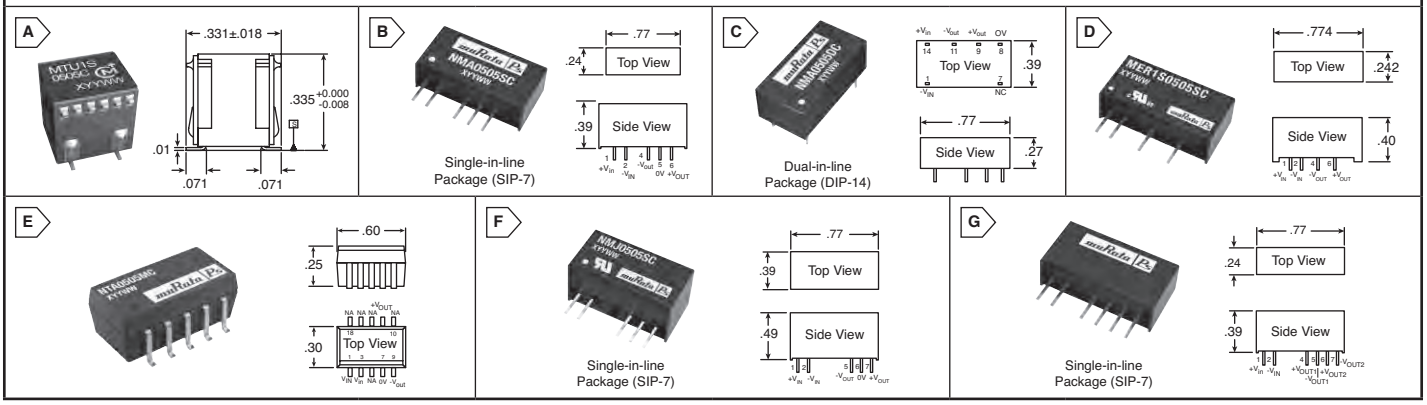
MURATA POWER SOLUTIONS DC-DC Converters

RoHS Compliant **This product is RoHS compliant.**

Murata Power Solutions

DIMENSIONS: in.



MTU1 SERIES, ISOLATED 1W SINGLE OUTPUT SMT

- 1kVDC Isolation
- Power density 1.71W/cm
- Efficiency up to 88% (Typ.)
- UL 94V-0 Package material
- Toroidal magnetics
- Custom solutions available
- Multi-layer ceramic capacitors

NEW PRODUCT

RoHS Compliant

For quantities greater than listed, call for quote.

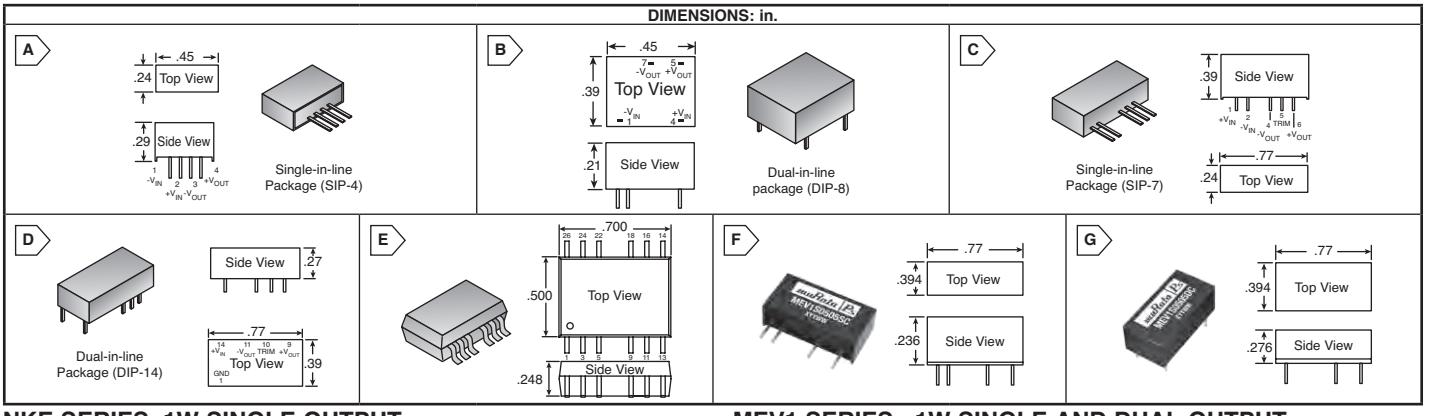
DIMENSIONS: in.



NKE SERIES, 1W SINGLE OUTPUT

This series is particularly suited to isolating and/or converting DC power rails.

- RoHS Compliant
- 3kVDC isolation
- Efficiency to 81%
- Fully encapsulated with toroidal magnetics
- No electrolytic or tantalum capacitors
- UL 94V-0 package material

RoHS Compliant

For quantities greater than listed, call for quote.

NMF SERIES, ISOLATED 1W REGULATED SINGLE OUTPUT

The NMF series of DC-DC converters is used where a tightly regulated supply is required. They are ideal for situations where the input voltage is not tightly controlled.

- 1kVDC isolation
- Efficiency to 62%
- No heatsink required
- RoHS Compliant
- SIP & DIP package styles
- Fully encapsulated
- Single isolated output

RoHS Compliant

For quantities greater than listed, call for quote.

NTF SERIES, SMT 1W SINGLE OUTPUT

The NTF series employs leadframe technology and transfer moulding techniques to bring all of the benefits of IC style packaging to hybrid circuitry.

- RoHS Compliant
- 1kVDC Isolation
- Efficiency from 60.5%
- UL 94V-0 package material
- Internal SMD construction magnetics
- MTTF up to 1.4 million hours
- Multi layer ceramic capacitors
- Wide temperature performance -40°C to 85°C
- Power density 0.7W/cm³
- Lead frame technology

RoHS Compliant

For quantities greater than listed, call for quote.

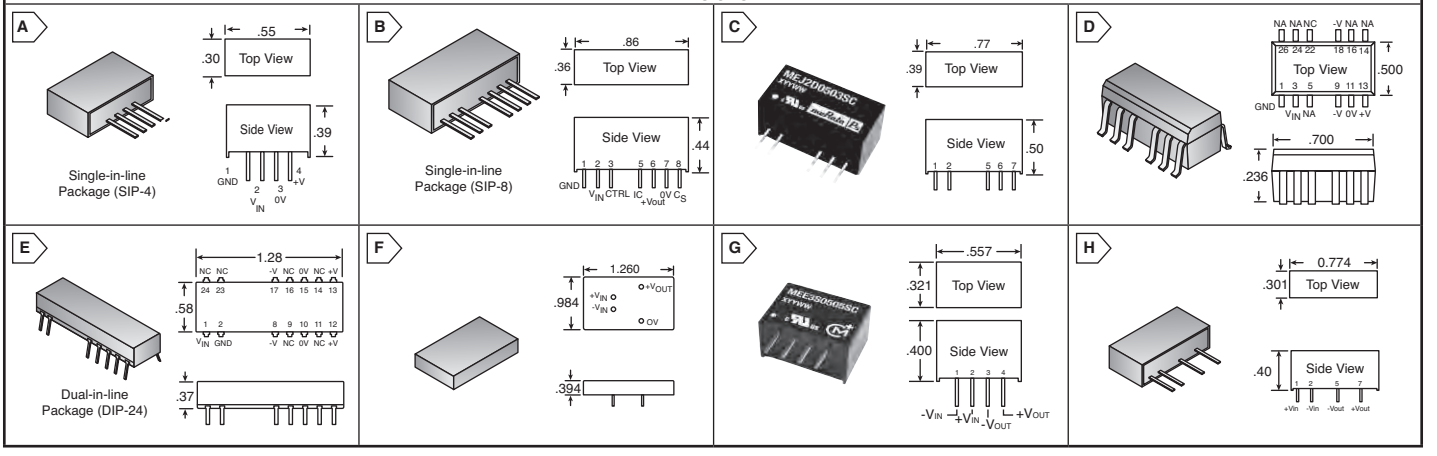
Murata Power Solutions

DIMENSIONS: in.



NML SERIES, 2W SINGLE OUTPUT

The NML is the smallest footprint 2 watt DC-DC Converter currently available.

- 1KVDC isolation
- UL 94V-0 package material
- Toroidal magnetics
- Efficiency to 85%
- No heatsink required
- Fully encapsulated

RoHS Compliant

For quantities greater than listed, call for quote.

NDL SERIES, 2W SINGLE OUTPUT

The NDL series is a range of high performance miniature DC-DC converters having regulated outputs over the wide temperature range of -40°C to 85°C with no power derating.

- 2:1 wide range voltage input
- 0.5% regulation
- External control
- Continuous short circuit protection with current foldback
- 1KVDC isolation

RoHS Compliant

NTH SERIES, 2W DUAL OUTPUT

The NTH series of miniature surface mounted DC-DC converters employ leadframe technology and transfer moulding techniques to bring all of the benefits of IC style packaging to hybrid circuitry.

- 1kVDC isolation
- No heatsink required
- Operating temperature range -40°C to 85°C
- Internal SMD construction
- MTTF up to 2.1 million hours
- Efficiency to 84%

RoHS Compliant

NMS SERIES, 2W DUAL OUTPUT

The NMS series of DC-DC converters are UL 1950 recognized, this makes them ideal for all telecom and safety applications where approved isolation is required.

- Efficiency to 82%
- 6kVDC isolation
- UL 94V-0 package material
- No external components required

RoHS Compliant

For quantities greater than listed, call for quote.

NMT SERIES, 3W TRIPLE OUTPUT

This series is a range of DC-DC converters offering three output voltages of -24V, -48V, and -72V from a single isolated 5V or 12V input voltage. This product is packaged in an 8 pin SIP case for minimum PCB footprint.

- Triple outputs (-24V, -48V, and -72V)
- Power sharing on outputs
- UL 94-V-0 package material
- Toroidal magnetics
- Input/output isolation 1KVDC
- RoHS Compliant

RoHS Compliant

† Shutdown Pin

✻Io assumes all 3 channels are equally loaded

PWR1546A SERIES, 5W REGULATED DUAL OUTPUT

- RoHS Compliant
- 750VDC isolation
- 1mV p-p maximum output noise
- Short-circuit protection
- Six-sided shielding
- Internal input and output filtering
- Fully regulated
- Efficiency: 60% typ.

RoHS Compliant

For quantities greater than listed, call for quote.

NDY SERIES, 3W WIDE INPUT SINGLE OUTPUT

A range of low profile converters offering a single regulated output over a 2:1 input voltage range.

- 1kVDC isolation
- Efficiency to 82%
- UL 94V-0 package material
- No heatsink required
- Toroidal magnetics
- Fully encapsulated
- RoHS Compliant

RoHS Compliant

For quantities greater than listed, call for quote.

DATEL® A-SERIES, UWR MODELS, 8-40W ISOLATED SINGLE OUTPUT

- Fully isolated, 1500VDC guaranteed
- Industry-standard pinouts
- Guaranteed efficiencies to 90%

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Datel Part No.	Fig.	Input Volts (Range)	Output Volts	Output Current	Price Each 1	5	10

MURATA POWER SOLUTIONS DC-DC Converters

RoHS Compliant This product is RoHS compliant.

DATEL A-SERIES, BWR MODELS, 7-33W ISOLATED DUAL OUTPUT

- Industry-standard pinouts
- Fully isolated, 1500VDC guaranteed
- Guaranteed efficiencies to 82%
- Designed to meet UL/EN60950

For quantities greater than listed, call for quote.

DATEL DSM/DWR SERIES, 15W ISOLATED DUAL OUTPUT

- 1"x2" SMT or through-hole package
- Fully isolated, 1500VDC guaranteed
- UL/EN60950 safety approvals
- Efficiency to 85%

For quantities greater than listed, call for quote.

DATEL UHE SERIES, 25-30W ISOLATED SINGLE OUTPUT

- Small 1.6"x2" package with standard 2"x2" pinout
- 1500VDC isolation
- "Q" models offer wide input ranges
- Stable no-load operation
- Thermal shutdown, I/O protected
- Efficiencies as high as 91.5%
- UL/EN60950 certified

For quantities greater than listed, call for quote.

MURATA POWER SOLUTIONS DC-DC Converters

RoHS Compliant **This product is RoHS compliant.**

NPH SERIES, 10-25W ISOLATED SINGLE OUTPUT

- High efficiency to 87%
- 1.5kV input/output isolation
- UL 1950 Recognized (E179522)
- Industry standard pinout
- Operation to zero load
- Protected against load faults
- RoHS Compliant

DATEL UEI SERIES, 15-60W ISOLATED SINGLE OUTPUT

- Isolation up to 2250 VDC (basic)
- High efficiency synchronous rectifier forward topology
- Stable no-load operation with no required external components
- -40°C to 85°C temperature range (with derating)
- Extensive self-protection shut down features
- Positive polarity

RPP POWERLINE PLUS HIGH TEMPERATURE DC-DC CONVERTERS

20-50W SINGLE & DUAL OUTPUT

Ideal for high end industrial applications where a very high ambient operating temperature is required.

For quantities greater than listed, call for quote.

A

- Optional Remote On/Off and Trim pins
- Fixed Operating Frequency
- 2.25kVDC Isolation
- Efficiency to 87%

B

Features:
- Built-in FCC/EN55022 class B filter
- Low quiescent current
- Fully protected
- 2-3kVDC Isolation
- Efficiency to 92%

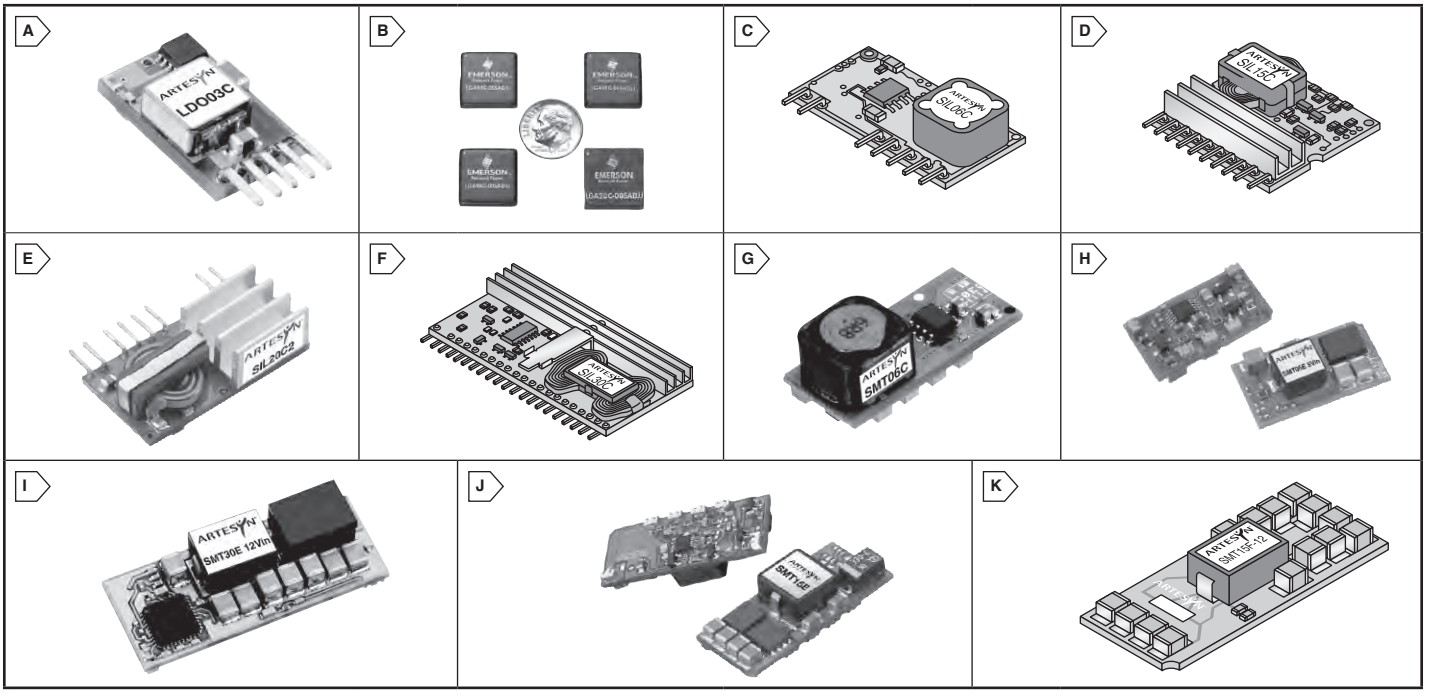
EMERSON NETWORK POWER DC-DC Converters

EMERSON Network Power



ARTESYN TECHNOLOGIES NON-ISOLATED POINT OF LOAD DC-DC CONVERTERS

Artesyn produces a high density, open frame, non-isolated converter for space sensitive applications with a wide input range.
Choose C class for economy or E class when performance is key.

RoHS Compliant

LDO C Class Series (15-50W)

• Vertical Mount listed — Other mounting styles available. Contact a Mouser Service Representative.

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Artesyn Part No.	Fig.	Input Voltage	Output Voltage	Output Current	Output Power	Dimensions: in. L	W	H	Price Each 1	10	25	50

LGA C Series (15-100W)

The LGA series is cost-effective equipped with a variety of best-in-class features. Packaged in a small 16.26x16.26mm outline and identical footprint for all models providing designers with a convenient power path if system requirements change.
Each module can be mounted on either side of the circuit board allowing for flexible space management.
LGA Heatsink kit available. Contact a Mouser Service Representative.

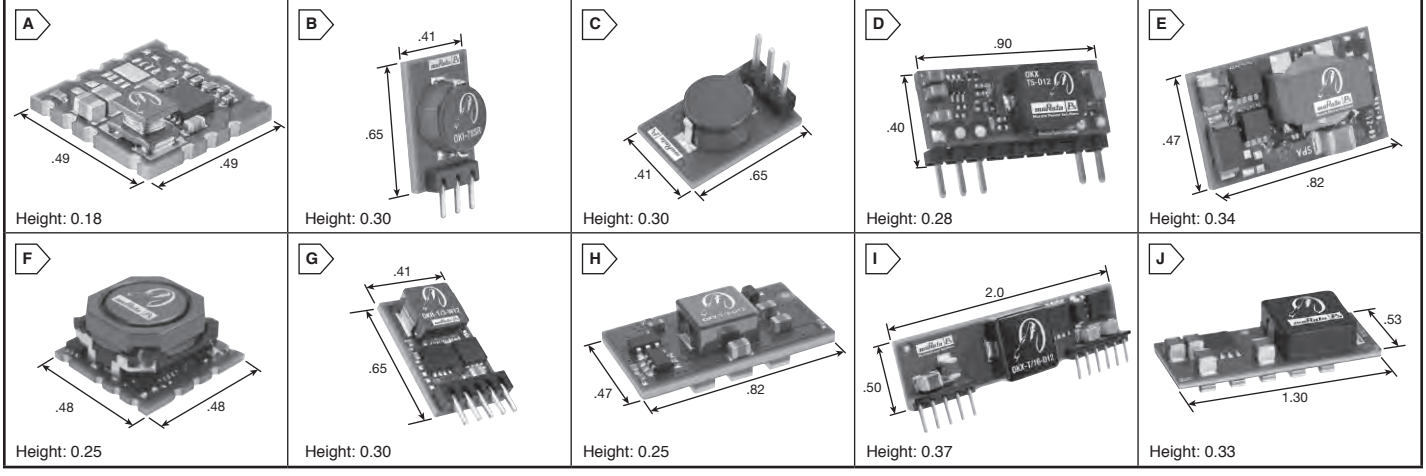
MURATA POWER SOLUTIONS DC-DC Converters

RoHS Compliant **This product is RoHS compliant.**

Murata Power Solutions

DIMENSIONS: in.



OKAMI NON-ISOLATED PROGRAMMABLE OUTPUT DOSA POLS

Designed to support a wide range of applications, Okami modules are ideal for powering the latest generation of FPGAs and DSPs, are drop-in replacements for other DOSA-compliant parts, and are a competitive alternative to discrete designs.

