We have got you covered!

Become a part of

Data Science Immersive Bootcamp

Data Science Immersive Bootcamp with **100% Job Guarantee***

Next Batch Starts on **28th June 2022**

Live Instructor Led Online Classes

- 8 Months of live online training
- 3 hour sessions on Weekends and Weekdays
- All-in-one Experience: Data Science, Data Engineering, Cloud Computing

Industry-Relevant Curriculum & Projects

- Comprehensive Curriculum vetted by Industry experts
- Get industry Exposure
- Build real life projects
- Master latest tools and techniques in the industry

100% Data Science Job Placement

- Get Jobs in the fields of analytics, data science
- Job opportunities with 100+ hiring partners
- Guaranteed job within 20 months of starting the program

Many
More!

“ My Bootcamp Experience at AV was fantastic. I did a lot of modelling projects. Overall, the internship helped me develop critical thinking so that I could actually solve problems rather than simply using tools.. ”

Sarthak Arora, AM - PaisaBazar

“ Analytics Vidhya's Bootcamp helped my data science dream come true. This credit goes to their student centric and exhaustive training. ”

Megha Setia, Consultant - KPMG

How will Data Science Immersive Bootcamp make you job ready?

Learn about the complete Data Science Ecosystem

Data Science

Learn Data Science concepts like SQL, feature engineering statistics, machine learning, in a comprehensive manner

Data Engineering

Learn about the most in-demand topic in the Data Science ecosystem and master the art of building data pipelines.

Cloud Computing

Cloud Computing has emerged to be one of the most crucial technologies. Build and deploy data science projects on cloud

20+ Real World Projects

Customer Churn Prediction

Customer retention is a crucial aspect for any organization.

Learn to use Data Science Techniques for predicting the propensity of customer churn for a Bank.

NYC Taxi Trip Duration Prediction

To improve the efficiency of taxi dispatching systems, it is important to be able to predict how long a driver will have his taxi occupied. Build Machine Learning Models to accurately predict trip duration for taxi trips in New York City.

Descriptive Analytics: FIFA-19 Players

Work on dataset of FIFA19 players and do descriptive analytics on it. Go through the thought process of how data is understood, transformed into a useful format and how we get answers and insights from our data.

Classify Emergency Vehicles

Fatalities due to traffic delays of emergency vehicles such as ambulance & fire brigade is a huge problem. Use Deep Learning Techniques and design a system for classifying a vehicle into an emergency and non emergency category.