Datel Okami OKL Series, 1A Programmable Output iLGA-SMT PoLs

Features:
- iLGA inspectable Land Grid Array
- High power conversion efficiency at 90%
- Short circuit and over current protection
- Outstanding thermal derating performance

For quantities greater than listed, call for quote.

MOUSER STOCK NO. Mfr.	Mfr. Part No.	Fig.	Input Volts Nom. (Range)	Output Volts	Io	On/Off Polarity	Price Each 1	5	10
580—	OKL-T/1-W12N-C	A	12 (2.9-14)	0.9 - 5.5	1A	Neg.			

Datel Okami OKI Series, 1.5A Single Output SIP

Features:
- Non-isolated SIP
- Short circuit protection
- Outstanding thermal derating performance
- UL/EN/IEC 60950-1 safety approvals

For quantities greater than listed, call for quote.

MOUSER STOCK NO. Mfr.	Mfr. Part No.	Fig.	Input Volts Nom. (Range)	Output Volts	Io	Price Each 1	5	10
580—	OKI78SR3.31.536C	B	24 (7-36)	3.3	1.5A			
580—	OKI78SR5/1.5W36C	B	24 (7-36)	5	1.5A			

Datel Okami OKI Series, Horizontal Mount 1.5A Fixed Output SIP

Features:
- Ultra wide 7 to 36 VDC input range
- Vertical or horizontal SIP-mount, small footprint package
- "No heat sink" direct replacement for 3-terminal 78xx-series linear regulators
- Outstanding thermal derating performance
- High efficiency with no external components
- Short circuit protection

For quantities greater than listed, call for quote.

MOUSER STOCK NO. Mfr.	Mfr. Part No.	Fig.	Input Volts Nom. (Range)	Output Volts	Io	Price Each 1	5	10

580—	OKI78SR51.5W36HC	C	24 (7-36)	5	1.5A			

Datel Okami OKI Series, 3A Adjustable SIP

Features:
- Non-isolated SIP POL DC/DC power module
- Drives 1000µF ceramic capacitive loads
- High power conversion efficiency 93% at 5Vout (typical)
- Over temperature and over current protection
- On/Off control
- UL60950, CSA-C22.2 No.60950 IEC/EN60950 (pending)

NEW PRODUCT

For quantities greater than listed, call for quote.

MOUSER STOCK NO. Mfr.	Mfr. Part No.	Fig.	Input Volts Nom. (Range)	Output Volts	Io	Price Each 1	5	10

580—	OKX-T/5-W5N-C	D	5 (2.4-5.5)	3.6	5A			

Datel Okami OKI Series, 3A Adjustable Output SMT

Features:
- Non-isolated SMT POL DC/DC power module
- High power conversion efficiency 86.5% at 4.5Vout
- Outstanding thermal derating performance
- Over temperature and over current protection
- On/Off control
- Drives 1000µF ceramic capacitive loads

For quantities greater than listed, call for quote.

MOUSER STOCK NO. Mfr.	Mfr. Part No.	Fig.	Input Volts Nom. (Range)	Output Volts	Io	On/Off Polarity	Price Each 1	5	10

Datel Okami OKI Series, 3A Selectable Output SMT

Features:
- Non-isolated SMT POL DC-DC power module
- Drivers 1000µF ceramic capacitive loads

For quantities greater than listed, call for quote.

MOUSER STOCK NO. Mfr.	Mfr. Part No.	Fig.	Input Volts Nom. (Range)	Output Volts	Io	On/Off Polarity	Price Each 1	5	10
580—	OKI-T/36W-W40N-C	E	24 (19-40)	5.021-15.5	3A	Neg.			

Datel Okami OKL Series, 3-6A Single Output SMT

Features:
- iLGA inspectable Land Grid Array
- Meets UL/EN/IEC 60950-1 Safety, 2nd edition
- Outstanding thermal derating performance
- Short circuit and over current protection
- On/Off control and Power Good signal

✻ Sequence/tracking operation

For quantities greater than listed, call for quote.

Datel Okami OKR Series, 3-10A Single Output SIP

Features:
- Programmable output voltage from 0.591-6Vdc
- Drives 200µF ceramic capacitive loads
- Over temperature and over current protection
- 600KHz operation
- High power conversion efficiency at 92%

For quantities greater than listed, call for quote.

MOUSER STOCK NO. Mfr.	Mfr. Part No.	Fig.	Input Volts Nom. (Range)	Output Volts	Io	Price Each 1	5	10
580—	OKR-T/3-W12-C	G	12 (4.5-14)	0.591-6	3A

Datel Okami OKY Series, 3-5A Single Output SMT

Features:
- Drives 1000µF capacitive loads
- Over temperature and over current protection
- UL/EN/IEC 60950-1 safety
- DOSA compatible SMT package

For quantities greater than listed, call for quote.

MOUSER STOCK NO. Mfr.	Mfr. Part No.	Fig.	Input Volts Nom. (Range)	Output Volts	Io	On/Off Polarity	Price Each 1	5	10

Datel Okami OKX/OKY Series, 10-16A Single Output SMT

Features:
- Programmable output voltage
- Drives 1000µF ceramic capacitive loads
- On/Off control and sense input
- Short circuit, over temperature, and over current protection
- UL/EN/IEC 60950-1 safety

For quantities greater than listed, call for quote.

580—	OKY-T/16-W5N-C	I	5 (2.4-5.5)	0.7525-3.63	16A	Neg.			

Datel Okami OKX/OKY Series, 10-16A Single Output SIP/SMT

Features:
- Programmable output voltage from 0.75-5.5VDC
- Drives 1000µF capacitive loads
- Over temperature protection
- UL/EN/IEC 60950-1 safety
- Outstanding thermal derating performance
- DOSA compatible package
- On/off control
- High efficiency up to 94.5%

For quantities greater than listed, call for quote.

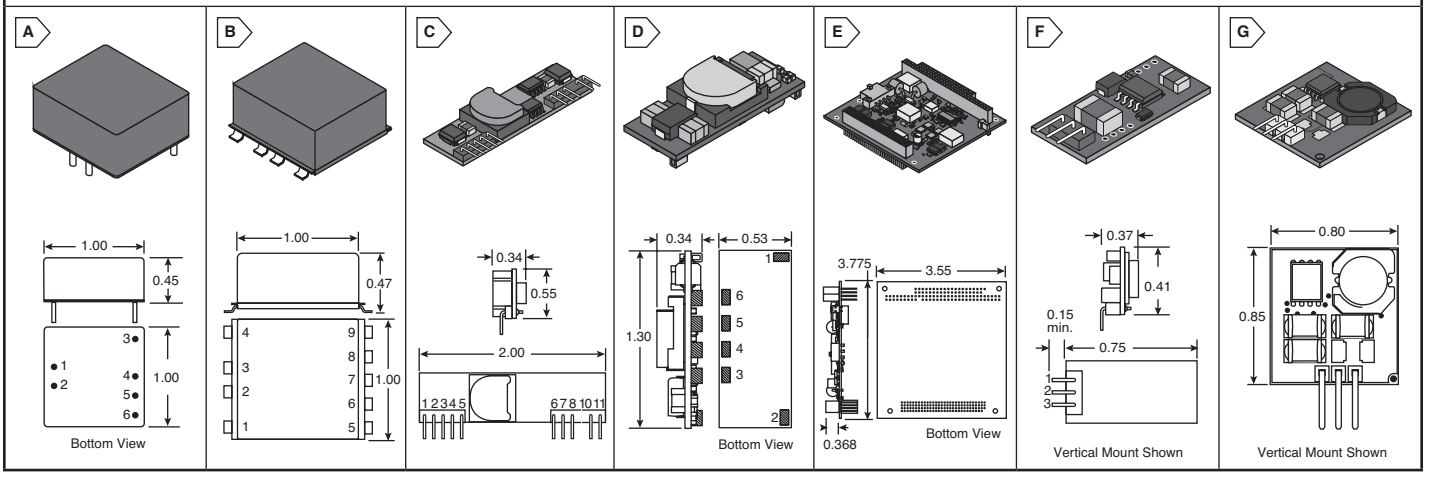
MURATA POWER SOLUTIONS Non-Isolated DC-DC Converters

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: in.



DATEL UNR SERIES, 10-25W NON-ISOLATED 2-3A SINGLE OUTPUT

Features:
- Efficiencies to 91%
- On/off control; EMC compliant
- No external components required
- IEC60950/EN60950/UL1950 approvals
- Low output noise
- Quick transient response

RoHS Compliant

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Datel Part No.	Fig.	Input Volts Nominal (Range)	Output Volts	Output Current	Price Each 1	5	10
580-UNR3.3-3-D5-C	UNR-3.3/3-D5-C	A	5 (4.75-5.5)	3.3	3A

DATEL MAPC-104 MODEL, 46W NON-ISOLATED TRIPLE OUTPUT

Designed to power the Cisco 3200 Mobile Access Router and is compliant to PC/104-Plus specifications.

Features:
- Reverse input voltage protection
- Automotive transient protection
- Efficiency to 92.5% @ full load
- Thermal shutdown with warning
- IEC/EN/UL60950 certified

RoHS Compliant

For quantities greater than listed, call for quote.

DATEL LSN SERIES, 10-53W NON-ISOLATED 10A SIP PACKAGE

Features:
- Industry-standard SIP pinout
- Stable no-load operation
- Trimmable output voltage
- EMC compliant
- Efficiencies to 94% @ 10A
- Remote on/off and sense pins
- Thermal shutdown
- UL/IEC/EN60950 certified

RoHS Compliant

✻ No remote sense
† Horizontal mount

For quantities greater than listed, call for quote.

DATEL 78SR SERIES, HIGH-EFFICIENCY SWITCHING REGULATORS WITH LM78XX PINOUTS

Features:
- Built-in filter capacitors
- Can be used with unregulated DC supplies
- Up to 95% efficiency

RoHS Compliant

✻ Horizontal Mount

For quantities greater than listed, call for quote.

DATEL LSM SERIES, 15-50W NON-ISOLATED 10A SMT PACKAGE

Features:
- Step-down buck regulators with industry-standard SMT footprint
- Non-isolated, fixed-frequency, synchronous-rectifier topology
- Tape and reel SMT package
- Stable no-load operation
- Remote on/off control
- Sense pin and output voltage trim
- EMC compliant
- UL/IEC/EN60950 certified

RoHS Compliant

For quantities greater than listed, call for quote.

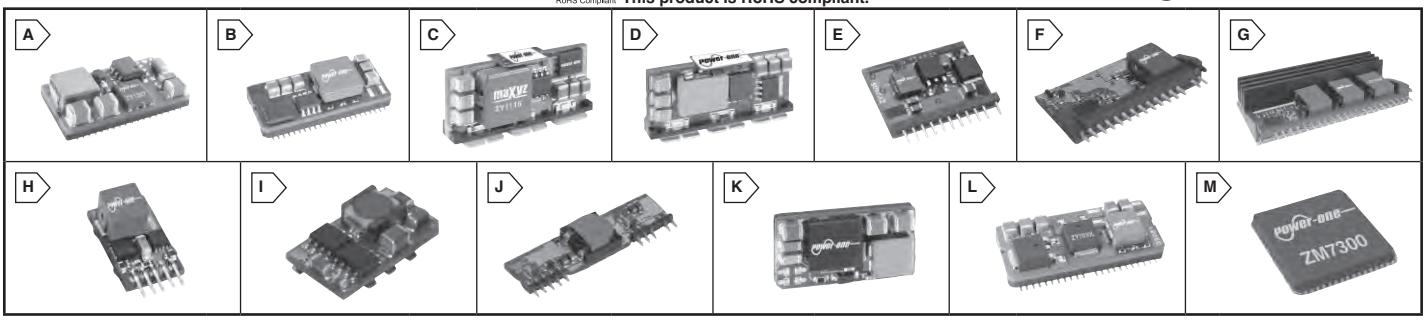
POWER-ONE DC-DC Converters

RoHS Compliant **This product is RoHS compliant.**



DC-DC NO-BUS POLS

Features:

- Overcurrent and overtemperature protections
- Overvoltage and undervoltage protections, and Power Good signal tracking the output voltage setpoint
- Tracking during turn-on and turn-off with guaranteed slew rates
- Sequenced and cascaded modes of operation
- Single-wire line for frequency synchronization between multiple POLs
- Programmable feedback loop compensation
- Enable control
- Flexible fault management and propagation
- Start-up into the load pre-biased up to 100%
- Current sink capability
- UL60950 recognized, CSA C22.2 No. 60950-00 certified, and TUV EN60950-1:2001 certified (pending)

Applications:

- Low voltage, high density systems with Intermediate Bus Architectures (IBA)
- Point-of-load regulators for high performance DSP, FPGA, ASIC, and microprocessor applications
- Industrial computing, servers, and storage
- Broadband, networking, optical, and wireless communications systems
- Active memory bus terminators

RoHS Compliant

For quantities greater than listed, call for quote.

NON-ISOLATED POL DC-DC CONVERTERS

Features:

- Low noise fixed frequency operation
- Overcurrent, and short circuit protections with automatic restart
- Reduces board space, system cost and complexity, and time to market

RoHS Compliant

For quantities greater than listed, call for quote.

DC-DC INTELLIGENT POLS

Features:

- Single-wire serial communication bus for frequency synchronization, programming, and monitoring
- Optimal voltage positioning with programmable slope of the VI line
- Overcurrent, overvoltage, undervoltage, and overtemperature protections with programmable thresholds and types
- Programmable fixed switching frequency 0.5-1.0MHz
- Programmable turn-on and turn-off delays
- Programmable turn-on and turn-off voltage slew rates with tracking protection
- Full rated current sink
- Programmable feedback loop compensation
- Power Good signal with programmable limits
- Programmable fault management
- Start up into the load pre-biased up to 100%
- Real time voltage, current, and temperature measurements, monitoring, and reporting
- UL60950 recognized, CSA C22.2 No. 60950-00 certified, and TUV EN60950-1:2001 certified

RoHS Compliant

For quantities greater than listed, call for quote.

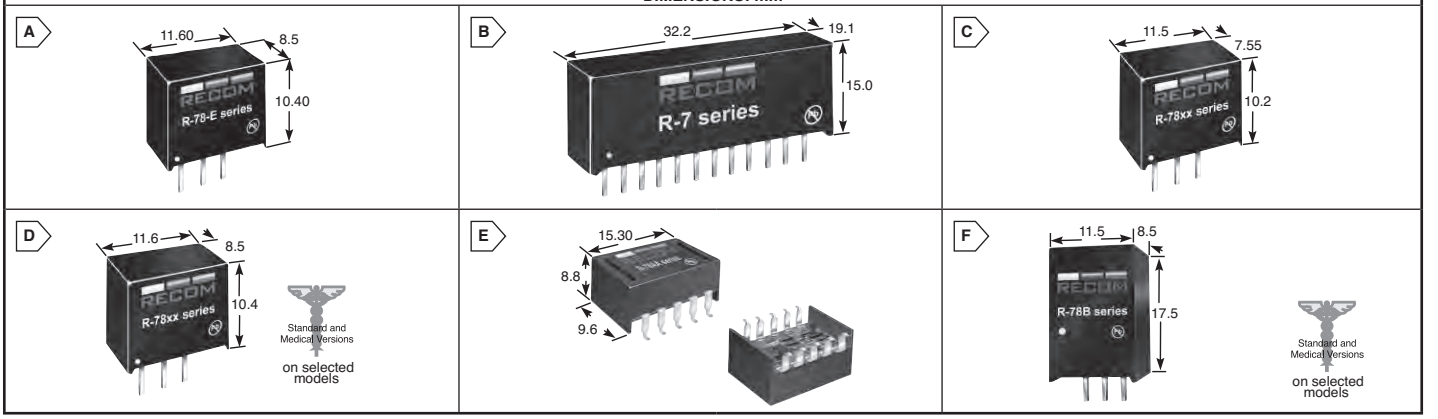
RECOM POWER DC/DC Converters

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: mm



INNOLINE - NON ISOLATED DC/DC CONVERTERS

R-78E Series Single Output, 0.5 Amp

Features:
- Low cost switching regulator
- Efficiency up to 92%
- Pin compatible with 78 Series Regulators
- Short Circuit Protection

NEW PRODUCT

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	RECOM Part No.	Fig.	Input Range	Nominal Output Voltage	Output Current	Price Each 1	5	10	25
919-R-78E5.0-0.5	R-78E5.0-0.5	A	7-28VDC	5.0VDC	500mA				

R-7XXX Series, Innoline SIP12

Features:
- High Performance
- Adjustable Output voltage
- Step Down Regulators with up to 96% Efficiency
- Remote ON/OFF Control(Ground Off)
- Horizontal Pins available. Suffix "D"

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	RECOM Part No.	Fig.	Input Range	Nominal Output Voltage	V_{out} Adjust Range	Output Current	Price Each 1	5	10	25

R-78 Series, Single Output, SIP3

Features:
- High Efficiency up to 97%, no need for heatsinks
- Pin-Out compatible with LM78xx Linear Regulators
- Short circuit protection, Thermal shutdown
- Very Low Profile

For quantities greater than listed, call for quote.

CINCON Open Frame AC-DC Power Supplies

RoHS Compliant **This product is RoHS compliant.**

5W AC-DC SWITCHING POWER SUPPLIES

Features:
- Universal Input: 85~264VAC
- Meets EN 55022 Class B
- Efficiency to 80% Typical

Specifications:
- Input Frequency: 47 to 63Hz
- Inrush Current: 40A max. @ 240VAC
- Continuous Short Circuit Protection
- Line Regulation: ±0.5% max.
- Load Regulation: ±1.0% max.
- Operating Temperature Range: 0°C~70°C

RoHS Compliant

For quantities greater than listed, call for quote.

100W MEDICAL AC-DC POWER SUPPLIES WITH PFC

Specifications:
- Input Frequency: 47Hz to 63Hz
- Inrush Current: 80A Max @ 240VAC and cold start 25°C
- Continuous Short Circuit Protection
- Over Voltage Protection

Standard and Medical Versions

RoHS Compliant

For quantities greater than listed, call for quote.

150W MEDICAL OPEN FRAME AC-DC WITH PFC

Features:
- Universal Input Range 90 ~ 264VAC
- Meets EN60601-1 and EN55011 Class B
- Active PFC Meets EN61000-3-2
- High Efficiency up to 92%
- Meets CISPR/FCC Class B
- Remote Voltage Sense
- Continuous Short Circuit Protection
- No load Power Consumption<0.5W

For quantities greater than listed, call for quote.

675-HA5-1.5OVA-G Illustrated

675-HBAA-40WA-G Illustrated

LINEAR POWER SUPPLIES

Specifications:
- AC Input: 100, 120 and 240VAC: +10%, -13%; 215VAC: +12%, -11 %; 47 to 63Hz
  Tolerance for 230VAC operation is +15%, -10% Derate output current 10% for 50Hz operation
- Line Regulation: ±0.05% for a 10% change
- Load Regulation: ± 0.05% for a 50% load change
- Temperature Rating: 0 to 50°C full rated, derated linearly to 40% at 70°C
- Efficiency: 5V units: 45%; 12 and 15V units: 55%; 20 and 24V units: 60%
- -G suffix models are RoHS Compliant

Features:
- World-wide AC input ranges and safety standards
- Burn-in with cycling; 3-year warranty
- Transformer insulation meets Class F (155ºC)
- Exceed FCC and CISPR22 Class B conducted emissions
- Approved to UL 1950, CSA 22.2 No. 234 Level 3, and IEC 950

✻ Requires fan cooling

DUAL OUTPUT OVERVOLTAGE PROTECTION

Features:
- Adjustable from 6.2V to 33VDC
- Mounts directly on power supply chassis
- One OVP module is required for both single and dual output power supplies
- Protects up to a maximum continuous current of 8A and up to 12A intermittent current
- For use on 12V to 28V and ±12V and 15V models

RoHS Compliant

For quantities greater than listed, call for quote.

GSM11 SERIES, 11W SINGLE OUTPUT MEDICAL SWITCHERS

Features and Specifications:
- AC Input: 85-264max (100-240nom) VAC, 45-65Hz
- Overvoltage and short circuit protection
- Safety Approvals: UL/EN/IEC 60601-1 CSA22.2 No.601 and UL/EN/IEC 60950-1 CSA22.2 No. 60950-1
- Efficiency: 67-77%
- Noise P-P: 1%
- Total Regulation: 2%

GSM15 SERIES, 15W SINGLE OUTPUT MEDICAL SWITCHERS

Features and Specifications:
- AC Input: 90-264VAC, 47-63Hz single phase
- Overload Protection: Fully protected against short circuit and output overload
- Overvoltage protection standard
- Noise P-P: 2.5%
- No minimum load
- Total Regulation: 2%
- Medical approvals to UL2601-1, IEC60601-1, CSA-C22.2 No. 601-1, EN60601-1
- Mating connectors: AMP MTA-100 Receptacle (4 position)
- Leakage Current: 75µA 132VAC@60Hz, 128µA 264VAC@50Hz

RoHS Compliant

For quantities greater than listed, call for quote.

GSC20 SERIES, 20W COMMERCIAL SWITCHERS

Specifications:
- AC Input: 90-264VAC, 47-63Hz single phase
- Efficiency: 70% minimum
- Safety approved to UL 1950, IEC 95, and CSA 22.2 No. 234 Level 3

Features:
- Industry's smallest 20W switcher
- Business-card size (2.0" x 3.5" x 0.71")
- EMI FCC Class B, CISPR22B
- Leakage Current: 200µA, 132VAC/60Hz

MINT1045 SERIES, 45W SINGLE OUTPUT MEDICAL AND ITE POWER SUPPLY

Specifications:
- 45W Convection coded
- Universal Input 80-270VAC, 47-440Hz
- Input Current: 0.75@120VAC, 0.45A@240VAC
- Efficiency: 88% Typ.

Features:
- Class I or Class II AC Input Applications
- CSA/EN/IEC/UL60601-1 3rd Edition for Medical, Type BF Capable, Ultra-low Leakage Current
- CSA/EN/IEC/UL60950-1 2nd Edition for ITE
- 3 year warranty

For quantities greater than listed, call for quote.

GLC65 AND GLM65 SERIES, 65W TRIPLE OUTPUT COMMERCIAL AND MEDICAL SWITCHERS

Specifications:
- AC Input: 90-264VAC, 47-63Hz single phase
- Efficiency: 80% typical
- Two year warranty
- Ripple/Noise: 1%
- OVP Setpoint: 6.2± 0.6V

Medical Features:
- Conducted EMI exceeds FCC Class B and CISPR 11 Class B
- Approved to UL2601-1, CSA 22.2 No. 601.1, and EN60601-1
- Leakage Current: 40µA 132Vac@60Hz

Commercial Features:
- Conducted EMI exceeds FCC Class B and CISPR 22 Class B
- Approved to UL1950, CSA-C22.2 No. 950, and EN60950
- Leakage Current: <500µA@120Vac, <1.2mA@240Vac

GPC55 AND GPM55 SERIES, 55W COMMERCIAL AND MEDICAL SWITCHERS

Commercial Features:
- Wide-range AC input 85-264VAC
- Exceeds FCC and CISPR22 Class B conducted emissions requirements
- Leakage current: 0.7mA 254VAC @ 60Hz input
- Safety approved to UL 1950, CSA a No. 234 Level 3, IEC 950, EN60950
- Environmental: Designed for 0 to 50°C operation at full rated output power

Medical Features:
- EMI to FCC, CISPR11 Class B/IEC601-1
- Efficiency: 65% at full rated load, nominal input voltage, depending on model and load distribution
- Leakage current: 35µA, 254VAC @ 60Hz input
- Safety approved to UL 2601, CSA 22.2 No. 601 Level 3, IEC 601

Specifications:
- AC Input: 85-264VAC, 47-63Hz single phase
- Input Current: Maximum input current at 120VAC, 60Hz with full rated output load: 1.7A
- Efficiency: 70% at full rated load, nominal input voltage, depending on model and load distribution
- Two year warranty

MINT1180 SERIES, 180W SINGLE OUTPUT MEDICAL POWER SUPPLY

Specifications:
- Universal Input 90-264VAC, 47-63Hz
- Inrush Current: 264VAC, cold start: will not exceed 55A
- Efficiency: 92% Typ.
- Minimum Load: OA

Features:
- 3x5x1.2 Package
- Up to 250W of AC-DC Power
- Class I or Class II Input Versions
- Fits 1U Applications
- Optional Chassis/Cover
- 5 year warranty

For quantities greater than listed, call for quote.

CONDOR Global Performance Switchers

RoHS Compliant This product is RoHS compliant.

MINT1110A SERIES, 110W SINGLE OUTPUT SERIES MEDICAL - UNIVERSAL INPUT POWER SUPPLIES

Features:

- 110W Convection cooled AC-DC Power Supply
- Universal Input 90-264VAC
- Dimensions: 3" x 5" x 1.27"
- Efficiency: 87% typ
- Rugged EMC Compliant design
- Approved to EN/IEC/UL60601-1 for medical
- Chassis and cover optional

† Unrestricted natural convection cooling ‡ 26CFM forced air cooling

For quantities greater than listed, call for quote.

CINT1175 & MINT1175 SERIES, 175W SINGLE OUTPUT POWER SUPPLIES

NEW PRODUCT

Specifications:

- For 1U Applications and Class I or Class II construction
- 175W w/air, 120W convection cooled
- Universal Input 90-264 VAC
- Average Efficiency meets Level V Requirements
- Approved to CSA/EN/IEC/UL60601-1,3rd Edition 2 MOPP
- 12V fan output
- Efficiency 90% typical at Full Load
- CE Compliant (LVD, RoHS)
- International Safety Agency Approvals

For quantities greater than listed, call for quote.

MINT1275 SERIES, 275W SINGLE MEDICAL POWER SUPPLIES

NEW PRODUCT

Specifications:

- Up to 275W of AC-DC Power
- Universal Input 90-264 Vac
- Class I Input (Optional Class II)
- Approved to IEC60601-1 3rd Edition
- Efficiency 92% typical
- Optional Chassis/Cover
- CE marked
- Medical Safety Standards: EN/CSA/UL/IEC 60601-1, 3rd Edition Type B

For quantities greater than listed, call for quote.

GPFC250 SERIES, 250W COMMERCIAL SWITCHERS WITH POWER FACTOR CORRECTION

Specifications:

- AC Input: 85-264VAC, 47-63Hz single phase
- Input Current: Maximum input current 2.3A at 90VAC, 60Hz with full load Input current harmonic content meets the requirements of IEC1000-3-2
- Overload Protection
- Leakage Current: 70μA under normal conditions (132Vac @ 60Hz)

Features:

- Power factor corrected to IEC1000-3-2; Class A
- Less than 300μA leakage
- EMI compliance to CISPR22, FCC Class B
- Two year warranty

For quantities greater than listed, call for quote.

MINT2270 SERIES, MEDICAL 270W DUAL OUTPUT SERIES

Features:

- Up TO 90% Efficiency Typical
- Natural Interleaving Technology for PFC
- LLC Technology for DC Converter
- Remote ON/OFF by PS-ON Signal
- Remote ON/OFF by PS-ON Signal
- DC-OK, AC-OK Signal Active
- Medical Approval - EN60601-1

For quantities greater than listed, call for quote.

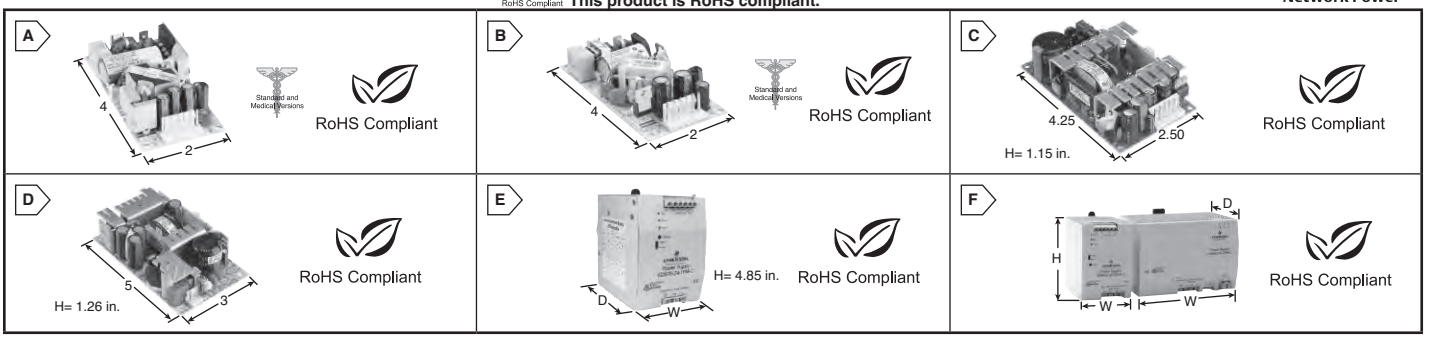
EMERSON NETWORK POWER Switching Power Supplies

EMERSON Network Power

RoHS Compliant **This product is RoHS compliant.**



NPS AND NLP SERIES AC/DC UNIVERSAL INPUT SWITCH MODE POWER SUPPLIES

DIMENSIONS: in.

NPS and NLP Series power supplies are compact, high-efficiency switch-mode designs. All of the AC/DC power supplies feature a universal input—making them suitable for use anywhere in the world—and most above 40W are available with harmonic current correction to meet the EN61000-3-2 standard.

Specifications:

- Input range: 90-264 VAC(wide range) 127-300 Vdc
- Remote sense EN60601-1
- Medical & ITE safety approvals

25-60 Watt

For quantities greater than listed, call for quote.

DIMENSIONS: mm

MEAN WELL 12-100W SINGLE OUTPUT LED SWITCHING POWER SUPPLIES

NEW PRODUCT

Features:
- High efficiency up to 89%
- Suitable for LED lighting and moving signs
- Short circuit and over voltage protection.
- 100% full load burn-in test

RoHS Compliant

For quantities greater than listed, call for quote.

MEAN WELL Open Frame Switching Power Supplies

MEAN WELL 5W-70W SINGLE, DUAL, TRIPLE OUTPUT SWITCHING POWER SUPPLY

Features:

- Short circuit, overload, and overvoltage protection
- Cooling by free air convection
- 100% full load burn-in test
- Compliance to EN55022 Class B and EN61000-3-2

RoHS Compliant

Single Output

For quantities greater than listed, call for quote.

MEAN WELL Open Frame Switching Power Supplies

MEAN WELL 30-60W SINGLE OUTPUT LED POWER SUPPLY WITH PFC FUNCTION

Features:

- Short circuit, Overload, and Overvoltage protection
- Suitable for LED lighting and moving sign applications
- No minimum load requirement
- Built-in active PFC function
- Cooling by free air convection

Specifications:

- Universal Input: 90-264VAC
- AC Input Frequency: 47-63Hz

For quantities greater than listed, call for quote.

MEAN WELL 60-100W DUAL OUTPUT WITH BATTERY CHARGER (UPS FUNCTION) POWER SUPPLY

Features:

- Short circuit, Overload, and Overvoltage protection
- Battery low protections / Battery polarity protection by fuse
- Cooling by free air convection

Specifications:

- Universal Input: 90-264VAC
- AC Input Frequency: 47-63Hz

For quantities greater than listed, call for quote.

MEAN WELL 30-45W DC-DC SINGLE OUTPUT SWITCHING POWER SUPPLY

Features:

- 2:1 wide input range
- Short circuit, Overload, Overvoltage, Polarity protection
- Built-in EMI filter, low ripple noise
- 100% full load burn-in test

For quantities greater than listed, call for quote.

MEAN WELL 35-75W SINGLE OUTPUT SWITCHING POWER SUPPLY

Features:

- Universal AC input/Full range
- Protections: Short circuit/Overload/Overvoltage/ Battery polarity protections (by use)
- LED indicator for power on
- No load power consumption <0.75W

For quantities greater than listed, call for quote.

MEAN WELL 30W-120W SINGLE OUTPUT MEDICAL SWITCHING POWER SUPPLY

RoHS Compliant

Features:

- Short circuit, overload, and overvoltage protection
- Compliance to EN55011 Class B, EN61000-3-2 and EN60601-1-2 Medical level

For quantities greater than listed, call for quote.

MEAN WELL Switching Power Supplies

MEAN WELL 50W-100W SINGLE OUTPUT SWITCHING POWER SUPPLIES

Specifications:
- Universal Input 50W-75W: 90~264VAC
  100W: 88~132VAC/176~264VAC by switch
- AC Input Frequency: 47~63Hz

Features:
- Short circuit, overload, and overvoltage protection
- Cooling by free air convection

RoHS Compliant

For quantities greater than listed, call for quote.

MEAN WELL 100W-150W SINGLE OUTPUT SWITCHING POWER SUPPLIES

Specifications:
- Universal Input 100W-150W; 85~264VAC
- AC Input Frequency: 47~63Hz

Features:
- Built-in active PFC function
- Short circuit, overload, and overvoltage protection
- Cooling by free air convection
- Fixed switching frequency at PFC:67KHz PWM:134KHz

RoHS Compliant

For quantities greater than listed, call for quote.

MEAN WELL 5W-20W SINGLE OUTPUT MEDICAL SWITCHING POWER SUPPLY

Features:
- Short circuit, overload, overtemperature and overvoltage protection
- Cooling by free air convection
- 100% full load burn-in test
- Compliance to UL60601-1/IEC60601-1/EN60601-1 medical safety approved
- 5W-15W: No load power consumption <0.5W
- 20W: No load power consumption <0.75W

Specifications:
- Universal Input: 85~264VAC
- AC Input Frequency: 47~440Hz

RoHS Compliant

For quantities greater than listed, call for quote.

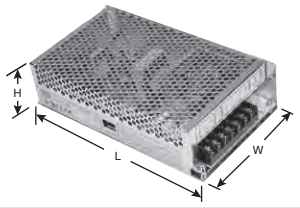
MEAN WELL Switching Power Supplies

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: mm



NEW GENERATION 15W-150W MULTIPLE OUTPUT SWITCHING POWER SUPPLY

Features:

- Protection: Short circuit, Overload, Over voltage
- Cooling by free air convection
- LED indicator for power on
- Withstands 300VAC surge input for 5 second
- Withstands 5G vibration test

Specifications:

- Universal Input: 35W-85W: 88-264VAC
  125W: 88-132VAC/176-264VAC selected by switch
- AC Input Frequency: 47-63Hz

Single Output

For quantities greater than listed, call for quote.

PHIHONG Switching Power Supplies

PHIHONG PSA15LN 15 WATT SINGLE OUTPUT SERIES

Specifications:
- AC input voltage: 90-264VAC
- AC Input Frequency: 47-63Hz
- Mating Connector
  AC: 538-09-50-7051
  DC: 538-09-50-7021
  Crimp Pin: 538-08-52-0072

Features:
- Low 1" profile
- CISPR 22B; FCC B EMI
- Voltage Adjustment: ±5%

RoHS Compliant

For quantities greater than listed, call for quote.

INSPIRING INNOVATIONS

A

TRIO POWER

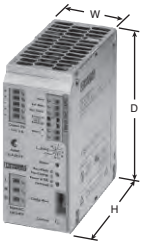
Features:
- Primary Switched Mode
- High MTBF: over 500,000 hours
- Built in LED diagnostic indication
- Compact space-saving design
- Universal voltage input
- Steel Housing
- U/I Overload Protection
- Built-in Transient surge protection
- Cable Tie wrap holder
- Three DC grounding terminals

c UL us LISTED

B

TRIO-UPS

Features:
- Power supply and UPS in one package
  -24V DC/5A output
- Selectable back-up time
- Adjustable output
  -22.5-29.5V DC
- Programming and diagnostics software
  -Configuration stick for offline programming
  -Selectable alarm set-points
  -Selectable delay and hold-up times
  -Real-time status monitoring
- Remote diagnostics



C

Step-Power

Features:
- Worldwide input voltage range:
  85-264V AC
  95-250V DC
- Efficiency:
  Only 0.4W consumption idling
  (12V/1A)
  Only 0.4W consumption idling
  (12V/1.5A)
  Only 0.3W consumption idling
  (24V/0.5A)
- Local diagnostics:
  Indication of the DC output status

D

STEP POWER Gen2

Features:
- Voltage vs Current Output
- Over/Under Voltage Correction
- Integrated Din or Panel Mounting
- Primary Switched Mode
- Universal voltage input
- MTBF: Over 150,000 hours
- Connect in parallel for redundancy and capacity

c UL us LISTED

E

MINI POWER

Features:
- Primary Switched Mode
- Universal voltage input
- Narrow mounting width
- Electronic overload protection
- Compact space-saving design
- Dual Output
- POWER BOOST output up to 100%
- High MTBF: over 500,000 hours
- Green Polyamide PA Housing
- Rapid Pluggable Terminals
- Can connect in parallel and series

PHOENIX CONTACT Industrial Power Supplies

PHOENIX CONTACT
INSPIRING INNOVATIONS

A

QUINT SFB

Features:
- Quint SFB (3rd Gen) include many features of the Quint Power and several additional including SFB (Selective Fuse Breaking) technology and additional function monitoring
- SFB Technology - produces 6 times the nominal current for 12ms

B

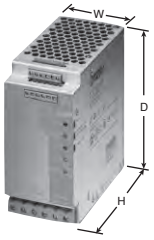
QUINT POWER

Features:
- Primary Switched Mode
- Universal voltage input
- Electronic overload protection
- Compact space-saving design
- Adjustable output voltage
- Can connect in parallel and series
- POWER BOOST output up to 50%
- High MTBF: over 500,000 hours
- DC OK LED
- DC OK Signal Output
- DC OK Dry Contact
- Rapid Pluggable Terminals
- Metal AluNox Housing

C

QUINT DC-DC CONVERTER

Features:
- Converts 18V-32V DC into a controlled and stable 24V Supply
- Input and Output are electrically isolated
- Used to convert a non-regulated DC voltage into a regulated voltage



D

QUINT UPS-IQ

Features:
- Provides charging state, remaining runtime and service life of rechargeable battery at all times

E

QUINT UPS

Features:
- Provides Battery Backup to Quint SFB and Quint Power systems
- Can be used with external batteries listed below
- Mounts on Standard din rail
- Low current consumption during charging process

F

QUINT DIODE

Features:
- Uniform redundancy
- Made of extruded aluminum for improved cooling and longer service life
- UL 508 listing
- Class I, Division 2 listing

MBC250 250W MEDICAL OPEN FRAME POWER SUPPLY

Features:
• Universal AC input voltage range: 90-264 VAC • High efficiency up to 90% at 230Vac full load • Medical 3rd Edition. Meets MOOP & MOPP

For quantities greater than listed, call for quote.

FRONT END POWER SUPPLIES

• Ideal server from factor optimizes space, efficiency, and load variations
• Overtemperature, overload, and overvoltage protection
• Compact Size enables mounting in both 1u an 2u height
• 2 Speed fab for low noise at low ambient temperature
• 12 Interface status and monitoring

AC-DC Power Supply

• High Efficiency • Input Voltage: 90-264VAC with PFC • Input Frequency: 47-63Hz • Status LEDs

For quantities greater than listed, call for quote.