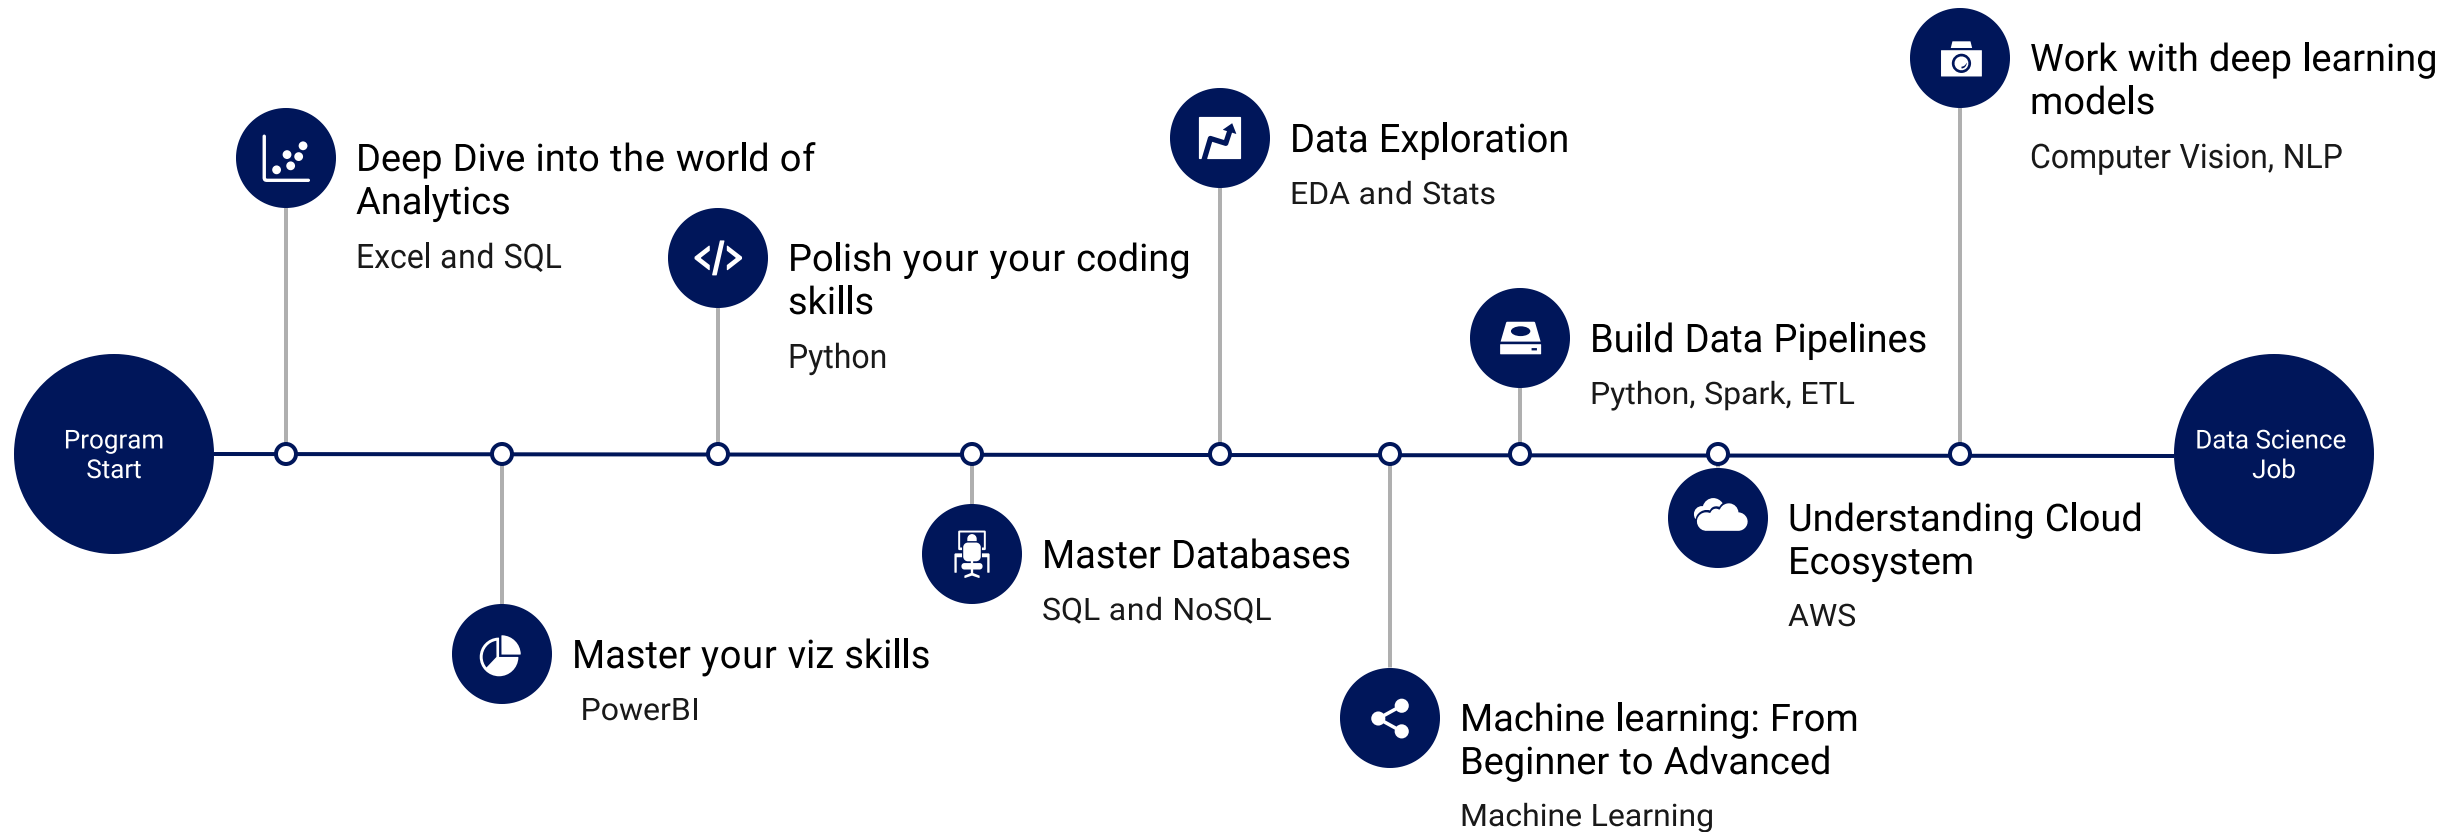

And Many More..

The Data Science Immersive Bootcamp covers every Tool and Framework you need as a Data Scientist

And many more..

Bootcamp Roadmap

Mentors and Instructors for the Program

Kunal Jain
Founder & CEO,
Analytics Vidhya

Sunil Ray
Chief Content Officer,
Analytics Vidhya

Pranav Dar
Lead BI Trainer and Sr.
Content Strategist
Analytics Vidhya

Dipanjan Sarkar
Lead Data Scientist
and Google Developer
Expert

Subhash Meena
Data Scientist,
Analytics Vidhya

Anusha Meghawat
Sr. Data Scientist
Analytics Vidhya

Here's how your Bootcamp Routine would look like..

Live Online Classes

- 3 hours of regular live online classes by Industry Experts
- Dedicated Co-Instructors to solve your doubts
- Learn latest tools and techniques

Assignments, Projects and Assessments

- Regular assignments to reapply your theoretical learning.
- Weekly and fortnightly industry-based projects for learning practical applications
- Assessments on completion of each module

Placement Services

- Get dedicated support with your resume building, social profile building.
- Rigorous Interview Preparations with regular mock interviews.
- Interviews with global companies from first month onward.

Optional Internship with Analytics Vidhya

The Data Science Immersive Bootcamp program is a **Part-Time Training Program** and perfect for all the full-time working professionals.

If you are NOT a full-time working professional, you can opt for an **optional internship with Analytics Vidhya**

The Internship offers the perfect opportunity to gain **industry experience** and work along with one of the Best **Data Science Teams**

Wondering whether this program is for you?

Data Science Immersive Bootcamp is the ultimate stepping stone to land your dream Data Science job!

Fresh Graduates

Get the right knowledge and experience required to get your dream data science job.

Young professionals

Deep dive into the world of data science with the right blend of tools, techniques and projects.

Future Leaders

Transition into data science early on in your career and start young in the world of data science.

Excited to be part of the Data Science Immersive Bootcamp?

Here's what you need to do..

Bootcamp: Enrollment Process

Apply for the Program

Apply for the Data Science Bootcamp program by filling up the Application form.

Attend Interview Drive

Take the Assessment tests, and undergo the interview rounds.

Join the Program

Get started on your journey to become a industry ready data scientist

Data Science Immersive Bootcamp

- 100% Job Guarantee*
- Industry-Relevant Curriculum & Projects
- Live Online Classes