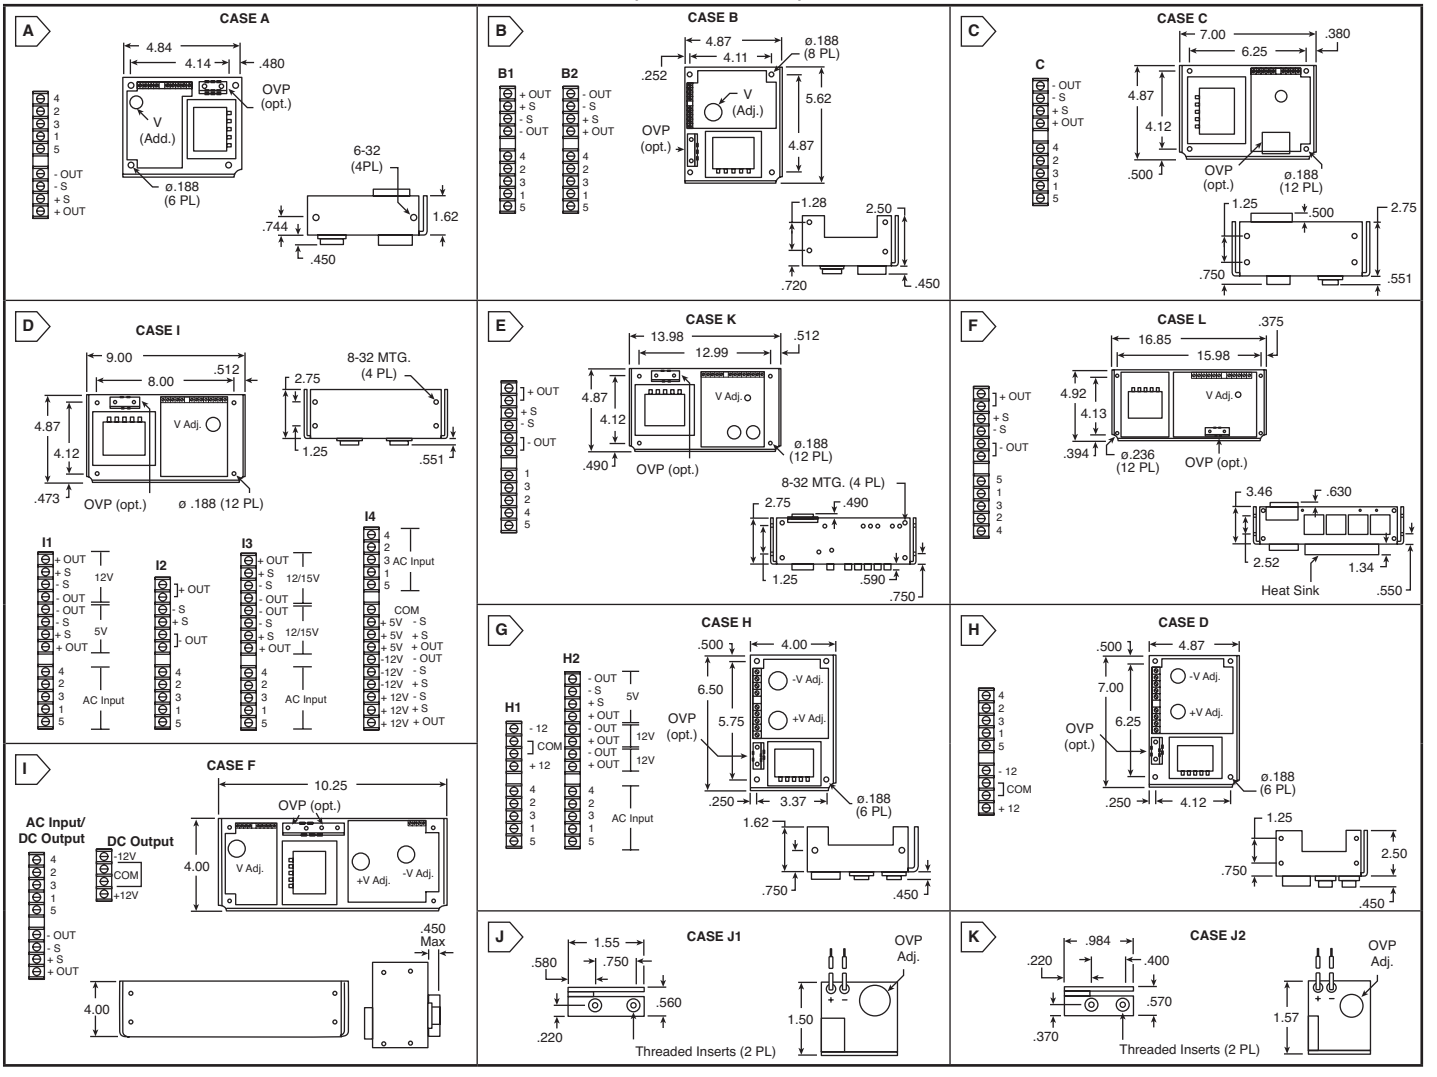
SOLAHD Linear Power Supplies

SOLAHD

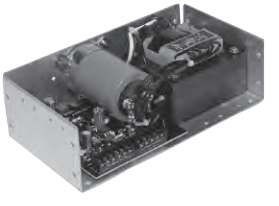
RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: in.



SOLAHD SILVER LINE SERIES - SINGLE & MULTI-OUTPUT LINEARS

The Silver Line series follows the industry accepted foot-print for open frame, linear power supplies. SolaHD improves on this design by offering standard screw terminal connections and optional covers for safety considerations.



Features:

- Two Year Warranty
- Low Noise, Extremely Quiet DC Output
- Universal Input and Approvals (115/230VAC)
- For Noise Sensitive or Analog Circuitry
- Short Circuit Protected
- Built-in OVP on 5V Models and Optional on 12, 15, and 24V Models
- Easy-To-Install Screw Terminal Connections
- Automatic Resetting Overload Protection
- Industry Standard Footprint
- Fast Transient Response, Ideal for Test Applications

RoHS Compliant

✻with remote sensor (R.S)

SOLAHD DIN Rail Power Supplies

SOLAHD SDP™ LOW POWER DIN RAIL SERIES

Compact DIN Rail power supplies from 5V to 48VDC and power ratings up to 100 watts.
These compact and efficient units are designed specifically for the industrial environment.

UL 1950 E137632
CUL/CSA-C22.2 No. 234-M90
EMC and Low Volt. Directive
UL 508 Listed IND. CONT. EQ. 9HAO, E61379
RoHS Compliant

Features:

- Operational temp range: -10°C to 70°C
- Ultra Slim 15W footprint
- No tools required for mounting
- Adjustable outputs
- PowerBoost™ industrial overload design
- Overvoltage, short circuit protection
- Continuous short circuit protection
- Low output noise
- Screw terminal connections
- Simple snap-on for DIN TS35/7.5 or TS35/15 rail system
- Three year warranty
- Dimensions: All units 2.95" x 1.77" x 3.58", except: SDP06-24-100T: 2.95" x 0.9" x 3.8"; SDP4-24-100LT: 2.95" x 2.85" x 3.8"
- Green LED DC "OK" indicator

For quantities greater than listed, call for quote.

SOLAHD SDN-C COMPACT DIN RAIL SERIES

The SDN-C DIN rail power supplies are the next generation of the popular SDN series. These models combine high efficiency and compact size with new visual diagnostic LEDs to offer the most performance available from SolaHD. Sag immunity, Power Factor Correction and parallel operation capability make this series suitable to a variety of industrial applications.

UL 60950 E137632 CUL/CSA-C22.2 No. 234-M90
UL 508 Listed IND. CONT. EQ. E61379
EMC and Low Volt. Directive
Atex Directive

PRODUCT NEW

Features:

- Compact packaging saves DIN rail space
- Visual diagnostic LEDs monitor input and output
- 85-264VAC input, 50/60Hz
- Power Factor Correction meets EN61000-3-2
- Adjustable output voltage
- Parallel capability standard
- Operating temperature range: -25°C - 60°C

For quantities greater than listed, call for quote.

SOLAHD SDN-P DIN RAIL SERIES

The SDN Din Rail power supplies provide industry leading performance. Sag immunity, transient suppression and noise tolerant, the SDN Series ensures compatibility in demanding applications. Power factor correction to meet European directive, hazardous location approvals and optional redundant accessories allow the SDN Series to be used in a wide variety of applications. Wide operation temperature range, high tolerance to shock and vibration and reliable design make the SDN Series the definition of DC power quality.

UL 1950 E137632
CUL/CSA-C22.2 No. 234-M90
UL 508 Listed IND. CONT. EQ. 9HAO, E61379
EMC and Low Volt. Directive
Atex Directive

Features:

- Operational temp range: -10°C - 60°C
- Frequency: 47-63Hz
- Dimensions: 4.88" (H) x 4.55" (D)
- Power factor correction
- Improved metal mounting clip
- Single phase models meet SEMI F47 Sag Immunity
- Green LED and DC OK signal
- Adjustable voltage
- Parallel capability standard on all units
- Highly efficient >90% switching technology
- High MTBF and reliability
- Five year warranty
- User-friendly front panel - screw terminals - easy installation
- Industrial grade design:
  - Rugged metal case and DIN connector
  - Powers high inrush loads without shutdown
- Narrow width on rail for space critical applications

For quantities greater than listed, call for quote.

SOLAHD DIN Rail Power Supplies

RoHS Compliant **This product is RoHS compliant.**

SOLAHD SCP SERIES, 30 WATT SWITCHERS: SINGLE, DUAL AND TRIPLE

These switchers are compact, rugged encapsulated power supplies designed to power many industrial control and instrumentation devices and equipment, with high reliability and tight regulation.

Features:

- Input Voltage: 85-264VAC 100-375VDC
- International approvals for global use
- DIN Rail or Chassis Mount
- Rugged, encapsulated design to resist environment
- IP20 protection
- Five year warranty
- Available in Low Profile or Slim Line packages

Packaging and Mounting Specifications:

- Simple snap-on for DIN Rail TS35/7.5 or TS35/15
- M3 screw clamp terminations
- Chassis mounting possible on -DN Low-Profile versions by removing DIN clips

RoHS Compliant

Slim Line Low Profile

UL 1950 E137632

SOLAHD SCD SERIES, ENCAPSULATED INDUSTRIAL DC-DC CONVERTERS

These DC to DC converters are compact, rugged power supplies designed to power industrial control instrumentation devices and equipment where AC power is not convenient or accessible.

Features:

- DIN Rail or Chassis Mount by removing DIN clips
- Rugged, encapsulated design to resist environment
- IP20 protection
- Wide input range: 20-72VDC
- M3 screw clamp terminations
- Simple snap-on for DIN rail TS35/7.5 or TS 35/15
- Five year warranty
- Dimensions: 4.71"(H) x 2.55"(W) x 1.29"(D)

TDK-LAMBDA Medical AC-DC Power Supplies

TDK·Lambda

KM SERIES 15-40W MEDICAL AC-DC PCB MOUNT POWER SUPPLIES

- AC Input voltage: 90-264VAC, ✻ 200-265VAC
- AC Input frequency: 47-440Hz
- PC Board Mountable
- Medical Safety Certification (4kVAC Input - Output)
- Class II (No ground needed)

For quantities greater than listed, call for quote.

EFE300M SERIES 300W MEDICAL POWER SUPPLIES

- Medical Safety Certifications (BF Rated)
- Fully Featured - including ORing FET
- Universal Input (90 - 264VAC)
- Peak Loading (10s)
- Suitable for 1U applications
- Full Digital Control
- High Efficiency
- Low Profile
- Reinforced Isolation (4kVAC input to output)
- Safety Agency Approvals:
  IEC/UL/EN/CSA22.2 60601-1
  IEC/EN 61010-1
  IEC/UL/EN/CSA22.2 No 60950-1
  CE for LVD

For quantities greater than listed, call for quote.

LZSA SERIES 500-1500W SINGLE OUTPUT INDUSTRIAL POWER SUPPLIES

- -40°C to +71°C Operation
- MIL-STD-810E Vibration/Shock
- Input transient protected
- UL508, SEMIF47, Factory Mutual (Class 1, Division 2)
- Rugged mechanical design with coating on pcbs
- Input Voltage: 85-265VAC, 47-440Hz

✻ Operates at 115VAC

For quantities greater than listed, call for quote.

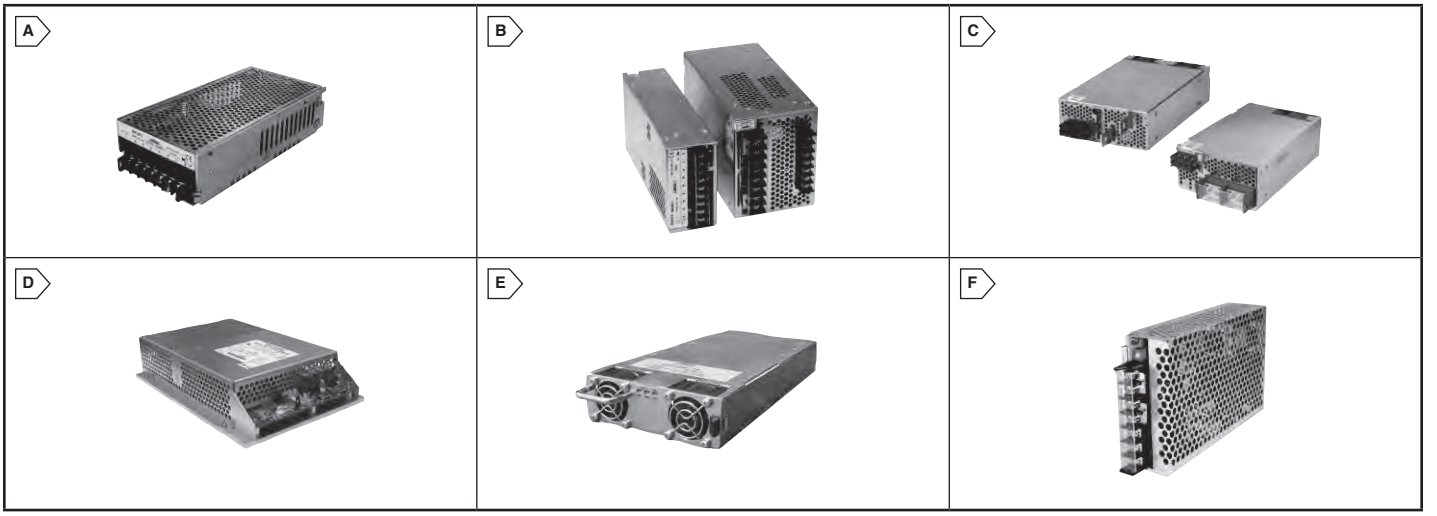
TDK-LAMBDA Power Supplies

TDK·Lambda



SWS SERIES 50W-100W SINGLE OUTPUT GENERAL PURPOSE POWER SUPPLIES

PRODUCT NEW

- Power Factor Correction to EN61000-3-2
- Universal Input: (85-265VAC)
- Input Transient Protected IEC61000-4

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	TDK-Lambda Part No.	Fig.	Output Voltage	Max. Current	Max. Power	Price Each

SWS600/1000L SERIES 600W-1000W SINGLE OUTPUT LOW PROFILE POWER SUPPLIES

- Active Power Factor Correction
- Universal Input: 85-265VAC, 47-63Hz
- Input Transient Protected IEC61000-4
- Medical Certifications (SWS1000L)

For quantities greater than listed, call for quote.

CPFE1000F SERIES 720-1000W CONDUCTION COOLED POWER SUPPLIES

- Base plate cooled, no fan required
- MIL STD 461/462D CE102 EMC
- AC Input: 90-265VAC, 47-440Hz
- With cover and Protective Coating
- I²C Interface

For quantities greater than listed, call for quote.

Z+ SERIES 400W PROGRAMMABLE POWER SUPPLIES

- 2U high
- Built-in USB, RS-232 & RS-485 Interface
- Optional LAN, GPIB & Isolated Analog Programming
- Bench or Rack Mount
- Constant Current or Voltage Modes
- Five Year Warranty

NEW PRODUCT

✻ LAN Interface (Complies with "LXI" Class C)

For quantities greater than listed, call for quote.

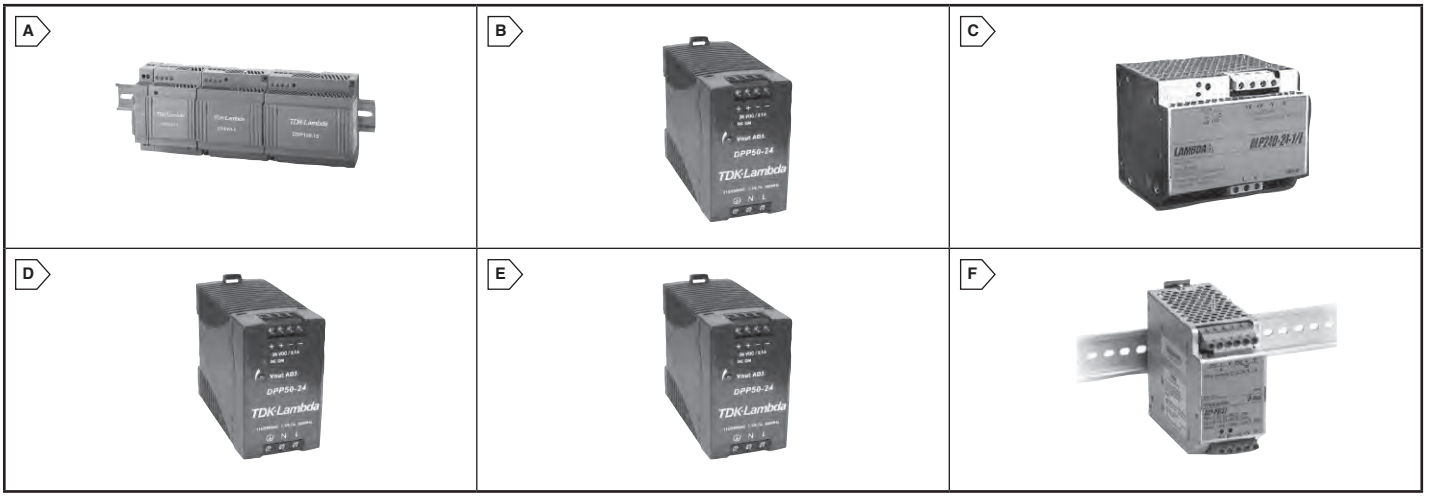
TDK-LAMBDA DIN Rail Mount Power Supplies



DSP SERIES 7.5-100W LOW PROFILE DIN RAIL MOUNT POWER SUPPLIES

- Low Profile for Building Automation
- AC Input: 90-264VAC
- Class II Double Insulation, No ground connection required
- -25°C to +71°C Operation
- Snap-on Mounting: snap onto DIN Rail TS35/7.5 or TS35/15

For quantities greater than listed, call for quote.

DPP120-960 SERIES 120-960W 3 PHASE DIN RAIL MOUNT POWER SUPPLIES

NEW PRODUCT

- AC Input: 340-575VAC, three phase
- Parallel Function Switch (240 & 480W)
- Current Share (960W)
- -40°C to +71°C Operation
- Snap-on Mounting: snap onto DIN Rail TS35/7.5 or TS35/15

For quantities greater than listed, call for quote.

DPP480 SERIES 480W SINGLE OUTPUT DIN RAIL MOUNT POWER SUPPLIES

- AC Input: 90-264VAC, single phase
- Active PFC
- Parallel Function Switch
- -40 to +71°C Operations
- Convection Cooled
- Snap-on Mounting: snap onto DIN Rail TS35/7.5 or TS35/15

For quantities greater than listed, call for quote.

PF SERIES RECTIFIER & POWER FACTOR CORRECTION MODULES

- Provides high voltage DC to Lambda's PH and PAF Power Modules
- Parallel operation
- Power Factor Corrected
- Operation up to 85°C
- AC Input: 85-265Vac, 47-63Hz

For quantities greater than listed, call for quote.

PFE300-1000 SERIES 300-1008W AC-DC POWER MODULE

- 100°C baseplate temperature
- High power density
- Suitable for conduction cooling
- Power Factor Corrected
- Input Voltage: 85-265VAC, 47-63Hz

For quantities greater than listed, call for quote.

ALD SERIES LED BACKLIGHTING DC-DC CONVERTERS

NEW PRODUCT

- Two to Five Strings
- DC Input: 10.8-13.2VDC
- Analog or Resistive Dimming
- Low Profile

For quantities greater than listed, call for quote.

AULT AC Adapters

RoHS Compliant **This product is RoHS compliant.**

AC INTERCHANGEABLE BLADE KIT

- For use w/ medical and commercial wall plug interchangeable

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Description	Price Each 1	10	25
831-KT1027K	Includes Europe, United Kingdom, Australian			

CENB1010 SERIES, 10-12W SINGLE OUTPUT

- 100-240 VAC Universal
- Meets EISA2007, CEC Efficiency Level V, EU (EC) No 278/2009 Phase II
- 5V to 48V Single Output Models, up to 12W
- No load Power Consumption <0.3W
- Limited Power Source

AC Input Cord	Description						
173-63101-E	7' 6" AC input cord, 3-wire input, 18AWG, Black						-

CENT1120 SERIES, 120W SINGLE OUTPUT

- 100-240VAC Universal Input
- IPX1 Compliant
- Complies with EMI/RFI Regulations
- Impact Resistant, Non-Vented Polycarbonate Enclosure
- 3 year warranty
- Meets ENERGY STAR Criteria level IV and EISA Requirements
- 2.5 Barrel Type Connector

✻ Output Connector=6 pinout Molex 39-01-2060

For quantities greater than listed, call for quote.

AULT Medical AC Adapters and Power Over Ethernet

RoHS Compliant **This product is RoHS compliant.**

MENB1050 SERIES, 30-50 WATTS, SINGLE OUTPUT

Features:
- 100-240VAC Universal Input
- 5V to 24V Single Output Models, up to 50W
- No load power consumption <0.3W
- Regulated Output with Low Ripple
- Impact-Resistant Polycarbonate Enclosure
- Meets EISA2007, CEC Efficiency Level V, EU (EC) No 278/2009 Phase II
- Certified to UL/EN/IEC60601-1
- Desktop models AC Input:
  N01 = IEC320-C8
  F01 = IEC320-C14

Standard and Medical Versions

For quantities greater than listed, call for quote.

MENB1060 SERIES, 35-65 WATTS, SINGLE OUTPUT

Features:
- 100-240VAC Universal Input
- 5V to 24V Single Output Models, up to 60W
- Regulated Output with Low Ripple
- Impact-Resistant Polycarbonate Enclosure
- No Load Power Consumption <0.5W
- Meets EISA2007, CEC Efficiency Level V, EU (EC) No 278/2009 Phase II
- Certified to UL/EN/IEC60601-1

TRG21 SERIES, 20W SWITCHING ADAPTER

Features:
- Universal Input Range 90-264VAC
- Efficiency to 85%
- Meets CEC & ErP Level V
- Input Frequency: 47 to 63Hz
- Straight Output Plug and Other DC Output Connectors Available, contact a Mouser Representative
- Isolation: Input to Output=5.656VDC
- AC Inlet: IEC320/C8
- Dimensions (mm): 3.00(76.20)L x 1.780(45.20)W x 0.87(22.10)H

For quantities greater than listed, call for quote.

AC Input Cord							
552-AC15WNA-R	6 ft. 2-wire AC Cord - US version					-	

TR60M SERIES, 60W MEDICAL SWITCHING ADAPTER

Features:
- Universal Input Range 90-264VAC
- Meets EN60601-1 and EN55011 Class B
- Efficiency & Standby Power Meet Level V
- Frequency: 47 to 63Hz
- Conduced EMI: CISPR/FCC Class B
- AC Inlet: IEC320/C8
- Dimensions (mm): 5.197(132.0)L x 2.28(58.0)W x 1.20(30.5)H

For quantities greater than listed, call for quote.

TR30M SERIES, 30W MEDICAL SWITCHING ADAPTER

Features:
- Universal Input: 90-264Vac
- Meets EN60601-1 and EN55011 Class B
- Meets CEC and ErP level V
- Input Frequency: 47 to 63Hz
- AC Inlet: IEC320/C8
- Dimensions (mm): 4.33(110.0)L x 1.96(50.0)W x 1.18(30.0)H

For quantities greater than listed, call for quote.

TRG70 SERIES, 70W SWITCHING ADAPTER

Features:
- Universal Input Range 90-264VAC
- Meets EN55022 Class "B" and CISPR/FCC Class B
- Meets CEC & ErP Level V
- Right Angle Output Plug and Other DC Output Connectors Available, contact a Mouser Representative
- Input Frequency: 50 to 60Hz
- AC Inlet: IEC320/C14
- Dimensions (mm): 5.197(132.0)L x 2.28(58.0)W x 1.20(30.5)H

For quantities greater than listed, call for quote.

TRG36 SERIES, 36W SWITCHING ADAPTER

Features:
- Universal Input Range 90-264VAC
- Meets EN55022 Class "B" and CISPR/FCC Class B
- Meets CEC & ErP Level V
- Right Angle Output Plug and Other DC Output Connectors Available, contact a Mouser Representative
- Input Frequency: 50 to 60Hz
- Isolation: Input to Output=4,242VDC
- AC Inlet: IEC320/C8
- Dimensions (mm): 4.33(110.0)L x 1.96(50.0)W x 0.78(20.0)H

For quantities greater than listed, call for quote.

TRG100A SERIES, 100W SWITCHING ADAPTER WITH PFC

Features:
- Universal Input Range 90-264VAC
- Meets EN55022 Class B and CISPR/FCC Class B
- Meets CEC & ErP Level V
- Right Angle Output Plug and Other DC Output Connectors Available, contact a Mouser Representative
- Input Frequency: 47 to 63Hz
- AC Inlet: IEC320/C14
- Dimensions (mm): 5.906(150.0)L x 2.756(70.0)W x 1.378(35.0)H

For quantities greater than listed, call for quote.

TRG150A SERIES, 150W SWITCHING ADAPTER WITH PFC

Features:
- Universal Input Range: 90-264VAC
- Active PFC Meets EN61000-3-2
- Conductive EMI Meets CISPR/FCC Class B
- Meet CEC & ErP Level V
- Frequency : 47 to 63Hz
- Conducted EMI: CISPR/FCC Class B
- AC Inlet: IEC 320/C14
- Dimensions (mm): 7.087(180.0)L x 2.91(74.0)W x 0.138(3.5)H

For quantities greater than listed, call for quote.

EMERSON NETWORK POWER Switching AC Adapters

EMERSON Network Power

RoHS Compliant **This product is RoHS compliant.**

ASTEC DCH3 SERIES, 3W SINGLE OUTPUT

Specifications:
- USB Switching wallmount power supply
- Universal AC Input
- Available in multiple AC plug configurations
- Regulated output
- Overload and short circuit protection
- Constant voltage, constant current
- Efficiency Level V
- Built in EMI filter (CISPR 2 Class B)
- Mini USB 2.0 dc output plug - 0005
- Micro USB 2.0 dc output plug - 0006

For quantities greater than listed, call for quote.

PHIHONG 14-52W DC-DC POWER OVER ETHERNET SPLITTERS

NEW PRODUCT

Phihong's low-cost splitters are designed to use with non-POE ready devices dividing POE into separate Data via Ethernet and Power via DC cable. DC voltage is stepped down for a conventional DC jack socket.

Specifications:

- PoE Input

✻ Output connector: 2.5x5.5mm, center positive † DC Output Connector: 2.1x5.5mm, center positive

For quantities greater than listed, call for quote.

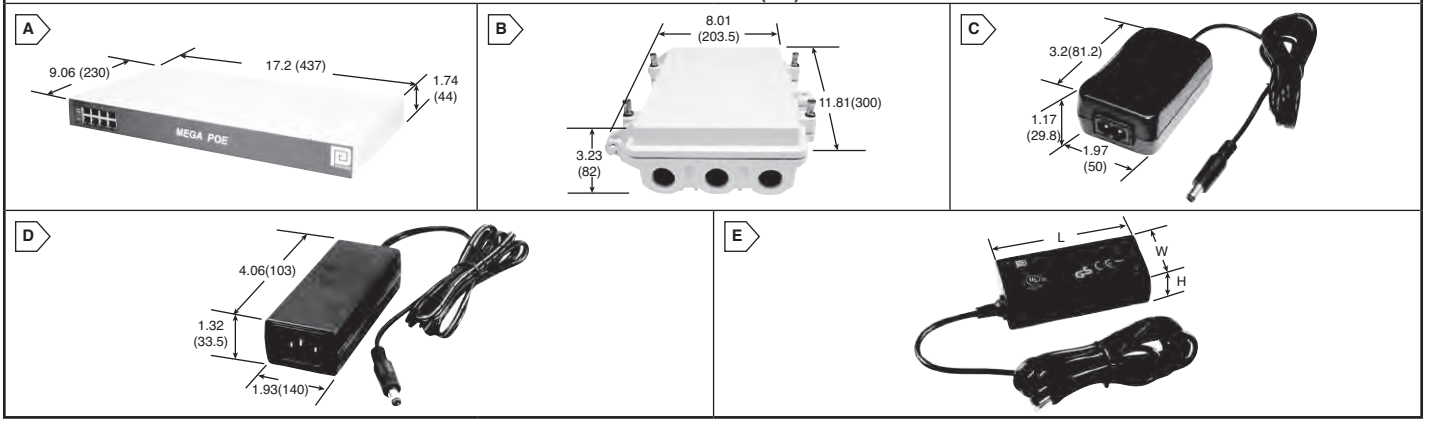
PHIHONG Power Over Ethernet and AC Adapters

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: in. (mm)



PHIHONG 4 PORTS 95 WATT PER PORT POWER OVER ETHERNET MIDSPAN

- 12.5K Detection Required for full power 95W per port
- 25K Detection Yields IEEE802.3at power 33.6W per port

For quantities greater than listed, call for quote.

PHIHONG OUTDOOR 33.6W DUAL PORT PASSIVE POWER OVER ETHERNET MIDSPAN

- 3 pin terminal block with M3.5 screw terminal
- For external security cameras and wireless access point
- Efficiency: 70% min. avg.
- Waterproof IP67 Rating
- SELV Compliant
- Gigabit Compatible

For quantities greater than listed, call for quote.

PHIHONG AC Adapters and Power Supply Cords

RoHS Compliant This page of product is compliant.

PHIHONG PSAC30U 20-30 WATT 3-WIRE INPUT SINGLE OUTPUT ADAPTER

RoHS Compliant

Specifications:
- AC Input Voltage: 90-264VAC
- AC frequency: 47-63Hz
- Efficiency: 78.6% min. at 5V, 83.5% min at 12V, 24V and 56V
- Dimensions: in(mm) 4.07(103.4) L x 1.65(42)W x 1.13(28.7)H
- Output Connector: 2.1x5.5mm, center positive
- 5 foot DC cord included

Features:
- Class B EMI
- Ecodesign ErP Directive Complaint
- EISA Level V Compliant

For quantities greater than listed, call for quote.

PHIHONG PSM36W 36 WATT 2-WIRE INPUT SINGLE OUTPUT ADAPTER

RoHS Compliant

Specifications:
- AC Input Voltage: 89-270VAC
- AC Input Frequency: 47-63Hz
- Output Connector: 2.1x5.5mm, center positive
- Dimensions: 4.72(120)L x 1.98(50)W x 1.27(31.5)H
- 3 foot DC cord included
- Efficiency: 85% min.

Features:
- Ecodesign ErP Directive Complaint
- Class B EMI
- EISA Level V Compliant
- Energy Star EPS2.0 Compliance

For quantities greater than listed, call for quote.

PHIHONG PSA45U 38 WATT MULTIPLE OUTPUT ADAPTERS

RoHS Compliant

Specifications:
- AC input voltage: 90-264VAC
- AC frequency: 47-63Hz
- Efficiency: 70% typical
- Output Connector: 5P DIN

Features:
- Built-in EMI filter Class B
- Compact size
- 6 foot DC cord included
- Over voltage and short circuit protection

For quantities greater than listed, call for quote.

PHIHONG 60 WATT UNIVERSAL INPUT SINGLE OUTPUT ADAPTERS

RoHS Compliant

Specifications:
- AC input voltage: 90-264VAC
- AC frequency: 47-63Hz
- Efficiency: 85% min. average
- Output connector: 2.1x5.5mm, center positive
- Dimensions: in.(mm), 5.12(130) L x 2.36(60)W x 1.3(32)H

Features:
- EISA Level V Compliant
- Class B EMI
- Non-vented/spill-proof case
- No load power consumption <0.5W
- 4 foot DC cord included

For quantities greater than listed, call for quote.

FN350 SERIES, SINGLE-PHASE EMC/RFI FILTER FOR MOTOR DRIVERS

Features:
- Compact filter solution for single-phase motor drive applications
- Industrial grade safety terminal blocks
- Designed to meet EN55011/14/22
- Compliant with IEC60950

RoHS Compliant

For quantities greater than listed, call for quote.

FN2010 SERIES, SINGLE STAGE FILTERS

Features:
- Current ratings from 1 to 30A
- General-purpose filtering performance
- Maximum operating voltage: 250VAC 50/60Hz
- Optional medical versions available - contact a Mouser Representative

RoHS Compliant

For quantities greater than listed, call for quote.

FN2060 AND FN2070 SERIES, MULTI-STAGE FILTERS

Features:
- FN2060 current ratings from 1 to 30A
- FN2070 current ratings from 1 to 36A
- High differential and common mode attenuation
- Maximum operating voltage: 250VAC 50/60Hz
- Optional medical versions available - contact a Mouser Representative

RoHS Compliant

For quantities greater than listed, call for quote.

FN2200 SERIES, DC EMC/EMI POWER LINE FILTER

Specifications:

- Protection category: IP20 (25 to 150A types)
- Maximum continuous operating voltage: Max. 1200VDC
- Most compact standard solution in the industry, optionally available without capacitors to ground (B types)

For quantities greater than listed, call for quote.

FN2410 AND FN2412 SERIES, SINGLE AND TWO-PHASE EMC/RFI FILTERS

Specifications:

- FN2410 filters are designed for chassis mounting
- FN2412 filters can be snapped into TS 35 DIN rails
- "H" versions are ideally suitable for an operation on two phases in a three-phase power network
- Excellent filter performance for applications with high interference levels
- Maximum continuous operating voltage: FN2410/FN2412: 1 x 250VAC
- Maximum leakage current: 3.4mA @ 230VAC/50Hz

For quantities greater than listed, call for quote.

FN258 SERIES BOOK STYLE, 3-PHASE FILTERS

FN256 SERIES Features:

- 8A to 160A @ 50°C current ratings
- High attenuation
- Low leakage current
- Compact dimensions
- Maximum operating voltage: 3x 480/277VAC

FN258 SERIES Features:

- 7A to 250A current ratings @ 50°C
- Slim book-style housing
- Designed for long cable lengths
- Maximum operating voltage: 3x 450/277VAC

For quantities greater than listed, call for quote.

VANADIUM PENTOXIDE LITHIUM 3V RECHARGEABLE BATTERIES

Compact, high energy batteries that have nearly twice the energy of conventional button-shaped NiCd batteries.

- Operating temperature range: -20°C ~ +60°C
- Self-discharge per year: 2%
- Charge voltage: 3.25V ~ 3.55V
- Charge-discharge cycles: 1000

For quantities greater than listed, call for quote.

BULGIN PC/BASE MOUNT BATTERY HOLDERS

RoHS Compliant

Features:
- Terminations: Dual connections, P.C. spills and 2.8 series tabs/solder tags (P.C. spills may be removed if required)
- Operating Temperature: -30°C to +70°C
- Mouldings: Glass Filled Nylon
- Contacts: Nickel Silver, clean
- Interlocking for multiple assemblies, except for model 122-BX0033 and 122-BX0123

For quantities greater than listed, call for quote.

EAGLE PLASTIC DEVICES Battery Holders

RoHS Compliant **This product is RoHS compliant.**

Battery holders are constructed using an "unbreakable" type plastic.
Nickel-plated hardware provides excellent corrosion resistance from battery acid.

MINI BATTERY SNAPS AND RIVETS

- Standard 9 volt size (.5" snap spacing)
- Available with 4, 5 or 6 prong contacts
- Black (except where noted)
- Available in 22AWG, 24AWG, and 26AWG stranded lead wires
- Male snap: .225" (O.D.)
- Female snap: .205" (I.D.)
- Rivets can be applied to PC boards, battery holders/packs, etc.

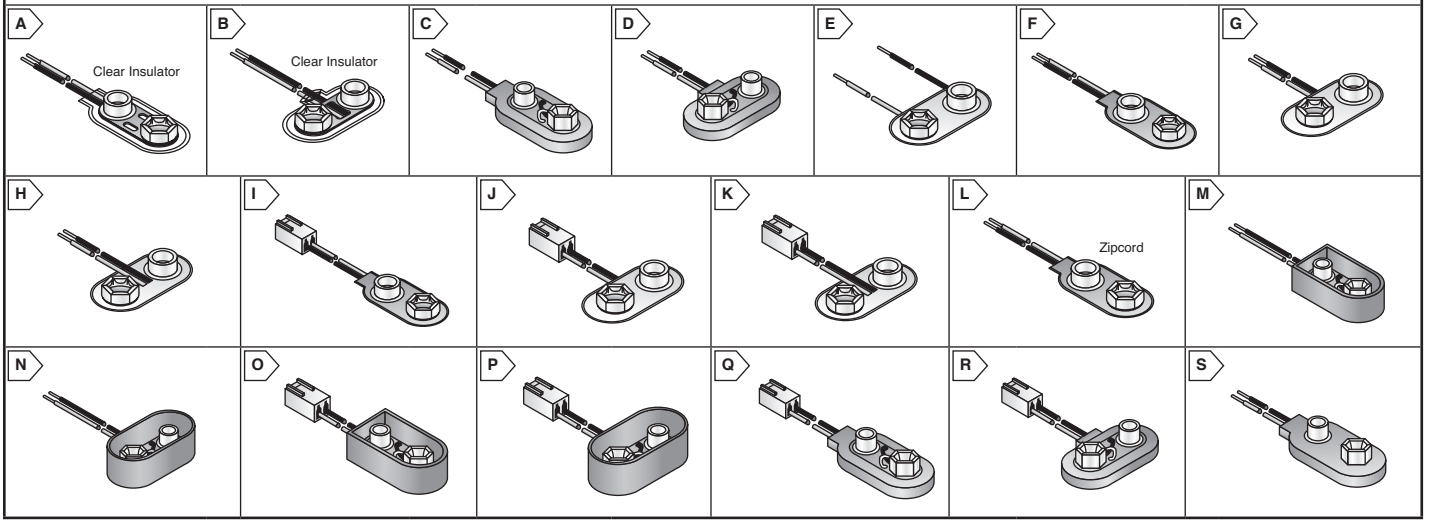
EAGLE PLASTIC DEVICES 9V Battery Snaps

RoHS Compliant **This product is RoHS compliant.**

Largest selection of battery snaps available. All leads are stripped and pre-tinned. Leads are polarity color coded. All except "molded" type, feature PVC plastic insulation over a base of vulcanized fiber board.



STANDARD BATTERY SNAPS

MURATA POWER SOLUTIONS Digital Panel Meters

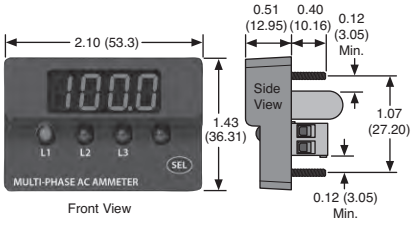
RoHS Compliant This product is RoHS compliant.

DATEL 4 DIGIT FOUR-FUNCTION THREE PHASE AC POWER METERS

NEW PRODUCT

Features:
- Display: 4 Digit LED, 9.14mm (0.36in) high
- Two display modes: continuous auto cycling or fixed
- Built-in current transformers simplify installation; choice of 32A or 100A ranges

DIMENSIONS: in. (mm)



Front View

RoHS Compliant

For quantities greater than listed, call for quote.

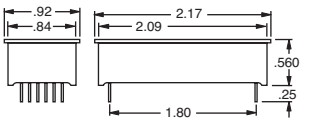
DATEL 3.5 DIGIT LOW-POWER MINIATURE LED PANEL VOLTMETERS

Features:
- Large 0.56"/14.2mm LED display
- 12-pin DIP packages, panel or board mountable
- Moisture/vibration resistant encapsulated packages
- Single +5V power supply (60mW for low-power models)
- Auto-calibration, ±1 count accuracy

DIMENSIONS: in.



RoHS Compliant

For quantities greater than listed, call for quote.

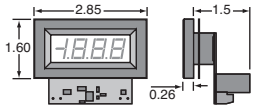
Murata Power Solutions

DATEL 3.5 DIGIT DAYLIGHT READABLE VOLTMETERS WITH AUTO-DIMMING LED DISPLAY

DIMENSIONS: in.



Features:
- Moisture and impact resistant package
- Large 0.56"/14.2mm high red LED display
- Daylight-readable w/automatic brightness adj.
- Input circuit fully isolated from ac power supply

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Datel Part No.	Input Max.	Power Supply	Price Each 1	Price Each 5
DC Voltmeter

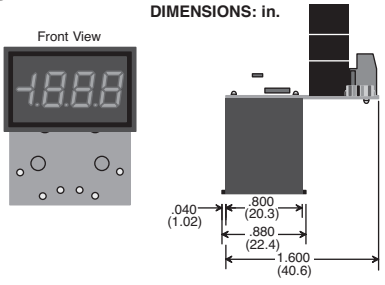
DATEL 3.5 DIGIT LED TRUE-RMS AC VOLTMETERS WITH ISOLATED INPUTS

DIMENSIONS: in.



Features:
- Measures the rms value of complex ac voltages
- Two operating-supply options: 85-264VAC, or +10-40VDC
- Input circuit fully isolated from operating power supply
- 47-1kHz input frequency range
- Large, easy-to-read, red LED display is visible from 12 feet

For quantities greater than listed, call for quote.

MOUSER STOCK NO.	Datel Part No.	Input Voltage	Power Supply	Price Each 1	Price Each 5

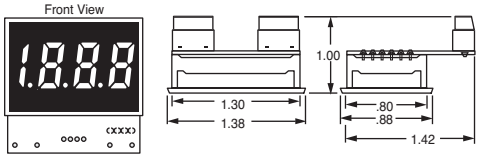
DATEL 3.5 DIGIT LED SUBMINIATURE DC AMMETERS

DIMENSIONS: in.

Features:
- 0.37"/9.4mm 3 1/2-digit display
- Scales and displays the output of 5A to 2000A 50MV and 100MV shunts
- Wide power supply inputs - 5-40VDC, non-isolated power
- Factory calibrated to ±0.1% accuracy



✻Power Supply: +8-36VDC, isolated power

For quantities greater than listed, call for quote.

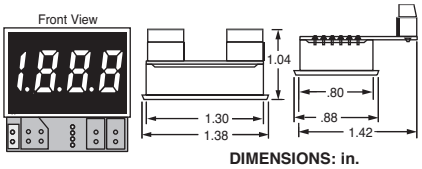
DATEL 3.5 DIGIT LED SUBMINIATURE DC AMMETERS WITH BUILT-IN SHUNTS

Features:
- Large 0.37"/9.4mm LED display
- Functionally complete - no additional components required
- Wide power supply inputs - 5-40VDC
- 20mV internal shunt minimizes power loss
- Factory calibrated to ±0.1% accuracy



DIMENSIONS: in.

For quantities greater than listed, call for quote.

MURATA POWER SOLUTIONS Digital Panel Meters

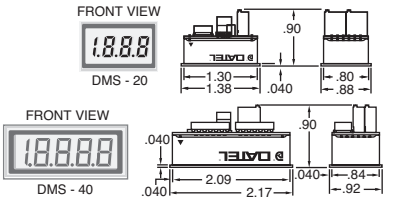
RoHS Compliant This product is RoHS compliant.

DATEL LOOP-POWERED 4-20MA PROCESS MONITORS

Features:
- Self-powered, no separate supply required
- Industry's first loop powered, full-size LED readouts
- 3 1/2 and 4 1/2 digit resolutions LED/LCD displays
- DIP-switch selectable range/decimal points
- Non-interacting gain(span) and offset(zero) 20-turn potentiometers

RoHS Compliant

DIMENSIONS: in.



For quantities greater than listed, call for quote.

DATEL LOCALLY POWERED 4-20 MA LED PROCESS MONITOR

Features:
- +24V isolated power supply required
- 3 1/2 and 4 1/2 digit resolutions red LED displays
- DIP-switch selectable range/offset/decimal points
- On-board gain/span and zero/offset trim pots

RoHS Compliant

BK PRECISION BENCH MULTIMETERS

4 1/2 Digit True RMS Bench Digital Multimeter

The 2831E takes typical multimeter measurements such as volts, ohms, and amps with great accuracy and stability and was designed for cost conscious users requiring a basic and dependable meter with a broad range of extra features offered at a value price.

Features:
- True RMS for accurate interpretation of any waveform signal
- Great overload protection on all ranges
- Current measurements up to 20A AC/DC
- 0.03% basic VDC accuracy
- Dual VFD Display
- AC + DC True RMS
- USB interface
- SCPI compatible

MOUSER STOCK NO.	BK Precision Part No.	Description	Price Each
615-2831E	2831E	True RMS Bench Digital Multimeter	

5 1/2 Digit Dual Display Bench DMM with 0.012% Basic Accuracy

Applications:
The Dual Display Multimeter model 5491/5492 is a 5 1/2 digit multimeters with selectable count resolutions up to 120,000 count. It is designed for bench-top, field service, and system applications with a high performance to price ratio. One set of TL 36 Test Leads and AC 01 caps for TL 36 are included with each 5492.

Features:
- Selectable count resolutions of 120,000, 40,000 and 4,000 count
- Selectable 2 wire and 4 wire resistance measurements
- Measure frequency to 1MHz with 0.01Hz best resolution
- RS-232 interface
- GPIB option available

BK PRECISION DUAL DISPLAY HANDHELD LCR METERS

Features:
- 40,000 count primary display and 10,000 count secondary display
- L/C/R/Z/ Primary measurements (Z with 879B)
- D/Q/θ/ESR Secondary measurements (θ/ESR with 879B)
- 0.5% basic accuracy
- Fast Auto Range design for rapid, easy component measurements
- Mini USB interface (cable included)

BK PRECISION Component Testers

BENCH LCR/ESR METER WITH COMPONENT TESTER

The B&K Precision Model 889B Synthesized In-Circuit LCR/ESR Meter is a high accuracy test instrument used for measuring inductors, capacitors and resistors with a basic accuracy of 0.2%. Also, with the built-in functions of DC/AC Voltage measurements and Diode/ Audible Continuity checks, the Model 889 can not only help engineers and students to understand the characteristic of electronics components but also being an essential tool on any service bench.

Features:
- Measurement parameters: Z, L, C, DCR, ESR, D, Q, ACV, DVC, ACA, DCA, and Ø
- Test conditions: 100Hz, 120Hz, 1kHz, 10kHz, 100kHz, 200kHz, 1Vrms, 0.25Vrms, 0.05Vrms
- 0.1% basic accuracy
- Dual LCD display
- Very quick response, user friendly
- Fully auto/manual selection
- DC resistance measurement
- USB interface

MOUSER STOCK NO.	BK Precision Part No.	Price Each
615-889B	889B	

LCR METER

Features:
- Measures capacitance, resistance, and inductance
- Measures dissipation factor of capacitor and 1/Q of inductors
- 3 1/2 digit LCD display
- Three year warranty

Specifications:
- 200µH - 200H
- 200pF - 20mF
- 2-20MΩ
- 1% accuracy

MOUSER STOCK NO.	BK Precision Part No.	Price Each
615-875B	875B	

CAPACITANCE METER

The Model 810C Capacitance Meter is a compact capacitance meter, designed for accurate measurement of capacitive components. It features direct plug-in test sockets and test lead jacks. A zero adjustment knob is also provided to "zero" test lead capacitance.

Features:
- Zero adjustment knob
- Capacitor test sockets
- Fuse protected
- Protective rubber boot
- One year warranty

MOUSER STOCK NO.	BK Precision Part No.	Price Each
615-810C	810C	

PRECISION 11,000 COUNT DUAL-DISPLAY HANDHELD CAPACITANCE METERS

Features:
- 11,000-count resolution on primary display
- Bright LCD backlight
- Secondary readings D,Q
- 0.5% basic accuracy
- Fast auto range design for rapid, easy component measurements
- Relative mode
- Visible and audible tolerance mode: 1%, 5%, 10%, 20%
- Data Hold and Min/Max/Average recording
- USB (Virtual COM) interface
- SCPI compliant commands for remote communication
- Software for data logging and front panel emulation available as free download
- Selectable auto-power off options and configurable power-up state
- 3 year warranty

MOUSER STOCK NO.	BK Precision Part No.	Price Each
615-830C	830C	
615-890C	890C	

SYNTHESIZED IN-CIRCUIT LCR/ESR METER

The 885 in-circuit LCR/ESR meter is the first handheld meter of this kind on the market. It was designed for both component evaluation on the production line and fundamental impedance for bench-top applications.

Features:
- Measurement parameters: Z., L , C, DCR, ESR, D, Q, and Ø
- Test conditions: 100Hz, 120Hz, 1 kHz, 10kHz, 1Vrms, 0.5Vrms, 0.05Vrms
- Dual LCD Display, SMD surface mount tweezer probe included, includes manual, SMD probe, 2 AA Ni-Mh batteries, AC adapter, shorting bar and software
- Two year warranty

MOUSER STOCK NO.	BK Precision Part No.	Price Each
615-885	885	

HAND-HELD COMPONENT TESTER

Capacitance meter (0.1pF to 20mF) and ohm, meter (0.1 ohm to 20M ohm) also tests: transistors, beta, diodes, SCR's, LED's and batteries.

Features:
- Large 0.8" digit, high contrast LCD readout
- 25 user ranges for versatile test selection
- Tests resistance from 0.1Ω through 20MΩ
- Tests transistors, SCRs, diodes, and LEDs
- Tests batteries under actual loaded conditions
- 5 foot drop-proof, heavy duty case
- Tilt stand for benchtop use
- Weight: 11.6 oz. (326g)
- One year warranty
- Supplied: test lead; spare fuse

MOUSER STOCK NO.	BK Precision Part No.	Price Each
615-815	815	

IN-CIRCUIT DCR AND ESR TESTER

The **In-circuit** ESR & DCR capacitor tester is specially designed to measure ESR (equivalent Series Resistance) on capacitors in the range of 0.47µF to 2200µF, in or out of circuit. The ability to trouble shoot in-circuit saves time and makes the 881 a must for anyone that test or trouble shoots printed circuit boards.

Features:
- 100KHz Output test frequency
- 15mVp-p Output test voltage (will not turn on any solid-state devices)
- Automatically discharges the capacitor under test
- Microprocessor controlled
- One-handed tweezer test probe included
- One year warranty

MOUSER STOCK NO.	BK Precision Part No.	Price Each
615-881	881	

SYNTHESIZED IN-CIRCUIT LCR/ESR METER WITH 100KHZ TEST FREQUENCY

The Model 886 Synthesized In Circuit LCR/ESR Meter is the first handheld meter of this type on the market, with a wide range of test frequencies up to 100kHz and many measurement parameters including Z, L, C, DCR, ESR, D, Q, and Ø. The 886 is designed for both component evaluation on the production line and fundamental impedance testing for bench top applications. With a built in direct test fixture, you can test the lead components very easily. The optional 4 wire test clip can give a convenient connection to larger components and assemblies with the accuracy of 4 wire testing. The LCR meters offer fast, reliable, and versatile testing at low cost, making the 886 the most advanced handheld LCR meters available today.

Features:
- Measurement parameters: Z, L, C, DCR, ESR, D, Q, and O
- Test conditions: 100Hz, 1kHz, 10kHz, 100kHz, 1 Vrms, 0.25rms, 0.05Vms
- 0.5% basic accuracy
- Dual LCD display
- SMD surface mount tweezer probe included
- Very quick response, user friendly
- Fully auto/manual selection
- DC resistance measurement
- Rechargeable battery/AC powered
- Infrared RS232 interface capability
- Two year warranty

DIGITAL STORAGE OSCILLOSCOPES

The B&K Precision Digital Storage Oscilloscopes deliver essential features and reliable performance at a price you can afford. Analog style knobs and controls combined with a smart Auto function make these oscilloscopes easy to use. Advanced triggering, automatic measurements and FFT functions provide you with many options to debug your circuits. Additionally, the instruments come with PC Software that lets you easily capture, analyze and document waveforms and measurement results. An ideal education and training tool and also well suited for applications in service and repair.

COUNTERS

615-1823A

615-1856D

2.4GHz Universal Counter

The model 1823 provides versatility and reliability for a broad spectrum of laboratory and service applications.

Specifications:

- Measures up to 2.4GHz
- Eight-digit display provides up to 0.1Hz resolution
- Period mode combines two input frequencies & displays their ratio
- Totalize mode and Time interval mode add versatility
- Selectable attenuators and low-pass filter prevent miscounts due to input point
- One year warranty

Handheld NTSC Generator

This handheld NTSC Pattern Generator is powered by a 9 volt battery or AC adapter providing NTSC color bars, crosshatch, dot, staircase, circle, center cross, windows, and a full range of color raster patterns. The outputs available are composite video via RCA connector, a RF output BNC connector, or an S Video mini-DIN output. Signals can be produced as an interlaced or progressive scanning mode.

Features:

- S Video, composite video, RF output
- Interlace or progressive scanning system
- 9VDC battery (included)
- AC adapter available
- One year warranty

BK PRECISION Function Generators

B&K Precision offers a full-range of function generators so you can choose the generator best suited for your own activity or applications. The line consists of a variety of high performance generators including function, sweep/function, RF, and audio. All are rugged lab-grade instruments capable of satisfying a variety of engineering, testing, and service situations. Each has been engineered for high-reliability and user operating convenience.

20MHZ FUNCTION GENERATOR W/ DISPLAY

The model 4045 DDS Function Generator is a must have for anyone needing a low cost, full featured direct digital synthesis (DDS) function generator with arbitrary waveform capabilities.

Features:

- 20MHz Frequency Range (sine and square only)
- Sine, Square, Triangle and Arbitrary Waveforms
- Clean, precise DDS waveform generation
- Modulation in both AM and FM
- Lin or Log Sweep Function
- Adjustable Duty Cycle
- Adjustable DC Offset
- Bright Informative LCD
- RS-232C Interface

50MHZ PROGRAMMABLE PULSE GENERATOR

Features:

- Repetition rate of 0.1Hz to 50MHz
- Flexible trigger modes: Continuous, Triggered (internal, external, manual), Gated Burst and External width
- Pulse width programmable from 10ns to 10s
- Transition times (rise and fall times) variable from 6ns to 100ms
- Programmable delay and double pulse
- Predefined amplitude levels for ECL, TTL, and CMOS signals
- Store up to 99 different test setups with auto retention of last power down setup
- 10Vpp into 50ohm output
- Closed case calibration
- Programmable via GPIB and RS-232
- SCPI compatible
- Three year warranty

ARBITRARY WAVEFORM FUNCTION GENERATORS

Model 4079

Features:

- 14-bit, 125 MSa/s, 4 M point Arbitrary Waveform Generator
- 50MHz Sine/50MHz Square waveforms
- Predefined Pulse, Ramp, Triangle, Noise, Sin (X)/X, Exponential and Gaussian waveforms
- Both channels offer full functionality. All wave form parameters such as frequency, amplitude and offset can be set independently
- Synchronize both output signals to the same clock signal (external or internal) and precisely adjust the phase relationship between the two signals
- Large graphical LCD shows a detailed output waveform representation
- Economical baseband I/Q signal source
- Saves cost and bench space
- AM, FM and FSK modulation
- 10mVpp to 10Vpp into 50ohms
- Fully programmable markers
- Fully protected output
- Closed case calibration
- Arbitrary waveform editing software included
- SCPI compliant command set
- GPIB and RS-232 Interfaces (standard)

EXTECH Multimeters and Clamp Meters

EXTECH MULTIMETERS

MiniTec™ Autoranging Digital Multimeter

Features:

- 4000 counts on large LCD with full function indication
- Measures AC/DC Voltage and Current, Resistance, Capacitance, Frequency and Temperature
- Temperature measurements to 1400°F (760°C)
- Duty Cycle, Continuity and Diode test
- Autoranging with manual range override
- Relative zero, Data Hold and Range Hold
- 10A fuse protection
- Overload protection and indication
- Auto power off saves battery life
- Includes protective rubber holster, temperature probe, two 1.5V AAA batteries and test leads CAT II - 600V
- 1 Year Warranty

✻ FREE Temperature Probe! A $13.00 Value!

MultiMaster™

Features:

- 50,000/500,000 count, high accuracy, wide bandwidth True RMS multimeters
- 0.02% (MM570) and 0.03% (MM560) basic DCV accuracy
- 50,000 count display with 500,000 counts for DCV and Hz
- True RMS combination AC+DC function
- Highest resolution to 1μV, 0.01μA, 0.0001Hz, 0.01Ohm
- MM570 with dual input Type K Thermometer,
- Higher True RMS ACV bandwidth (up to 100kHz) and 1000V input protection on all functions
- 4 to 20mA, displayed as 0-100% for process current measurements

1200A 3-Phase Power Analyzer/Datalogger

Features:

- High accuracy autoranging current clamps (0.2A to 1200A)
- 600.0VAC input with CAT III-600V safty rating
- Adjustable Current Transformer (CT) and Potential
- Transformer (PT) ratio for high power distribution systems
- Log up to 30,000 reading on a removable SD memory card in Microsoft Excel® format
- Large dot-matrix, sun-readable, numerical, backlit LCD
- Wide sampling rate range (2 seconds to 2 hours)
- Captured measurements can be imported directly into Excel via the SD memory card
- Easy-to-use onscreen menu
- Easy-to-grab rugged over molded housing

HEAVY DUTY INDUSTRIAL MULTIMETERS

Features:

- Double molded for waterproof protection
- Rugged design - drop proof to 6 feet
- 1000V input protection on all functions
- Dual sensitivity frequency functions
- Diode open circuit voltage of 2.8V DC
- CE and EN61010 CAT IV-600V, and CAT III-1000V
- Complete with double molded test leads and 9V battery
- 6000 count
- Large backlit LCD with bar graph
- Min/Max/Relative/Data Hold
- Auto power off with disable feature
- 3 Year Warranty

EX505 Illustrated

685-EX530	EX530	Precision True RMS 40,000 Count Industrial Multimeter	

MINI DIGITAL MULTIMETERS AND VOLTAGE DETECTOR

Features:

- 0.5% basic accuracy
- Auto Power Off conserves battery life
- Low battery indicator
- Non-contact voltage measurement from 100 to 500VAC (NCV)
- Complete with stand, test leads, protective holster, and 9V battery
- 1 Year Warranty

EX310 Illustrated

MOUSER STOCK NO.	Extech Part No.	Description	Price Each
685-EX310	EX310	Manual Ranging Mini Multimeter and NCV	
685-EX330	EX330	Autoranging Mini Multimeter & NCV with Temperature	

MULTIMETER/DATALOGGER WITH WIRELESS PC INTERFACE

Features:

- Real time datalogging or wireless data transmission directly to your PC (30ft/10m)
- True RMS measurements for accurate AC Voltage and Current measurements
- Diode open circuit voltage of 2.8V DC
- CAT IV-600V safety rating for industrial applications
- 1000V input protection on all functions
- Dual sensitivity frequency functions
- Backlit triple LCD display includes two sub-displays for simultaneous indication of frequency with voltage and memory data/location information
- Auto power off with disable feature
- Complete with double molded test leads, magnetic hanging strap, Type K bead wire temperature probe (-22°F to 572°F/-30°C to 300°C), remote receiver with USB cable, Windows® compatible software, 9V battery and hard carrying case

MOUSER STOCK NO.	Extech Part No.	Description	Price Each
685-EX540	EX540	TRMS DMM Datalogger Wireless PC Interface	

EXTECH CLAMP METERS

80A Mini AC/DC Clamp Meter

Features:

- 4000 count LCD display
- 4A range with 1mA resolution for accurate low current measurements
- Jaw opens to 0.5" (12.7mm)
- AC/DC Voltage, resistance, frequency, capacitance, and duty cycle
- Diode test/continuity beeper
- Data hold and max hold
- Complete with test leads, 9V battery, and carrying case

MOUSER STOCK NO.	Extech Part No.	Description	Price Each
685-380950	380950	80A Mini AC/DC Clamp Meter	

High Resolution AC/DC Measurement

Features:

- High DC resolution of 1mA (380942) 10mA (380941)
- Model 380942 provides True RMS readings
- Both models also measure voltage
- Fast 40 segment bargraph
- One touch Auto Zero for DC current measurements Min/Max
- Data hold and Auto power off
- Complete with test leads, wrist strap, 2 AA batteries and carrying case

380942 Illustrated

MOUSER STOCK NO.	Extech Part No.	Description	Price Each
685-380941	380941	200A DC/AC Mini Clamp Meter	
685-380942	380942	30A DC/AC Mini Clamp Meter	

400A True RMS AC/DC Mini Clamp Meter

Features:

- True RMS mini-clamp with high current resolution
- True RMS measurements with 1mA AC resolution
- Non-contact Frequency measurements to 100kHz through the clamp jaws
- Fast 40 segment bargraph
- One touch Auto Zero
- Min/Max
- Data hold and Auto power off

MOUSER STOCK NO.	Mfr. Part No.	Description	Price Each
685—380947		400A True RMS AC/DC Mini	

400A AC and AC/DC Clamp Meters

Features:

- Compact size allows measurements in tight locations
- High accuracy for current measurements
- Autoranging with auto power off
- 0.9 (23mm) jaw size accommodates conductors up to 300MCM
- Continuity beeper and diode test
- Data hold freezes current reading on display
- Overload protection for all ranges
- Overrange and low battery indicators
- Complete with test leads, case, and two AAA batteries

MOUSER STOCK NO.	Mfr. Part No.	Description	Price Each
685—MA200		400A AC Clamp Meter	
685—MA220		400A AC/DC Clamp Meter	

RHT10 Humidity and Temperature USB Datalogger

Features:

- 32,000 reading (16,000 for each parameter: Humidity/Temperature
- Selectable data sampling rate: 2s, 5s, 10s, 30s, 1m, 5m, 10m, 30m, 1hr, 2hr, 3hr, 6hr, 12hr
- Dew point indication via Windows® software (included)

LECROY Oscilloscopes, Arbstudio and Probes

TELEDYNE LECROY Everywhereyoulook™

HIGH DEFINITION HDO 4000 OSCILLOSCOPES

Key Features:

- 12-bit ADC resolution, up to15-bit with enhanced resolution
- Long Memory – up to 25 Mpts/ch
- 12.1" screen display
- WaveScan – Advanced Search and Find
- LabNotebook Documentation and Report Generation
- Power Analysis Software
- Serial Data Trigger and Decode

WAVESTATION 2000 SERIES WAVEFORM GENERATOR

NEW PRODUCT

A waveform generator must provide a large set of signal types and generation modes to cover a wide variety of applications. Some applications may require quick and easy access to basic waveforms while others may require advanced modulation techniques or the ability to import real world signals from an oscilloscope. The WaveStation Function/Arbitrary Waveform Generators meet the requirements ranging from basic function generation to advanced arbitrary waveform creation and are capable of generating signals up to 50 MHz. Each WaveStation model has 2 output channels a 3.5'' display, intuitive front panel, and includes waveform editing software for the PC.

MOUSER STOCK NO.	Teledyne Lecroy Part No.	Bandwidth (MHz)	Channels	Sample Rate	Price Each

WAVEACE 1000 AND 2000 OSCILLOSCOPES

A good oscilloscope should simplify how you work and shorten the time it takes to find and debug problems. The WaveAce™ combines long memory, a color display, extensive measurement capabilities, advanced triggering and excellent connectivity to improve troubleshooting and shorten debug time. With bandwidths from 40 MHz to 300 MHz, sample rates up to 2 GS/s and waveform memory up to 10 kpts/Ch (20 kpts interleaved) the WaveAce exceeds all expectations of a small affordable oscilloscope.

MOUSER STOCK NO.	Teledyne Lecroy Part No.	Bandwidth (MHz)	Channels	Sample Rate	Price Each

WAVEJET 300A OSCILLOSCOPES

The WaveJet 300A provides the banner specifications, feature set and user interface to simplify how you work and shorten debug time. With a big, bright 7.5" display, long 500 kpts/Ch memory and up to 2 GS/s you will easily capture and see every detail of your waveform. The USB ports provide a quick way to save waveforms, store or print screen captures or connect to a PC. Math and measurement tools help you understand the waveforms and Replay mode allows you to look at a history of what has been captured. Altogether these specs, features and capabilities make the WaveJet 300A the right oscilloscope for your debugging needs.

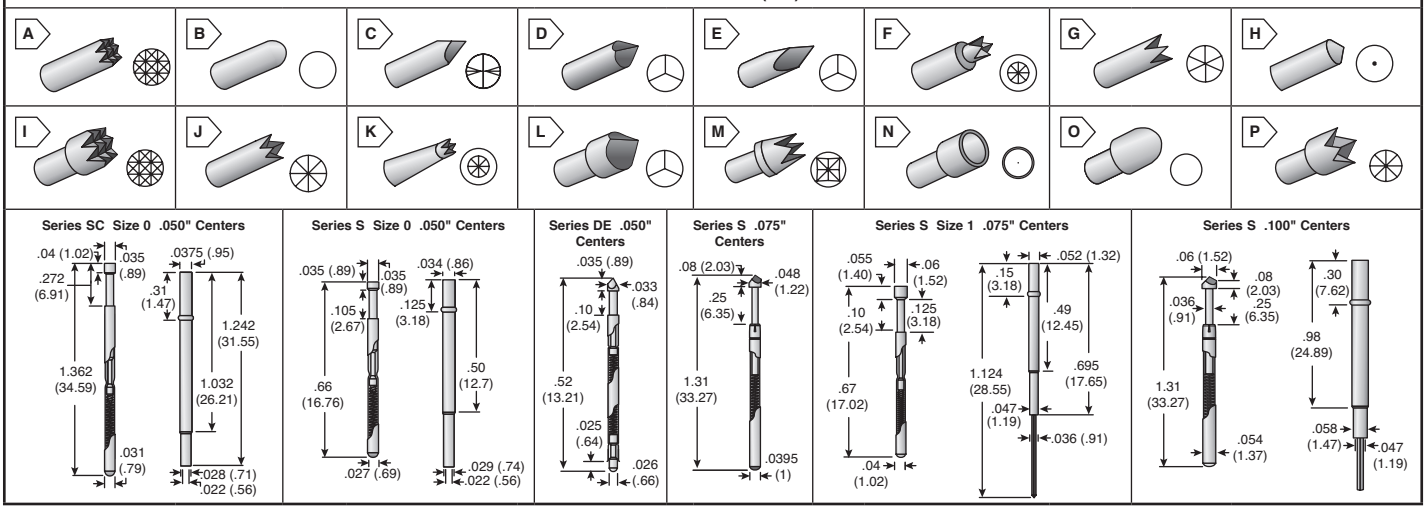
IDI Spring Contact Probes and Receptacles

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: in. (mm)



SERIES S-50C: SIZE 0, .050" CENTERS

Technical Summary:

- Recommended Minimum Centers: .050 (1.27)
- Current Rating: 3 amps continuous
- Spring Force: 3.2 or 5.4 oz. @ .170 (4.32) travel
- Contact Resistance: Less than 17mΩ
- Recommended Working Travel: .170 (4.32)
- Maximum Travel: .232 (5.89) for headed tips .250 (6.35) for headless tips

Materials:

- Contact Barrel: DuraGold
- Spring: Stainless steel or music wire, gold plated
- Plunger: Full-hard Beryllium copper or steel, gold plated over nickel or optional duralloy

RoHS Compliant

For quantities greater than listed, call for quote.

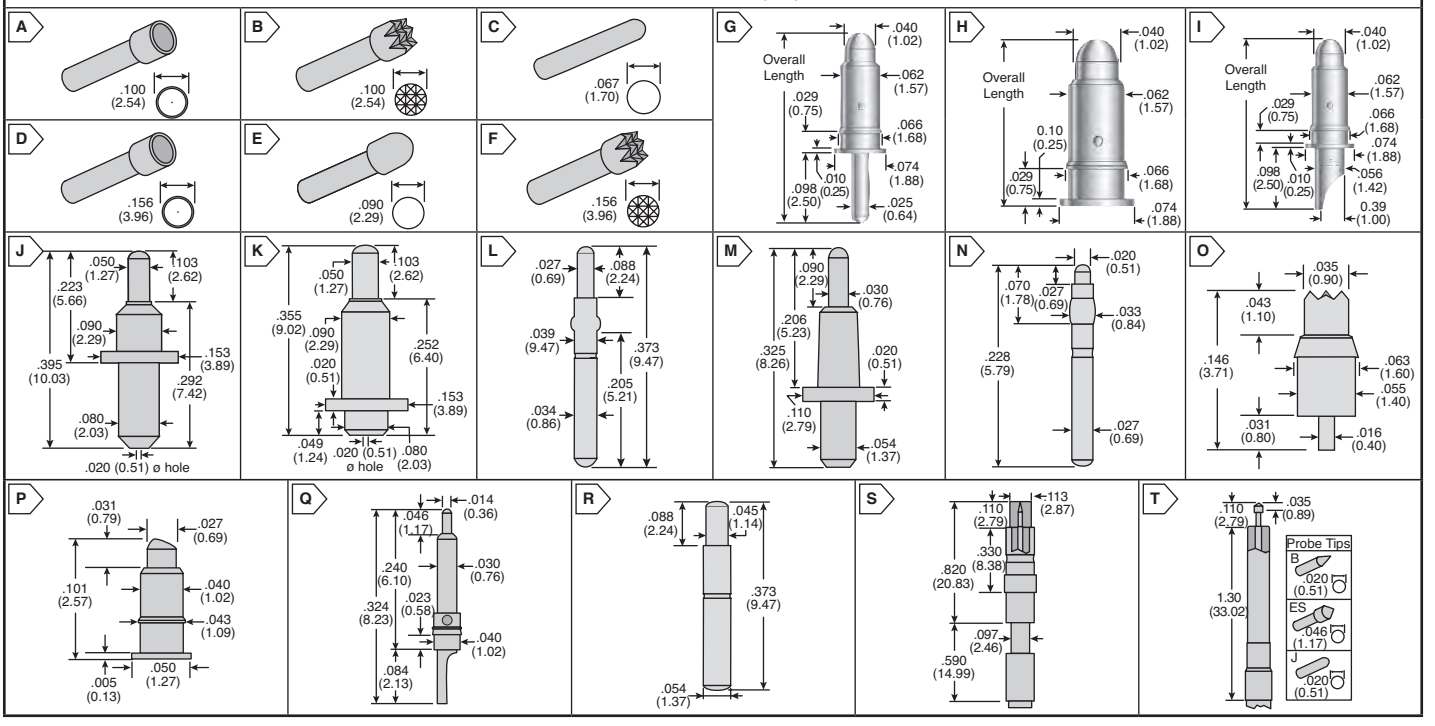
IDI Spring Contact Probes and Receptacles

RoHS Compliant **This product is RoHS compliant.**

DIMENSIONS: in. (mm)



SERIES S SIZE 3 .125" TO 5.185" CENTERS

Materials:
- Contact Barrel: Nickel/Silver, Gold Plated
- Plunger: Beryllium Copper, Gold Plated over Nickel
- Spring: Stainless Steel, Gold Plated

For quantities greater than listed, call for quote.

C SERIES PROBES SIZE .100 CENTERS

Materials:
- Barrel: Brass, gold plated
- Spring: Stainless steel

Plunger:
- CG Series: Brass, gold plated
- CP Series: Brass, gold plated
- CS Series: Brass, Duralloy™ plated

Special Features:
- CG Series: Bias plunger design
- CP Series: Bias plunger design
- CS Series: Standard design

Recommendations:
- Mounting hole: .064/.065 (1.62/1.65)
- Pad size for Surface Mount: .085 (2.20)
- Wire Gauge for Solder Cup: 20 Gauge max.
- Drill size for Thru Hole Tail: .035 (0.89)

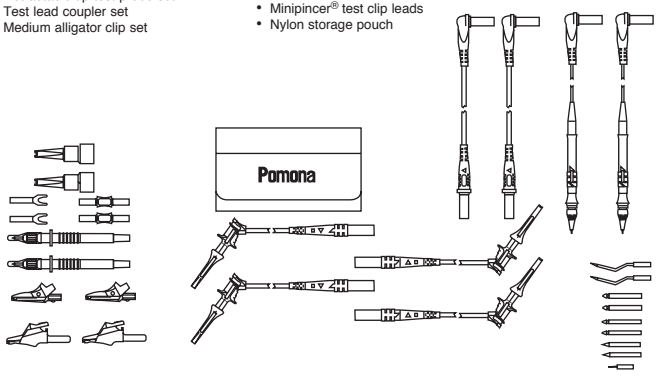
DELUXE MULTI -USE DMM MAXI-KIT

Kit Includes:
- Silicone 4' leads with right angle plug
- Modular probe set with standard tips
- Full set of 5 replaceable tips
- Retractable tip test probe set
- Test lead coupler set
- Medium alligator clip set
- Large alligator clip set
- Bare spade lugs
- IC probe tip adapter
- Minigrabber® test clip leads
- Minipincer® test clip leads
- Nylon storage pouch



For quantities greater than listed, call for quote.

PRECISION ELECTRONIC PROBE SET

Specifications:
- Compact design for tight test situations
- Probe set includes 5 spring-loaded tips for constant contact
- Silicone insulated leads resist abrasion and heat
- Comfort-grip textured surface

Features:
- Replaceable 0.04" (1.52mm) pogo-pin tips
- Small outline for tight test situations
- Replaceable pogo-pin tips
- Fits all meters including Fluke, HP (Agilent), Keithley, Wavetek (Meterman), and others

For quantities greater than listed, call for quote.

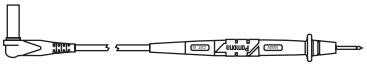
DMM TEST LEAD SET

Specifications:
- CAT III
- 1,000V
- Silicone insulated 4 ft. leads
- Comfort-grip textured surface
- Durable 0.08" tips for long life



Features:
- Monolithic probes with fixed tips
- Comfort grip probe
- Fits most DMMs from Fluke, HP (Agilent), Wavetek (Meterman), Amprobe, Greenlee and others

For quantities greater than listed, call for quote.

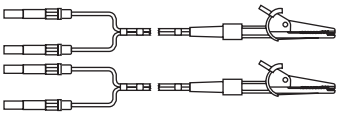
565—5519A		DMM Test Lead Set	
565—5898		Stainless Steel Heavy Duty Tip	

KELVIN LEAD SET WITH KELVIN CLIPS

Features:
- Gold plated Kelvin clip jaws allow 4-wire resistive measurements
- Silicone insulated 3.3' (1m) test lead
- safety sheathed straight DMM plugs for convenient bench use
- Clips firmly grip test points for low-loss connection



Rating:
For CE compliance: not intended for hand held use at voltages above 33 Vrms/ 70 VDC

For quantities greater than listed, call for quote.

REPLACEMENT PASSIVE OSCILLOSCOPE PROBES

Pomona's oscilloscope probes are designed, rated and specified to match the bandwidth of your instrument. This gives you a full voltage read-out through the entire rated bandwidth of the probe. These monolithic passive voltage probes feature high performance for greater test flexibility. Complete accessory kit included. Finally, a probe that gives you the full range you're paying for.

For quantities greater than listed, call for quote.

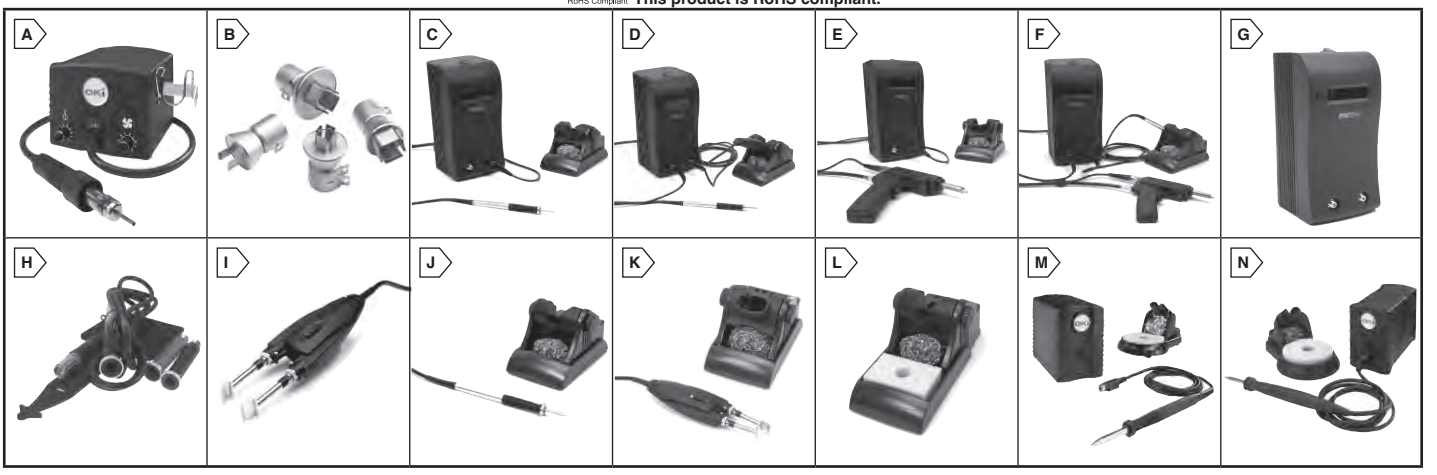
OK INTERNATIONAL Solder Systems

RoHS Compliant **This product is RoHS compliant.**



HCT-900 SYSTEM CONVECTION REWORK

The HCT-900 can be used for the removal and replacement of electronic components, including lead-free, from 0201 up to 304-Pin QFP. It is also effective at reworking pin-hole devices such as sockets and connectors. And, using it with solder braid and flux is a fast and efficient way to remove solder shorts and splashes. It can also be used in plastic applications such as applying shrink wrap to components or the formation of plastic rivets.

HCT Hand Held Convection Tools

The HCT-900 Hand Held Convection Tool offers a low cost, versatile rework solution for a wide variety of production and rework application challenges. It has a compact, robust design comprising of analog controls for both airflow and heat. A closed loop feedback circuit controls the temperature allowing the desired temperature to be achieved and maintained regardless of changes in the volume of airflow.

For quantities greater than listed, call for quote.

MX-5000 SERIES REWORK AND SOLDER SYSTEMS

The MX-5000 Soldering , Desoldering and Rework Systems is the next generation of the trusted Metal Soldering Systems that enable increased productivity and process control for a wide range of applications. Building on the renowned strength of its popular MX-500 predecessor, the MX-5000 Series increased output power, adds process feedback, and improves application flexibility with new hand-pieces.

PS-900 SOLDERING SYSTEMS

PS-900 Solar Soldering System

OK International has launched a new soldering system for PV tabbing and bussing applications proven to reduce micro cracking. The PS-900 with specially designed hoof tip geometry optimizes the power delivered to the solder joint while it's temperature-sensitive heater ensures low temperature soldering thus minimizing thermally induced stresses on cell surfaces.

For quantities greater than listed, call for quote.

MOUSER STOCK NO. / Mfr.	Mfr. Part No.	Fig.	Description	Price Each
745	PS-900-SOLAR	M	PS-900-SOLAR Soldering System	

PS-900 Soldering System

The PS-900 increases productivity by performing a wide range of applications. It is suited for lead-free soldering processes, multilayer boards and thermally demanding components. What's more, SmartHeat technology enables the PS-900 to solder at lower temperatures, even for such demanding applications as lead-free soldering processes. This means operators are more productive and materials are safe from damaging temperatures.

System Includes PS-PW900 Power Supply With Power Cord, PS-HC3 Hand-Piece With Coil Assembly, WS2-NS Workstand With Sponge And AC-CP2 Tip Removal Pad.

For quantities greater than listed, call for quote.

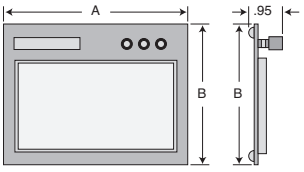
Breadboards and PCB Design

3M™ SOLDERLESS BREADBOARDS

3M solderless breadboards incorporate state-of-the-art techniques in design and fabrication to yield a circuit building system with unparalleled flexibility.

Features:

- 5 way binding post interface connections
- Laboratory proven multi-tie point terminal design
- Steel base with high gloss baked enamel finish
- Alpha-numeric tie-point identification
- 3M jumper wires included with all breadboards



MOUSER STOCK NO.	DIP Capacity	Dim. (in.) A	Dim. (in.) B	No. of Tie Points	Binding Post	Price Each
517-922306	6-14 pin	5.40	4.00	610	2	
517-922309	9-14 pin	7.00	4.00	840	3

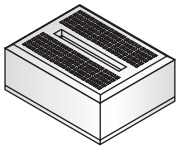
3M™ TERMINAL AND DISTRIBUTION STRIPS

Features:

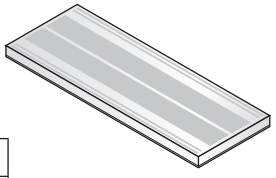
- Terminal strips have spring clips arranged side-by-side.
- Distribution strips have spring clips arranged end-to-end.



MOUSER STOCK NO.	3M Part No.	Description	No. of Tie Points	Price Each
517-923273	923273-I	1/4 double terminal strip	640	

3M™ CIRCUIT STRIPS

Super strip and the small circuit strips breadboarding unit combine terminal and distribution building blocks in a single unit. Plug-in ease of the .100" x .100" solderless tie-point matrix is combined with the convenience of separate distribution buses for power, ground and signal lines.

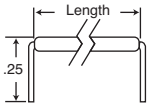


MOUSER STOCK NO.	3M Part No.	Description	No. of Tie Points	Price Each
517-923252-I	923252-I	Super Strip 2, alloy	840	

3M™ COLOR CODED JUMPER WIRES

Features:

- Pre-measured, pre-formed color coded jumper wires
- 22 AWG solid, tinned copper, PVC insulated
- Stripped 1/4", bent 90° on both ends



MOUSER STOCK NO.	Length (in.)	Color	Package Quantity	Price Each

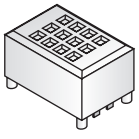
3M™ BREADBOARD TIE-POINT BLOCKS

Ideal for connections to power, ground, clock lines and status monitors, etc. Each group of four tie-points has a solder tail for connection to the circuit. Mounting posts on the plastic body press fit into holes in the PC board. The .100" matrix will accept any lead up to .032 inch; #22 AWG solid wire is recommended for connections.



MOUSER STOCK NO.	3M Part No.	Description	Price Each
517-923301I	923301-I	Quad tie-point block	

P&P COLOR CODED JUMP WIRE KITS

Features:

- 14 Different color coded lengths of pre-cut, pre-stripped, and preformed 22 AWG solid wire
- Lengths: 0.1 in, 0.2 in, 0.3 in, 0.4 in, 0.5 in, 0.6 in, 0.7 in, 0.8 in, 0.9 in, 1.0 in, 2.0 in, 3.0 in, 4.0 in, 5.0 in
- Stripped end 0.25 in and bent 90 degrees
- 383-SWS1104 includes 4 binding posts
- Handy organizer box included

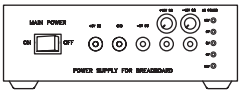
P&P AC/DC BREADBOARD POWER SUPPLY

Features:

- Illuminated power switch
- DC power supply:
  - DC + 5 VDC, 1A; -5 VDC, 500mA fixed
  - DC 0 VDC to +15 VDC, 500mA variable
  - DC 0 VDC to -15 VDC, 500mA variable
- AC power supply: AC voltage: 12 VAC, 6 VAC, 0 VAC, 6 VAC, 12 VAC, 300mA fixed
- Accessories: AC cable, DC output wires: 4 red, 1 black



MOUSER STOCK NO.	Price Each
383-PS015VDC	

PULSAR PCB DESIGN PRODUCTS

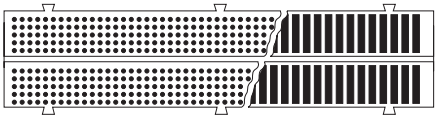
Create your own "iron-on" PC board patterns, faceplates, and color decals from any laser printer or high quality copier.

MOUSER STOCK NO.	Pulsar Part No.	Description	Quantity	Price Each
5165-COMBO-KIT	50-1004	PCB and DecalPro Kits (50-1004)	1	
5165-DECALPRO	50-1001	DecalPro Kit (50-1001)	1	
5165-H-220	50-1301B	Toner Image Applicator (50-1301B)	1	
5165-PCB-KIT	50-1003	PCB "FAB-IN-A-BOX" Kit (50-1003)	1	
5165-PCB-SINGLE	50-1501	.032" Single-Sided PCB (50-1501)	2 - 8" x 10" panels	
5165-PCB-DOUBLE	50-1502	.032" Double-Sided PBC (50-1502)	2 - 8"x 10" panels	
5165-TTS10	50-1101	Toner Transfer Paper (50-1101)	10 - 8.5" x 11" sheets	
5165-GTRF	50-1225	Green Toner Reactive Foil (50-1225)	1 - 8"x 15' sheet	
5165-WTRF	50-1226	White Toner Reactive Foil (50-1226)	1 - 8"x 15' sheet	

P&P SOCKET AND BUS STRIPS

Features:

- External body: polymer (resists heat up to 90°C)
- Internal contact material: silver and nickel alloy
- Contact resistance: < 1mΩ
- Snap lock design
- Continuous working temperature should not exceed 50°C (max.)



MOUSER STOCK NO.	Description	Dimen. (In.) L	Dimen. (In.) W	Price Each
383-Q290	58 groups of 5 connected terminals	3.15	1.50	
383-K64	128 groups of 5 connected terminals	6.80	1.50

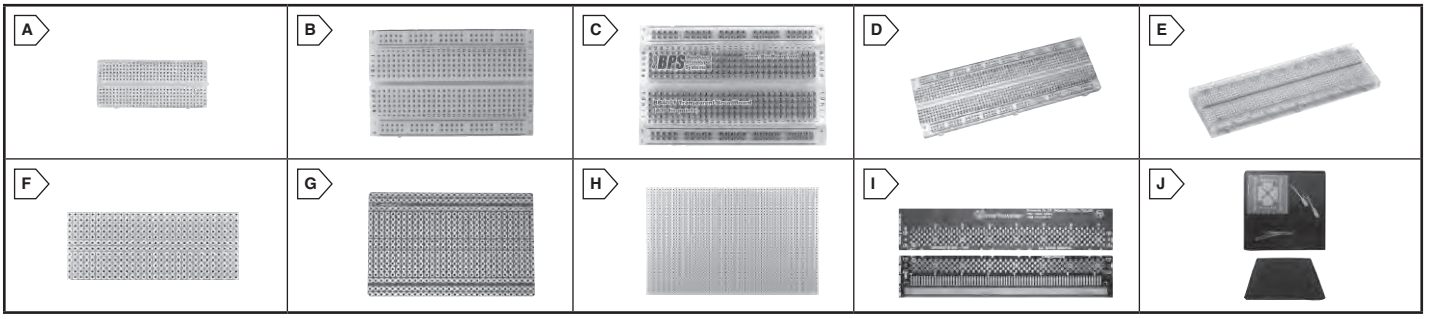
Breadboards, SMT Connector Boards, Kits and Accessories



BPS PLUG-IN BREADBOARDS

Tie point plug-in breadboards provide a quick way to build and test circuits for experimentation or when learning electronics.

- Move your completed circuit to BR1 (854-BR1) solderable PC Board
- The transparent breadboard is great for beginners because they can see their circuit connectors

BB300:
- 1 IC/Circuit area, 300 tie points

BB400 and BB400T:
- 1 IC/Circuit area, 300 tie points
- 2 Distribution strips, 100 tie-points

BB830 and BB830T:
- 1 IC/Circuit area, 630 tie points
- 2 Distribution strips, 200 tie-points

MOUSER STOCK NO.	BPS Part No.	Fig.	Description	Size	Material	Price Each 1	Price Each 10
854-BB300	BB300	A	300 Tie point breadboard	3.3 x 1.4 x 0.3" (84 x 35.5 x 8.5mm)	ABS Plastic		
854-BB400	BB400	B	400 Tie point breadboard with 2 power rails	3.3 x 2.1 x 0.3" (84 x 54.3 x 8.5mm)	ABS Plastic with color legend		
854-BB400T	BB400T	C	Transparent 400 Tie point BreadBoard	3.3 x 2.1 x 0.3" (84 x 54.3 x 8.5mm)	ABS Plastic with color legend		
854-BB830	BB830	D	830 Tie point breadboard	6.5 x 2.2 x 0.3" (165.1 x 54.6 x 8.5mm)	ABS Plastic with color legend		
854-BB830T	BB830T	E	Transparent 830 Tie point Breadboard	6.5 x 2.2 x 0.3" (165.1 x 54.6 x 8.5mm)	ABS Plastic with color legend		

BPS SOLDERABLE PC BREADBOARDS

Transfer your circuit to this permanent circuit board from a plug-in breadboard to create a rugged long-lasting prototype.

854-SB300	SB300	F	300 Tie point with 2 power rails, 360 holes	1.20 x 3.00 x 1/16" (31 x 76 x 1.6mm)	FR4 glass-epoxy		
854-SB400	SB400	G	400 Tie point with 6 power rails, 540 holes	1.90 x 3.00 x 1/16" (48 x 76 x 1.6mm)	FR4 glass-epoxy		

BPS PROTOBOARD-2H-3U

Prototype circuit board for general purpose analog and digital use. This protoboard saves time and has a general purpose stripboard circuit pattern that is pre-cut with 2 holes per segment.

854-PR2H3U	PR2H3U	H	2-Hole per strip Protoboard	3.9 x 6.3 x 1/16" (3U, 100 x 160mm)	FR4 glass-epoxy		

Schmartboard™ SMT CONNECTOR BOARDS

- Supports all "Top Latch" FFC type SMT connectors. (Does not support "Bottom Latch" type)
- For SMT connectors from companies such as Hirose, Molex, Samtec, and Tyco

ABS PROJECT BOXES

Twin Industries ABS Project boxes with custom-fit prototyping boards are sold together under a single part number, eliminating the need to find a compatible board and cut or shape the board to fit box dimensions. Mounting holes are provided to attach boards to lids. Uncommitted board area for mounting board edge connectors or components.

Specifications:

- Protoboard Material - FR4 laminate
- Thickness of board - 0.062"
- Box Material - ABS Plastic
- Prototyping holes spaced on 0.1" x 0.1" grid
- Mounting holes to attached board to box lid

For quantities greater than listed, call for quote.

6U VME64/X PROTOTYPING BOARD

Dedicated probing points for all connector pins

Features:

- Support for 160 pin DIN Connectors
- Support for 2mm P0 Connector
- Board Dimensions: 6U x 160MM
- Thickness - 0.062"
- Prototyping area with 0.1" x 0.1" grid of plated holes

For quantities greater than listed, call for quote.

Non-Catalog Items
Can't find exactly what you need?
Mouser has **OVER 4 MILLION** products available online at **mouser.com** for easy purchase!

Who Can Order?
Mouser customers include businesses, schools, agencies, and individuals.

NO Minimum Order!
There are NO minimum order requirements on most products in this catalog.

Export Policy
Mouser exports to over 170 countries.
Visit **mouser.com/saleterms** for details and restrictions.

Shipping Costs
Now offering reduced international flat-rate shipping, with no handling fees, to most countries. To estimate your freight charges, go to our website at **mouser.com/EstimateShipping**

Scheduled Orders
We will schedule shipments to you up to one year in advance. Each item must be ordered for release in standard pack quantities only, minimum $50 USD per release shipment.

Backorders
If our inventory is depleted on a specific item, we will backorder and ship as soon as it is available.

Rapid Delivery
Rapid delivery on all FedEx, UPS, and other Air services is available on most orders received.

You will be notified for any reason if your order cannot ship the same day.

Backorder Shipping
If more than one shipment is necessary to complete your order, backorders will ship with reduced flat rates.
To estimate your backorder charges, go to our website at **mouser.com/EstimateShipping**

Net 30
Net 30 is available to businesses, schools, and agencies. Also available for same-day shipment, even on first orders. Shipping costs are added to your invoice.

Credit Cards
Major credit cards, all purchasing, and major bank debit cards are accepted.
You will be notified of shipping cost at time of order.

Prepaid
Check or international money order.
To estimate your freight charges, go to our website at **mouser.com/EstimateShipping**

Wire Transfers / EFT
Go to **mouser.com/Help**
See Payment Information.

Incorrect Orders
Please notify a Mouser Service Representative of any incorrect order within 30 days of ship date. We will immediately correct any error.

Returns
Please contact a Mouser Service Representative to obtain a return authorization number. Returns are normally accepted when completed within 30 days of ship date. (90 days if product is defective.)

Return Address
All returns must be shipped to:
Mouser Electronics
1000 North Main Street
Mansfield, TX 76063, USA

Mouser's Limited Warranty
Mouser agrees to transfer to Customer whatever transferable warranties Mouser receives from the manufacturer of products sold to Customer. Mouser makes no other warranty, express or implied, with respect to the Products. IN PARTICULAR, MOUSER MAKES NO WARRANTY RESPECTING THE MERCHANTABILITY OF THE PRODUCTS OR THEIR SUITABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OR USE OR RESPECTING INFRINGEMENT.

Mouser's liability arising out of any sale of products to Customer is expressly limited to either:
(1) Refund of the purchase price paid by Customer for such products (without interest), or
(2) Repair and/or replacement of such products, at Mouser's election, and such remedies shall be exclusive and in lieu of all others. Customer must notify Mouser within 90 days from date of shipment of any defective product. This warranty is in lieu of any and all other warranties, whether oral, written, expressed, implied, or statutory. Implied warranties of fitness for a particular purpose and merchantability are specifically excluded and shall not apply. Customer's obligations and Mouser's remedies, with respect to defective or nonconforming products, are solely and exclusively as stated herein. Further, no warranty will apply if the Product has been subject to misuse, static discharge, neglect, accident or modification, or has been soldered or altered in any way.

Limitation of Liability
In no event shall Mouser be liable for any special, incidental or consequential damages of any nature including, but not limited to, damages resulting from loss of profit or revenue, recall costs, claims for service interruptions or failure to supply downtime, testing, installations or removal costs, costs of substitute products, property damage, personal injury, death or legal expenses.

Customer's recovery from Mouser for any claim shall not exceed the purchase price paid by Customer for the goods, irrespective of the nature of the claim, whether in warrant, contract, or otherwise. CUSTOMER SHALL INDEMNIFY, DEFEND, AND HOLD MOUSER HARMLESS FROM ANY CLAIMS brought by any party regarding products supplied by Mouser and incorporated into the customer's product.

Use of Products in Life Support, Nuclear, and Certain Other Applications
Products are intended for commercial use only. Products are traceable at the manufacturer's level only. There is no lot level traceability. Products sold by Mouser are not designed, intended or authorized for use in life support, life sustaining, human implantable, nuclear facilities, or other applications in which the failure of such Products could result in personal injury, loss of life or catastrophic property damage.

If Customer uses or sells the Products for use in any such applications:
(1) Customer acknowledges that such use or sale is at Customer's sole risk;
(2) Customer agrees that Mouser and the manufacturer of the Products are not liable, in whole or in part, for any claim or damage arising from such use; and
(3) Customer agrees to indemnify, defend, and hold Mouser and the manufacturer of the Products harmless from and against any and all claims, damages, losses, costs, expenses, and liabilities arising out of, or in connection with, such use or sale.

Any quotation or the prices contained herein are for information purposes only and do not constitute a legal acceptance of any order placed by the seller. Orders are subject to all terms and conditions of sales displayed at **mouser.com/saleterms**.

Omron 1797

Photoelectric & Fiber Optic Sensors

Omron 1798

Photomicrosensors

Omron 1799, 1800, 1801

Liquid Level & Reed Sensors

MEDER electronic 1802

Vibration, Tilt & Flow Sensors

Omron 1803

Current Sensors

Honeywell Sensing & Control 1804
Vacuumschmelze 1805

Pressure Sensors

All Sensors 1806, 1807
Freescale Semiconductor 1808, 1809
Honeywell Sensing & Control 1810, 1811, 1812, 1813, 1814, 1815
Silicon Microstructures 1816

ENCLOSURES & THERMAL MANAGEMENT

Plastic Enclosures

Bud Industries 1818, 1819, 1820, 1821
Hammond Manufacturing 1822, 1823, 1824, 1825,
. . . . . 1826, 1827, 1828, 1829
Serpac 1830, 1831, 1832

Fans

ebm-papst 1833, 1834, 1835, 1836, 1837, 1838
Qualtek Electronics 1839, 1840

Heat Sinks

Aavid Thermalloy 1841, 1842, 1843, 1844
Advanced Thermal Solutions 1845, 1846
Crydom 1847
CTS Electronic Components 1848
Ohmite 1849, 1850
Wakefield 1851

Thermal Interface

Laird Technologies 1852
Panasonic 1853

Thermoelectrics

Laird Technologies 1854, 1855, 1856, 1857

POWER

Power Transformers

Hammond Manufacturing . . . 1859
Murata Power Solutions . . . 1860, 1861
TE Connectivity . . . 1862
Wurth Electronics . . . 1863

DC-DC Converters - Isolated

Cincon . . . 1864, 1865, 1866, 1867, 1868
Emerson Network Power . . . 1869, 1886
Ericsson Power Modules . . . 1870, 1887
GE Energy . . . 1871, 1872, 1888
Mean Well . . . 1873
Murata Power Solutions . . . 1874, 1875, 1876, 1877, 1878, 1879, 1880, 1881, 1882, 1883, 1889, 1890
Power-One . . . 1891
RECOM Power . . . 1884, 1885, 1892

Power Supplies

Cincon . . . 1893, 1894
Condor . . . 1895, 1896, 1897
Emerson Network Power . . . 1898, 1899
Mean Well . . . 1900, 1901, 1902, 1903, 1904
Phihong . . . 1905
Phoenix Contact . . . 1906, 1907
Power-One . . . 1908, 1909, 1910
RECOM Power . . . 1911
SolaHD . . . 1912, 1913, 1914
TDK-Lambda . . . 1915, 1916, 1917, 1918, 1919, 1920, 1921

AC Adapters

Ault / SL Power . . . 1922, 1923
Cincon . . . 1924, 1925
Emerson Network Power . . . 1926
Mean Well . . . 1927
Phihong . . . 1928, 1929, 1930, 1931, 1932

Power Filters

Corcom / TE Connectivity . . . 1933
EPCOS . . . 1934
Schaffner . . . 1935, 1936
TE Connectivity . . . 1937

Lithium

Panasonic . . . 1938

Battery Holders and Contacts

Bulgin . . . 1939
Eagle Plastic Devices . . . 1940, 1941, 1942, 1943, 1944
Keystone . . . 1945

TEST, TOOLS AND PROTOTYPING

Panel Meters

Murata Power Solutions 1946, 1947, 1948

Test Equipment

B&K Precision 1949, 1950, 1951, 1952

Extech 1953

LeCroy 1954

Test Connectors

IDI 1955, 1956

Murata 1957

Pomona Electronics 1958, 1959, 1960, 1961

Soldering Tools

OK International 1962

Prototyping

3M 1963

BusBoard Prototype Systems 1964

PSP 1963

Pulsar 1963

SchmartBoard 1964, 1965

Twin Industries 1966

Vector 1967
